Sociology and Popular Television Raisa-Gabriela Zamfirescu, 2025-03-21 This book examines representations of gender, age and identity across the Hallmark film and television output in relation to specific periods of time that pertain to changes within the specific entertainment sector. Using a comprehensive collection of 628 original Hallmark television films released between January 2015 and December 2023, the book applies content analysis to a variety of quantitative, qualitative, and mixed data, including behind-the-scenes credits, actors and actresses, characters and their narratives, promotional posters, Facebook comments, and official synopsis. In addition to examining diversity of race and religion, it analyses ageism through the portrayal of elders and young people in idealized imagery and stereotypes, inclusivity of LGBTQ and disabled characters, and ageism in relation to both masculinities and femininities. This book will be of interest to readers in fields including gender studies and sociology, visual communication, film and television studies, aging, media and communications, and popular culture.

Cheap Tricks and Class Acts John "J.J." Johnson, 2009-02-13 In the 1950s Hollywood unleashed a wave of monsters; everything from demon aliens and dinosaurs to blobs and bloated bugs infested theaters and drive-ins. Lost worlds were discovered, unnatural terrors shook the screen, gigantism ran rampant. Moviegoers were left with one question: How did they do that? This work uncovers the cheap and challenging behind-the-scenes production secrets of the fantastic films of the 1950s. Special technical effects, visual effects, menacing makeup, stunts, fantastic sets and film locations are all covered in detail along with the many men and women who shared in these occasionally brilliant and usually outrageous efforts. Also included is a lengthy checklist of the prominent makeup, stunt, prop and effects artists of the era, with a listing of their fantastic film credits.

The English New England Voyages, 1602-1608 David B. Quinn,2017-05-15 The publication of the narrative accounts of the voyages of Gisnold (1602) and Weymouth (1605) opened up for English readers what was then known as Norumbega, the later New England; They are the first documents of exploration of that region to have been published since that of Verrazzano's voyage (1524) in 1556. To the accounts of these voyages by John Brereton and James Rosier there was added by Purchas in 1625 the material of Martin Pring's voyage of 1603 and some scraps of information on the attempted colony by the Virginia Company of Plymouth at Sagadahoc on the Kennebec River in 1607-1608. The narrative of the voyage of the Mary and John, discovered in the 19th century, and now attributed to Robert Davies, remains our main authority for the 1607

voyage. Many ancillary documents are added to these essential sources. Most of these narratives have been edited in the distant past but they are now furnished with full information on fauna, flora, and above all, ethnography. The material which has become available on Indians of both northern and southern New England has enabled a full account to be given of them, while expert advice has been obtained in the edition of the Eastern Abenaki vocabulary of 1605. Considerable attention has been paid to topographical problems, to which new solutions are offered in a number of cases (though conflicting views are discussed in an appendix). The volume thus makes up a collection which is basic for the understanding of how Englishmen began to explore New England (and how its inhabitants learnt something of the English) and on how that important territory first came to light in detail. The narratives are of great interest in themselves and the biographical information which it has been possible to assemble in the introduction about a number of the authors and actors in the voyages and the colonising attempt of 1607 is valuable in enabling the reader to understand what they wrote and what they omitted. Professor and Mrs Quinn have worked on this volume for a number of years and their introduction and notes constitute an important addition to our knowledge.

Resting Places Scott Wilson, 2016-09-05 In its third edition, this massive reference work lists the final resting places of more than 14,000 people from a wide range of fields, including politics, the military, the arts, crime, sports and popular culture. Many entries are new to this edition. Each listing provides birth and death dates, a brief summary of the subject's claim to fame and their burial site location or as much as is known. Grave location within a cemetery is provided in many cases, as well as places of cremation and sites where ashes were scattered. Source information is provided.

Fodor's Nova Scotia and Atlantic Canada Caroline Trefler, Denise Leto, 2012 Offers information on accommodations, restaurants, and local attractions, along with tips on transportation, guidelines for shopping excursions, and symbols to indicate budget options.

More than 600 movies, from blockbuster features to lesser-known indies, have been entirely or partially set in the region since 1927, when talkies made their debut. This essential publication will satisfy your curiosity and identify locations. Beyond the matter-of-fact location information, this book tells the stories behind the films and about the sites used. It also highlights those actors, directors, or technical staff who originated from the Bay Area or have come to call it home.
