Lectures in E-Commerce Hannes Werthner, Martin Bichler, 2001-10-17 Although only a few years old, electronic commerce offers new ways of doing business that no business can afford to ignore. This book is a collection of selected contributions from renowned researchers who specialize in the various facets of electronic commerce, namely economics, finance, information technology, and education. The basic goal is to give an overview of some of the most relevant topics in E-Commerce.

Transformational Leadership and Not for Profits and Social Enterprises Ken Wiltshire, Aastha Malhotra, Micheal Axelsen, 2018-03-28 Recent decades have seen a significant transformation of the not-for-profit (NFP) sector. This includes rise in the number of organisations and people employed, shift from charities and philanthropic agencies to hybrid social enterprise business models, competing stakeholder interests and increasing expectations regarding accountability and transparency. The role of NFPs has also become more complex – they not only serve the disadvantaged and fulfil social needs but also actively advocate for and implement public policies and promote social and economic inclusion. The growth and complexity has brought with it a need for innovative and entrepreneurial approaches to leadership that stems from an in-depth understanding of the changing nonprofit landscape. Addressing this need, for Not for Profits and Social Enterprises will help readers navigate extant challenges by drawing on conceptual literature, both theoretical and empirical and emphasising practical real world experience through case studies and vignettes. The key aim of this book is to help existing and future NFP leaders at all organisational levels to support their organisations and employees and in turn clients and communities, through theoretical insights and practical approaches by focusing on transformational leadership aspects for contemporary Not for Profits. for Not for Profits and Social Enterprises is key reading for researchers, academics and policy makers in the areas of Non-profit Management, Leadership, Public Sector Management and Charity Management as well as related disciplines such as Philanthropy and Social Entrepreneurship.

Implementing Triple Bottom Line Sustainability into Global Supply Chains Lydia Bals, Wendy Tate, 2017-09-08 The global sustainability challenge is urgent, tremendous and increasing. From an ecological perspective, the current worldwide resource footprint requires approximately 1.5 planets to sustain existing life, and with current usage would require two planets by 2030. The social impact of ever-growing resource use disproportionately affects the world's poor – the

3 billion people living on less than \$2.50 a day, as they struggle to acquire what is needed to survive. The serious ecological and social challenges we face in trying to establish global sustainable supply chains must not be underestimated, yet so far research has largely ignored the social dimension in favour of the environmental and economic. So how can we develop business strategies that move away from a primary economic focus and give equal weight to people, planet and profit? How can we create sustainable supply chains that take a true triple-bottom-line approach? Implementing Triple Bottom Line Sustainability into Global Supply Chains features innovative research, highlighting new cases, approaches and concepts in how to successfully implement sustainability – covering economic, ecological and social dimensions – into global supply chains. The four parts cover the rationale for sustainable global supply chains, key enablers, case studies showing clear implementation steps, and directions for future research and development. This book is a must-read for any academic researching in sustainable supply chain management, procurement or business strategy, and for business leaders seeking cases that will inform a critical step forward for CSR programmes.

Secrets of Highly Successful Mentors and Advisors Svetlana Vlady, 2019-05-03 This volume will serve to inspire doctoral students and supervisors and make the journey to a doctorate less stressful and more successful. Experienced professors from Australia, New Zealand, the USA, and Eastern Europe were invited to participate in interviews. Each interview is presented in the form of a story, in which each outstanding supervisor shares their secrets to success and discusses their supervision styles. Furthermore, through comparative analysis, this book discusses the similarities and differences in various supervision styles and student-supervisor relationships, which may be affected by the specific rules and cultural traditions of the supervisors' surroundings. Good supervision can support Master's and undergraduate research as well, and, as such, this book will also be useful for graduate and undergraduate students, advisors, and mentors.

Emotions and Organizational Dynamism Wilfred J. Zerbe, Charmine E. J. Härtel, Neal M. Ashkanasy, 2010-07-02 Emotions have widespread effects in organizations and underlie a broad range of dynamics in organizations. This volume explores the role that emotion plays in such diverse organizational phenomena as entrepreneurship, change, service failure, and creativity.

Exporting Education to Asia Ainsley Jolley, 1997 Examines the export of education services to Asia during the past ten years. The major component of this has been the education of overseas students in Australia. While originally focused on assisted education through international aid programs, since 1987 a commercial industry has grown, catering for fee-paying students. Changes in Asian education policies and increased competition from other countries will challenge Australia's current success. This book examines the international education market, directions of higher education in Asia, the strengths

of Australia's major competitors in the market, trends in individual markets and future market opportunities.

Miner With a Heart of Gold Franklin White, 2020-09-01 During the mid-twentieth century, Mineral Science and Engineering educator Frank White played an influential role in the advancement of his field, widely respected not only for his knowledge but also for his advocacy, leadership, and visionary perspective on both mining technologies and their impact on the environment. He looked at mining and metallurgical engineering through a much wider lens than was common at the time, embracing a diversity of cultures with environmental consciousness, inclusiveness, and a commitment to sustainability. Written by his son, this is the story of Frank White—a story that connects people, cultures, and histories from around the world: Australia, New Zealand, the Western Pacific, South East Asia, and North America. He lived through hardship, warfare, and economic upheavals, but with the love of his family, and the satisfaction of scientific and educational advancement, he remained always a seeker of knowledge, and an inspiration for all those whose lives he touched.

An International Guide to Patent Case Management for Judges World Intellectual Property Organization, 2023-04-19 Produced with the support of the University of California at Berkeley School of Law and the Berkeley Judicial Institute, this Guide highlights the progress achieved in patent case management in ten patent-heavy jurisdictions. The Guide offers an overview of the patent system in each jurisdiction, including the role of patent offices in evaluating and deciding on patent validity, and the judicial structures responsible for resolving patent disputes. Thereafter chapters are structured on the different stages of patent litigation in civil infringement cases. Readers can create their own custom guide by selecting any combination of jurisdictions and topics covered in the Guide. Communicating Risk Jonathan Crichton, Christopher N. Candlin, Arthur S. Firkins, 2016-01-05 We live in world increasingly shaped by risk, a fact underscored by recent events in the financial markets, science and technology, environmental policy and biosecurity, law enforcement and criminal justice. Risk assessment has become a central concern of governments, organisations and the professions, and the communication of risk is a crucial part of professional work. Exploring how risk is discursively constructed across these domains is therefore central to our understanding of how professional practice affects people's lives. *Communicating Risk* takes up this challenge, with contributions from leading researchers and practitioners that examine key issues of risk communication across diverse professional domains.
