Effective Group Therapies for Young Adults Affected by Cancer Sarah Kurker, 2021-03-31 Outlining the unique psychosocial and development issues faced by young adults affected by cancer, this text draws on qualitative data from two pilot studies conducted in the United States to illustrate how the needs of this often-overlooked population can be effectively met via group therapy in clinical settings. Drawing on 25 years of experience as a licensed clinical social worker supporting pediatric and young adult cancer patients and their families, Kurker focuses on the role of the clinician in structuring support group sessions. Chapters draw on patient perspectives to demonstrate effective application of interventions to help adolescents work through trauma associated with a diagnosis of cancer, treatment, recovery and the impacts on their development. Outcomes from these studies also include strategies for selecting support group participants, structuring group activities and securing funding. *Effective Group Therapies for Young Adults Affected by Cancer* will be a valuable text for oncology social workers and clinicians involved in adolescent support services. In addition, researchers and postgraduate students with an interest in the fields of social work, psychology and adolescent development will find the book of interest.

Photojojo Amit Gupta, Kelly Jensen, 2011-07-27 A photo, an idea, and simple crafting skills are all you need to transform your pictures into useful, fun, giftable art. With clear DIY instructions, *Photojojo!* by Amit Gupta and Kelly Jensen shows you how to turn your forgotten photos into ingenious photo projects. Do you have lots of pics of friends and family you want to show off? Make a sleek, stylish photo display rail so you can change them up at a moment's notice. Need something to play with? Make photo slider puzzles, Rubik's cubes, and temporary tattoos. Or spruce up your pad with a photo chandelier or a giant wall mural you can print at home! All the projects use basic materials and are easy enough to whip up in an afternoon. Once you're armed with what you can do with all your images, check out Photojojo's inspiring ideas to get you shooting photographs more creatively. Investigate the world from a canine perspective with the amazing doggie cam, or grab your

friends and head out on a photo safari. Make a sneaky hidden jacket camera and turn string, a washer, and a screw into a monopod that fits in your pocket, MacGyver-style. Learn how to motivate yourself to take a photo every day with project 365, or get the little ones involved with Photojojo's head-spinning photography method: because you + kid + centrifugal force = awesome. Yep, photography just became a whole lot more fun.

Comprehensive Handbook of Childhood Cancer and Sickle Cell Disease Ronald T. Brown,2006-04-06 Over recent decades, tremendous advances in the prevention, medical treatment, and quality of life issues in children and adolescents surviving cancer have spawned a host of research on pediatric psychosocial oncology. This important volume fulfills the clear need for an up-to-date, comprehensive handbook for practitioners that delineates the most recent research in the field--the first of its kind in over a decade. Over 60 renowned authors have been assembled to provide a thorough presentation of the state-of-the art research and literature, with topics including: -Neuropsychological effects of chemotherapy and radiation therapy -Bone marrow transplantation -Important issues about quality of life during and following treatment -Collaborative research among child-focused psychologists -Standards of psychological care for children and adolescents -Stress and coping in the pediatric cancer experience -The role of family and peer relationships The Comprehensive Handbook of Childhood Cancer and Sickle Cell Disease represents both multidisciplinary and international efforts, an alliance between physicians and parents, and a combination of research and service. With a wealth of information of great interest to patients and their families, this volume will also be a welcome resource to the psychologists, psychiatrists, pediatricians, oncologists, nurses, and social workers who confront these issues as they help children and their families through the treatment, recovery, and grieving processes.

Results That Last Quint Studer,2010-12-09 Praise for Results That LastQuint Studer is a superb communicator with a deep belief in the power of relationships. His informal tone, sense of humor, and real-world stories bring his business principles to life. Results That Last has a vital, optimistic quality that will keep readers re-reading long after other leadership books have been relegated to a dark corner of the shelf.--Nido Qubein, author of How to Get Anything You Want; President, High Point University; Chairman, Great Harvest Bread Company; and founder, National Speakers Association FoundationResults That Last is long overdue and fills a big gap in effective business management. There are legions of books that show us the way to achieve successful results in business, but very few that teach us how to institutionalize success. In reality, achieving success is the easy part. The real challenge is to achieve results that last. Quint Studer not only proves it is possible to hardwire a culture for lasting results, but lays out a simple, logical, and effective way to do so. Anyone who wants to make success a habit needs to read this book.--Bob MacDonald, former CEO, Allianz Life of North America and author of Beat the System: 11 Secrets to Building an Entrepreneurial Culture in a Bureaucratic WorldI have always been fascinated by

how the various parts of an organization work together to achieve strategic objectives. In *Results That Last*, Quint Studer explores the complex subject of performance improvement in a fresh, readable, and easy-to-grasp way. By standardizing certain business practices and leader behaviors, any company in any field can create an environment that allows it to achieve and sustain long-term results.--David F. Giannetto, coauthor of *The Performance Power Grid: The Proven Method to Create and Sustain Superior Organizational Performance*

