Founder's Guide to Governance Michael J. Robinson, 2023-08-24 Founding a business is among the most difficult, lonely, and rewarding challenges a person will ever undertake. A founder can better manage their personal stress and significantly increase their chances of success if they develop effective governance practices that help attract the resources needed to fuel corporate growth. As a founder this book will help you develop corporate structures and processes that support your business as it grows, transforming your corporation from good to great. If you provide guidance to a founder as an investor, advisor, or director, this book will allow you to help your founder build a scalable governance structure at a relatively low cost; a structure that will address the increased complexity of the corporation as it matures. Based upon academic research and industry best practices, this innovative book includes insights from leading participants in Canada's entrepreneurial ecosystem. After reading this book, you will understand how governance is a strategic resource to help manage your corporation's risk and accelerate its growth. *Founder's Guide to Governance* provides a foundation for business success.

Pioneering A Smart, Sustainable, And Resilient Future: Founder Stories And Business Models Chiraphol N Chiyachantana, Tamas Makany, David K Ding, 2023-08-23 The Lee Kuan Yew Global Business Plan Competition (LKYGBPC) is a biennial university startup challenge in Singapore which is organized by the Institute of Innovation and Entrepreneurship (IIE) at Singapore Management University. The LKYGBPC derives its name from Singapore's founding Prime Minister, who developed the country's defining business plan bringing Singapore onto the global stage. It is this spirit of entrepreneurship, innovation and ambition that the competition enshrines. This book is a practitioner's guide to the entrepreneurial journey of selected start-ups — from cradle to success. By reflecting on their personal stories, the book provides aspiring entrepreneurs with potential roadmaps on how they, too, can chase their dreams and experiment with various business models to achieve success. With real-life case studies from the finalists of the 10th Lee Kuan Yew Global Business Plan Competition, *Pioneering a Smart, Sustainable, and Resilient Future: Founder Stories and Business Models* seeks to provide readers with the framework to elicit their own blueprint for a successful venture.

Genetics, Speciation, and the Founder Principle Luther Val Giddings,Kenneth Y. Kaneshiro,Wyatt W. Anderson,1989 This book describes the genetic mechanisms that govern the development and evolution of animals and plants. In particular, the book focuses on animal and plant species evolving in isolated habitats and species colonizing new territories. This approach--studying founder populations--enables geneticists to more readily identify some of the evolutionary pressures affecting the speciation process. The Founder Principle in population genetics was elucidated in large part by Hampton Carson in classic studies of Hawaiian fruit flies (*Drosophila*). The editors of this volume have commissioned seventeen chapters by an internationally recognized group of geneticists who discuss the principle in relation to plant speciation, chromosomal evolution, molecular evolution and development, sexual selection, and genetic changes in natural populations.

Handbook Of Investment Analysis, Portfolio Management, And Financial Derivatives (In 4 Volumes) Cheng Few Lee,Alice C Lee,John C Lee,2024-04-08 This four-volume handbook covers important topics in the fields of investment analysis, portfolio management, and financial derivatives. Investment analysis papers cover technical analysis, fundamental analysis, contrarian analysis, and dynamic asset allocation. Portfolio analysis papers include optimization, minimization, and other methods which will be used to obtain the optimal weights of portfolio and their applications. Mutual fund and hedge fund papers are also included as one of the applications of portfolio analysis in this handbook.The topic of financial derivatives, which includes futures, options, swaps, and risk management, is very important for both academicians and partitioners. Papers of financial derivatives in this handbook include (i) valuation of future contracts and hedge ratio determination, (ii) options valuation, hedging, and their application in investment analysis and portfolio management, and (iii) theories and applications of risk management.Led by worldwide known Distinguished Professor Cheng Few Lee from Rutgers University, this multi-volume work integrates theoretical, methodological, and practical issues of investment analysis, portfolio management, and financial derivatives based on his years of academic and industry experience.

Anaphora Resolution Massimo Poesio,Roland Stuckardt,Yannick Versley,2016-08-04 This book lays out a path leading from the linguistic and cognitive basics, to classical rule-based and machine learning algorithms, to today's state-of-the-art approaches, which use advanced empirically grounded techniques, automatic knowledge acquisition, and refined linguistic modeling to make a real difference in real-world applications. Anaphora and coreference resolution both refer to the process of linking textual phrases (and, consequently, the information attached to them) within as well as across sentence boundaries, and to the same discourse referent. The book offers an overview of recent research advances, focusing on practical, operational approaches and their applications. In part I (Background), it provides a general introduction, which succinctly summarizes the linguistic, cognitive, and computational foundations of anaphora processing and the key classical

rule- and machine-learning-based anaphora resolution algorithms. Acknowledging the central importance of shared resources, part II (Resources) covers annotated corpora, formal evaluation, preprocessing technology, and off-the-shelf anaphora resolution systems. Part III (Algorithms) provides a thorough description of state-of-the-art anaphora resolution algorithms, covering enhanced machine learning methods as well as techniques for accomplishing important subtasks such as mention detection and acquisition of relevant knowledge. Part IV (Applications) deals with a selection of important anaphora and coreference resolution applications, discussing particular scenarios in diverse domains and distilling a best-practice model for systematically approaching new application cases. In the concluding part V (Outlook), based on a survey conducted among the contributing authors, the prospects of the research field of anaphora processing are discussed, and promising new areas of interdisciplinary cooperation and emerging application scenarios are identified. Given the book's design, it can be used both as an accompanying text for advanced lectures in computational linguistics, natural language engineering, and computer science, and as a reference work for research and independent study. It addresses an audience that includes academic researchers, university lecturers, postgraduate students, advanced undergraduate students, industrial researchers, and software engineers.

The Zero Hiccup Way To Building A Technology Company Ayush Jain, 2022-07-12 The objective of writing this book is simple- Fill you with enough knowledge to make you dangerous. With this book, I have tried to create one source that answers all questions that any founder would have when he/she embarks on his/her product journey. Working with founders, oftentimes I found that they needed to be educated about product development practices, guided about how they should get ready to be the CEO/CXO of their company and what things they should focus on to get the best chance for success. This book is the compilation of all such learnings and ideas that I shared with our customers and even learnt from them. Once you have finished the book you will have a solid understanding of how to manage product development using developers/ teams. You will know how to get the best out of the team. And keep your product journey predictable. By having the knowledge, you will mitigate your risk and make better decisions. This book will demystify the intimidating or mysterious aspects of building technology products and you will learn to ask the right questions and be dangerous in the right way.

Enterprise Innovation Ecosystem Jin Chen, 2023-09-19 This book targets the key issues of both research and practice in innovation and strategic management fields and is regarded as one of the important works explaining enterprises from the innovation system perspective. The book is based on the existing literature involving national innovation system, regional innovation system, and industrial/sectional innovation system and reviews intra-organizational innovation system researches and inter-organizational innovation ecosystem literature. Accordingly, the book proposes a "core competence-based innovation ecosystem framework", indicating the importance of fit between firms' internal core competence and external innovation ecosystem, which is pivotal for leveraging the sustainable competitiveness advantages. In addition, the book

further adopts multiple case studies, involving the firms' innovation ecosystems upon ten typical global enterprises in and out of China - e.g., Apple Inc., Siemens, Procter & Gamble, Microsoft Corporation, Google, Founder Group, Haier Group, China South Railway, Huawei, and Midea. Teachers and researchers from universities in innovation and strategic management fields and industrial management practitioners can benefit from the book.
