Jennifer Coots

Sword in the Stars Cory McCarthy, A. R. Capetta, 2020-04-07 In this epic sequel to *Once & Future*, Ari and her Rainbow knights must pull off a Holy Grail heist thousands of years in the past -- without destroying their own destinies. Ari Helix may have won her battle against the tyrannical Mercer corporation, but the larger war has just begun. Ari and her cursed wizard Merlin must travel back in time to the unenlightened Middle Ages and steal the King Arthur's Grail -- the very definition of impossible. It's imperative that the time travelers not skew the timeline and alter the course of history. Coming face to face with the original Arthurian legend could produce a ripple effect that changes everything. Somehow Merlin forgot that the past can be even more dangerous than the future . . .

Sword in the Stars Wayne Thomas Batson, 2017-08-16 The difference in their uncanny eyes could not be easily discerned. In the rays of the setting sun, both Aravel's and Morlan's eyes appeared gold. In the pale moonlight...yellow. Seemingly the same. Such inscrutable likeness is the way of things with identical twins. But all who knew the two brothers well noted unmistakable differences, peculiarities more experienced than seen. Those who stood before King Aravel's gaze felt the glad firelight of a cozy inn. But those who fell under Morlan's stare felt the gleam of winter moonlight on the cold, white stone monuments in a boneyard. FROM THE BESTSELLING AUTHOR OF THE DOOR WITHIN TRILOGY comes an epic tale of two powerful kings whose rivalry threatens to tear the world of Myriad apart. Into this chaos of treachery and war, strides ex-assassin Alastair Coldhollow whose quest for redemption leads him to the one foe he cannot defeat with a thrust of his sword. Everything may hinge on an age-old prophecy, but after thousands of years, will the Sword appear in the Stars at last? With the aid of Abbagael Rivynfleur, a not-so-naive girl from the forest villages, Alastair will tread forgotten roads, face legendary creatures, and meet mysterious new races of people, all in an effort to find Myriad's Halfainin. So begins the sweeping seven-volume Myridian Constellation. Read on to discover what happens when the Sword is in the Stars, and the moon is blood red...

his own plans for her as well. Things are thrown in turmoil as even troubles arise in Lukaia and the youngest decides he's not much of a sleeper. Just read it, geesh.

Welcome to Your Designer Planet! Richard Leviton, 2007-09 We now live in the time of the Gaian hierophant. This is the one who reveals and shows us how to relate to the sacred aspects of Gaia, our planet. Who is this hierophant? Each of us, when we join the campaign with Gaia against the desecration of our natural environment. But first we have to discover what the Earth really is. The Earth's thousands of sacred sites hold a secret: they are functional parts of the planet's geomantic body, consciousness nodes in the Earth's subtle body. Each veils a Light temple, each once known widely and remembered in myth, and *Welcome to Your Designer Planet!* documents 165 different kinds. The Earth is not an accident of the cosmos, but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness. And the designers intended that humans help maintain it. Want to help the ecosystem and modulate global warming and climate change? Plug yourself into the Earth's Light grid through your nearest sacred site and start helping. Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research. The world's myths are the doorway into this fantastic domain of the Earth's visionary geography, showing us where to go and what to do and even what kinds of spiritual beings to expect to see. The future of the Earth is in our hands. Here are some pages from its design manual showing us how to fine-tune our wonderful host planet.

Dominator of the Stars Ku SeDeCha, 2021-04-14 In the vast universe, 100 races coexisted. A mutated blood spirit allowed Mu Qing to rise up from earth to fight against the bug clan. The purple bamboo forest attracted millions of thunder tribulations, and the black Kun Peng flapped its wings, crushing countless powerhouses. There was only one Imperial Lord in the starry sky!

SWORD IN THE STARS. CORI. CAPETTA MCCARTHY (AMY ROSE.), 2020

Nicole Oresme's *De visione stellarum* (On Seeing the Stars) Dan Burton, 2006-11-01 In this critical edition and translation of Nicole Oresme's *On Seeing the Stars*, the renowned 14th-century natural philosopher proposes that the stars are not where they seem. And perhaps nothing is where it seems. In this earliest treatise on atmospheric refraction, Oresme uses optics and infinitesimals to help solve this vexing problem of astronomy. He is the first to propose that light travels along a curve through the atmosphere – two centuries before Hooke and Newton, who are credited with the discovery. Further, he calls all sense data into doubt. Oresme's argument concerning the curvature of light is a major milestone in the history of science, confirming that Oresme was one of the most innovative scientists of the pre-modern world.

In Russia, in the summer of 1914, as war with Germany looms and the Czar's army tightens its grip on the local Jewish community, Miri Abramov and her brilliant physicist brother, Vanya, are facing an impossible decision. Since their parents drowned fleeing to America, Miri and Vanya have been raised by their babushka, a famous matchmaker who has taught them to protect themselves at all costs: to fight, to kill if necessary, and always to have an escape plan. But now, with fierce, headstrong Miri on the verge of becoming one of Russia's only female surgeons, and Vanya hoping to solve the final puzzles of Einstein's elusive theory of relativity, can they bear to leave the homeland that has given them so much? Before they have time to make their choice, war is declared and Vanya goes missing, along with Miri's fiancé. Miri braves the firing squad to go looking for them both. As the eclipse that will change history darkens skies across Russia, not only the safety of Miri's own family but the future of science itself hangs in the balance. Grounded in real history -- and inspired by the solar eclipse of 1914 -- A Bend in the Stars offers a heart-stopping account of modern science's greatest race amidst the chaos of World War I, and a love story as epic as the railways crossing Russia.

When Andrew and Maya meet in the park to work on a Romeo and Juliet assignment, they are drawn to each other. Led by the Stars David Luders, 2010 300 years before William the Conqueror brings feudalism to England, there is a like case in the Pacific islands. But there, two races meet, neither knowing until then that there are any others in the world. Polynesians, voyaging in quest of a place to start new fiefs, discover islands occupied by tribal blacks. Amazement, fear and curiosity give way to fascination, prejudice and ambition, but across the racial divide friendships form. Antagonisms amongst the colonisers lead to conflict. Alignments emerge, families struggle with setbacks and misfortunes. Through it all, young people form liaisons, building a society unimagined when first the two peoples met. Who then are the conquerors, and who the conquered? Out of the past, in the lush isolation of some Pacific islands, comes a story based on spoken histories told exclusively to the author. It is one that resonates strangely with issues of the present day. *Led by the Stars* is the first in the SAGA OF PACIFIC ISLANDS series of novels.

Like the Stars Glenn Parkinson, 2004-02-15 Should Christians be fighting a culture war or does the Bible call us to engage society in more positive and effective ways? Pastor Glenn Parkinson selects seven key texts in both the Old and New Testaments that outline how evangelicals can recapture their potential to enrich life in America. In a free and pluralistic culture, the chief social contribution of Christians is the inspiration of righteousness. Responding to the moral decline of America with resentment and hostility does not inspire righteousness; it only alienates our neighbors further from us and from the gospel. (from the Epilogue) The Bible gives hope that Christians might turn a decaying society upside down, but the answers are not easy. We must stop reacting possessively to the crumbling of our Christian heritage, and set about the task of winning hearts and minds. The time has come to lay down the combative rhetoric that keeps us standing stationary on our principles, and move out to engage a dying culture with the gospel that can make a difference. And those who are wise shall shine like the brightness of the sky above; and those who turn many to righteousness, like the stars forever and ever.-Daniel 12:3