Teaching, Learning and Psychology Jane Yeomans,Christopher Arnold,2013-05-13 Presenting a range of psychological theories in a non-technical and readable style, this book shows how psychology can be used to effectively deliver educational objectives and enhance children's learning. Linking theory with practical application, the authors consider the wider role that

schools can play in the social development of children through: teaching and managing individual pupils teaching and managing groups of pupils the teacher as part of an organisation and school system the teacher as part of the community of the school and area. Structured to reflect the standards for QTS and relevant for key stages 1-4, this book shows how understanding the psychological theories underpinning pedagogy can help both trainee and practising teachers become reflective and informed practitioners when faced with new and challenging teaching situations.

The One Thing You Need to Know Ross Lovelock,2013-11-18 A tried and tested formula for business planning What is the one thing you need to know in business? What's the single most important aspect of business to master in order to succeed and grow? It has to be planning. Whether you're sitting down to plan a whole brand strategy or tasked with planning a single product and taking it to market, nailing the planning and decision making will ensure you have full buy-in from all stakeholders, a high level of market knowledge, know exactly what value your product or service brings and a thorough understanding of how the financials will work. In short, you'll have an idea that succeeds. Ross Lovelock and his company SCQuARE have spent the last 20 years developing a formula for such planning. Ross has shared this formula with some of the world's leading companies - now he's going to share it with you. The One Thing You Need to Know is a complete business planning toolkit. A simple, implementable explanation of how to bring a product plan or a brand strategy together Will teach you the critical business skill of creating and selling plans Learn how to think through a complex business problem, create the right solution and then sell it through the corporate maze Explains exactly how to distil vast amounts of information into a compelling business story that will warrant a YES decision from the boss

How I Met Einstein Alan Trussell-Cullen,2000 The author of Ask Einstein describes how he got the idea for the character of Einstein, the process of writing the story, and the roles of the editor, designer, illustrator and printer in transforming his idea into a book. Suggested level: primary.

Research In The Age Of The Steady-state University Don I. Phillips,Benjamin S. P. Shen,2019-06-04 The authors of this book point to the need for a strong cooperative relationship between research and education to halt declines and to regain some of the earlier vitality of both. Representatives of the scientific, educational, and government sectors look at the problems and prospects facing U.S. research and university education, presenting the perspectives of their own institutional biases and turning also to the experiences of Canada and Western Europe. The concerns, proposals, and requirements they express deal with areas of conflict and suggest possible solutions. Though their views sometimes diverge, the authors seek to define some basic principles that can guide the development of productive new policies.

Life-Like Characters Helmut Prendinger,Mitsuru Ishizuka,2013-03-09 Life-like characters is one of the most exciting technologies for human-computer interface applications today. They convincingly take the roles of virtual presenters, synthetic actors and sales personas, teammates and tutors. A common characteristic underlying their life-likeness or

believability as virtual conversational partners is computational models that provide them with affective functions such as synthetic emotions and personalities and implement human interactive behavior. The wide dissemination of life-like characters in multimedia systems, however, will greatly depend on the availability of control languages and tools that facilitate scripting of intelligent conversational behaviour. This book presents the first comprehensive collection of the latest developments in scripting and representation languages for life-like characters, rounded off with an in-depth comparison and synopsis of the major approaches. Introducing toolkits for authoring animated characters further supports the ease of use of this new interface technology. Life-like characters being a vibrant research area, various applications have been designed and implemented. This book offers coverage of the most successful and promising applications, ranging from product presentation and student training to knowledge integration and interactive gaming. It also discusses the key challenges in the area and provides design guidelines for employing life-like characters.

Just Don't Seize the Day, Seize the Moment Michael J. Onoroto, 2017-03-13 I wrote my book partially because I've had a great life, and I've also have seen the other side of the fence. There were times in the life when I've found myself in poor health, broke, and homeless. I've traveled down some rough roads, but I had to come to a realization that I was partially to blame for my own mistakes and I had to dig deep within my own soul and dig myself out of my own problems. One of my biggest battles I've ever fought was when I was severely injured w
