Research Anthology on Bilingual and Multilingual Education Management Association, Information Resources, 2021-10-29 Given the boost in global immigration and migration, as well as the emphasis on creating inclusive classrooms, research is turning to the challenges that teachers face with the increasing need for bilingual and multilingual education. The benefits of bilingual education are widespread, allowing students to develop important cognitive skills such as critical thinking and problem solving as well as opening further career opportunities later in life. However, very few resources are available for the successful practice and implementation of this education into the curriculum, with an even greater lack of appropriate cultural representation in the classroom. Thus, it is essential for educators to remain knowledgeable on the emerging strategies and procedures available for making bilingual and multilingual education successful. The Research Anthology on Bilingual and Multilingual Education is a comprehensive reference source on bilingual and multilingual education that offers the latest insights on education strategy and considerations on the language learners themselves. This research anthology features a diverse collection of authors, offering valuable global perspectives on multilingual education. Covering topics such as gamification, learning processes, and teaching models, this anthology serves as an essential resource for professors, teachers, pre-service teachers, faculty of K-12 and higher education, government officials, policymakers, researchers, and academicians with an interest in key strategy and understanding of bilingual and multilingual education.

Examining Content and Language Integrated Learning (CLIL) Theories and Practices Khalyapina, Liudmila, 2020-05-08 The growing interest in the problems of integrated foreign language teaching and professional disciplines is manifested in the formulation of new concepts and approaches, which at the moment are controversial. The lack of a common conceptual framework of integrated education in the system of higher professional education in different countries manifests itself in the attempts of researchers to either completely eliminate the achievements of their colleagues in this area or, without any scientific and practical justification, mechanically transfer foreign experiences in their conditions. Examining Content and Language Integrated Learning (CLIL) Theories and Practices is a cutting-edge research publication that investigates the different approaches and models of progressive technology within linguodidactics and the

methodologies for teaching foreign languages. Highlighting a range of topics such as blended learning, cognition, and professional discourse, this book is essential for language teachers, linguists, curriculum developers, instructional designers, deans, researchers, practitioners, administrators, educators, academicians, and students.

English for Professional and Academic Purposes Miguel F. Ruiz-Garrido, Juan Carlos Palmer, Inmaculada Fortanet-Gómez, 2010 English in academic and professional settings has received great attention over the last 50 years, as its use has become a key asset for anyone interested in improving his/her chances of communicating internationally. However, it still offers rich opportunities for teachers and researchers working on English in specific settings. The aim of English for Professional and Academic Purposes is to offer an overview of several topics within the field of discourse analysis applied to English in academic and professional domains. The book compiles contributions from different origins, ranging from Japan to the USA and several European countries, and covers English as a native, second, foreign and international language. It also deals with various specialities, including academic writing, business discourse or English for medicine, nursing, maritime industry and science and engineering. This volume is divided into three sections: Discourse Analysis of English for Academic Purposes, Professional English and EPAP Pedagogy, since it was conceived as a contribution to the research on how English is analysed as both the discourse of and for effective communication in academic and professional settings, and how it can be applied to teaching. This manuscript offers some fresh insights for those involved or interested in this field of expertise, in an attempt to shed some light on its latest innovations.

Assessing English for Professional Purposes Ute Knoch, Susy Macqueen, 2019-09-10 ** WINNER OF ILTA/SAGE Best Book Award 2020 ** Assessing English for Professional Purposes provides a state-of-the-art account of the various kinds of language assessments used to determine people's abilities to function linguistically in the workplace. At a time when professional expertise is increasingly mobile and diverse, with highly trained professionals migrating across national boundaries to apply their skills in English-speaking settings, this book offers a renewed agenda for inquiry into language assessments for professional purposes (LAPP). Many of these experts work in high-risk environments where communication breakdowns can have serious consequences. This risk has been identified by governments and professional bodies, who implement language tests for gate-keeping purposes. Through a sociological lens of risk and responsibility, this book: provides a detailed overview of both foundational and recent literature in the field; offers conceptual tools for specific purpose assessment, including a socially oriented theory of construct; develops theory and practice in key areas, such as needs analysis, test development, validation and policy; significantly broadens the scope of the assessment of English for professional purposes to include a range of assessment practices for both professionals and laypeople in professional settings. Assessing English for Professional Purposes is key reading for researchers, graduate students and practitioners working in the area of English for Specific Purposes assessment.

Positioning English for Specific Purposes in an English Language Teaching Context Nadežda Stojković, 2018-07-05 With the unrelenting spread of globalization, the English language has been firmly established as the Lingua Franca. Now more than ever, the importance of learning English is paramount within nearly all professional and educational sectors. English for Specific Purposes (ESP) has long been accepted as an effective method for teaching English as a foreign language. In recent years, it has experienced an increasing presence in secondary and tertiary education across the globe. This is predominantly due to its learner-centered approach that focuses on developing linguistic competence in the student's specific discipline, may that be academics, business or tourism, for example. Positioning English for Specific Purposes in an English Language Teaching Context attempts to present and define the relevance and scope of ESP within English Language teaching. From mobile phones as educational tools to the language needs of medical students, the contributors to this volume examine and propose different epistemological and methodological aspects of ESP teaching. Its unique approach to ESP marks this volume out as an important and necessary contribution to existing ESP literature, and one that will be of use to both researchers and practitioners of ESP.

Spoken Corpora in Applied Linguistics Mari Carmen Campoy, María José Luzón, 2007 This volume explores the

opportunities that spoken corpora offer and the challenges of research with such corpora. The use and applications of spoken corpora are discussed from the perspective of both language analysis and language pedagogy. Twelve chapters written by corpus linguists analyse an extensive number of spoken corpora based on the oral production of speakers as varied as language learners, users of English as Lingua Franca, native speakers, or speakers of English in academic contexts. This book also highlights the growing emphasis on the use of corpus-based research by examining the implications of corpus findings in educational settings.

Teacher Professional Development for the Integration of Content and Language in Higher Education Ma Noelia Ruiz-Madrid, Inmaculada Fortanet-Gómez, 2023-09-19 This book addresses heated issues in Integrated Content and Language in Higher Education (ICLHE) teacher training with specific emphasis on case studies that will contribute to inform future ICLHE teacher training research and practice. One of the most significant phenomena concerning language in higher education in modern time has been the rise of content subjects taught in an additional language, English being the chosen language in most of the cases. The implementation and teaching of Integrated Content and Language in Higher Education (ICLHE) or English as Medium of Instruction (EMI) is a multifaceted, dynamic process that cannot be considered in isolation. Indeed, there are a multitude of interrelated factors that pivot on situating the learner in the centre of the learning process and which directly shape ICLHE teacher training. This is why training lecturers to teach learners in an additional language in Higher Education has been considered a challenge for the profession as numerous publications demonstrate. This book brings together the innovative work of different researchers around the world on how universities, researchers and practitioners are facing and developing Integrating Content and Language in Higher Education (ICLHE) teacher training. All in all, the different contributions reflect different issues that play a fundamental role in the design of effective ICLHE professional development and provide data and reflections that will hopefully contribute to inform future ICLHE teacher training programmes. *Teacher Professional Development for the Integration of Content and Language in Higher Education* will be an important resource for academics, researchers, and advanced students of Education and Teacher Training Research and Practice. The chapters included in this book were originally published as a special issue of *Innovation in Language Learning and Teaching*.
