Owned by the Boss | Forbidden MM Office Romance J.K. Jones,2025-11-22 Politics is brutal—but nothing prepared me for him. My name is Slade Harrington, and I’m watching my re-election campaign go up in flames. The press hates me, my numbers are tanking, and I’m one scandal away from political extinction. That’s when Kieran Blackthorn walks in—cocky, ruthless, and the kind of man who chews up people like me for breakfast. He’s the campaign fixer no one likes to talk about. And I hate him on sight. I should walk away, but the deeper I fall into his control, the more I wonder if I ever truly knew what I wanted... until now. He's dangerous. I'm desperate. And together, we’re one spark away from setting fire to everything. Warning: This is a 75K MM BDSM political enemies-to-lovers romance. Communication Alternatives in Autism Edlyn Vallejo Peña,2019-09-20 Ten autistic self-advocates share their experiences with alternative forms of communication such as rapid prompting method (RPM) and facilitated communication (FC), both highly controversial. Their narratives document the complexities that autistic individuals navigate--in both educational and community settings--when choosing to use approaches that utilize letter boards and keyboards. While the

controversies remain--RPM requires further scientific study, and FC is subject to criticism about confirmation bias--these individuals share powerful stories in the context of aiming for disability rights. The book concludes with a chapter about best practices for educators, particularly for schools and colleges that have students who use these communication methods.

Hope, Utopia and Creativity in Higher Education Craig A. Hammond, 2017-01-12 Reappraising ideas associated with Ernst Bloch, Roland Barthes and Gaston Bachelard within the context of a utopian pedagogy, *Hope, Utopia and Creativity in Higher Education* reframes the transformative, creative and collaborative potential of education offering new concepts, tactics and pedagogical possibilities. Craig A. Hammond explores ways of analysing and democratising not only pedagogical conception, knowledge and delivery, but also the learning experience, and processes of negotiation and peer-assessment. Hammond shows how the incorporation of already existent learner hopes, daydreams, and creative possibilities can open up new opportunities for thinking about popular culture and memory, learning and knowledge, and collaborative communities of support. Drawing together theoretical and cultural material in a teaching and learning environment of empowerment, Hammond illustrates that formative articulations of alternative, utopian futures, across sociological, humanities, and education studies subjects and curricula, becomes possible.

Speed Bumps and Roundabouts: Lessons I've Learned on the Journey Pip McCracken, 2014-01-31 Why didn't life work out as I planned? My plan was great! I would grow up with a loving family. I would have many friends to make pinky promises with. I would get top grades through school and be popular to boot. I would study for a degree I was passionate about, and I would meet . . . "The One" (sigh) . . . we would get married and have children who looked and behaved like baby angels. Oh, and I'd live happily ever after, of course. Was that too much to ask? I didn't plan for my parents to divorce. I didn't plan to change schools because of bullying. I didn't plan for university to fill me with doubts about whether I was good enough. I didn't plan to be single at 28. I didn't plan to run away to the other side of the world. But look where I've ended up. Life is never the smooth and straightforward journey we expect. Along the way, things slow us down and turn us around. *Speed Bumps and Roundabouts* is a story of those things: Hope. Vulnerability. Apathy. Gratitude. Beauty. Boundaries. Waiting . . . The journey is worth it, the scenery can be captivating, but we'll never know unless we keep going . . . over the speed bumps and around the roundabouts.

Unfair Adam Benforado, 2016-06-14 NEW YORK TIMES BESTSELLER • "Unfair succinctly and persuasively recounts cutting-edge research testifying to the faulty and inaccurate procedures that underpin virtually all aspects of our criminal justice system, illustrating many with case studies."—The Boston Globe A child is gunned down by a police officer; an investigator ignores critical clues in a case; an innocent man confesses to a crime he did not commit; a jury acquits a killer. The evidence is all around us: Our system of justice is fundamentally broken. But it's not for the reasons we tend to think, as law professor Adam Benforado argues in this eye-opening, galvanizing book. Even if the system operated exactly as it was designed to, we would still end up with wrongful convictions, trampled rights, and unequal treatment. This is because the roots of injustice lie not inside the dark hearts of racist police officers or dishonest prosecutors, but within the minds of each and every one of us. This is difficult to accept. Our nation is founded on the idea that the law is impartial, that legal cases are won or lost on the basis of evidence, careful reasoning and nuanced argument. But they may, in fact, turn on the camera angle of a defendant's taped confession, the number of photos in a mug shot book, or a simple word choice during a cross-examination. In *Unfair*, Benforado shines a light on this troubling new field of research, showing, for example, that people with certain facial features receive longer sentences and that judges are far more likely to grant parole first thing in the morning. Over the last two decades, psychologists and neuroscientists have uncovered many cognitive forces that operate beyond our conscious awareness. Until we address these hidden biases head-on, Benforado argues, the social inequality we see now will only widen, as powerful players and institutions find ways to exploit the weaknesses of our legal system. Weaving together historical examples, scientific studies, and compelling court cases—from the border collie put on trial in Kentucky to the five teenagers who falsely confessed in the Central Park Jogger case—Benforado shows how our judicial processes fail to uphold our values and protect society's weakest members. With clarity and passion, he lays out the scope of

the legal system's dysfunction and proposes a wealth of practical reforms that could prevent injustice and help us achieve true fairness and equality before the law.

Enriching Christian Doctrine and Character Ph. D. Michael J. Akers,Akers,2009-03 God exists as God the Father, God the Son, and God the Spirit. We are God's people who relate to God in each of these manifestations. Thirteen key topics have been selected that cover basic Biblical doctrine on these four descriptors of whom God is and who we are as His children. Each of the fifty-two Biblical topics contain sufficient Scriptural references to enable the reader to fill an entire week looking up each Scripture and learn more deeply about what it is being taught from God's Word.. Each study contains questions for discussion somewhere in the text or as a separate list and concludes with at least one memorable quote. May each person spending time with this material be blessed by what the Holy Spirit does through these words of learning. May you not only learn a great deal, but also apply what you have learned in serving the Lord by serving others.
