**Tomato Bisque for the Brain** David A. Wright MD MM MBA MHSA,2021-05-04 Tomato Bisque for the Brain is a book of wisdom, abundance, empowerment, prosperity and success. Tomato Bisque for the Brain is the best way to increase your self-improvement, self-development, self-motivation, self-reflection, self-actualization, self-determination, self-transformation and self-enhancement on a daily basis! The book's purpose is to help individuals move forward in life in positive ways through increased self-improvement, self-development, self-motivation, self-reflection, self-actualization, self-determination, self-transformation and self-enhancement. In addition to carrying 2/3rds of a year's worth of motivational quotations and inspirational self-affirmations (in Chapter 7), this book also helps to enable you to move forward in positive, transformational ways by presenting you with techniques, methods and strategies for helping you control your mood, create success, sideswipe negativity, escape emotional and behavioral ruts, and reset your mindset when needed. At its core, Tomato Bisque for the Brain illustrates the concept that pills alone will not solve most mental, emotional and/or psychological problems. The idea for this book came from watching Super Soul Sundays (R) on the Oprah Winfrey Network (OWN) (R). Watching the show has been such an inspiration for me. Tomato Bisque for the Brain's been a teacher. Oprah's Thought for Today newsletter (R) has also been a great inspiration. As an MD with two Abundance, Empowerment, Mind-setting and Prosperity Practices, MLC Of Greater Atlanta [MLCOGA], and Atlanta Coaching and Hypnotherapy Associates [ACHA], I help my clients to realize that

there are motivations, inspirations and moments of insight that are readily available to them. In practice, I found myself continually sending my clients to other sources to find concepts, affirmations, quotes and statements that would help empower them and fuel their meditations on a daily basis. So, I decided to create one for them so that I wouldn't have to necessarily send them elsewhere. Together, the chapters of this book will empower you with success-driving techniques while also providing you with the basic concepts, underpinnings and foundation for the formation of the habits upon which healthy mindsets and success are built. David A. Wright, MD, MM, MBA, MHSA “Tomato Bisque for the Brain is inspiring. Tomato Bisque for the Brain taps into the very essence of self-esteem building and affirmation. Dr. Wright manages to boost the spirits of readers by employing short, straight-to-the-point quotes that are enabling, timely, emotionally tranquilizing, and useful for readers. These quotes are spiritually rich in nature and can, like a hot bowl of tomato bisque soup, indeed lift your spirits, allay your cravings, and comfort you.” Dr. Bettye Dunn-Wright University of Arkansas at Pine Bluff Associate professor, School of Education, Curriculum and Instruction Past School District Superintendent & Elementary School Principal “Tomato Bisque for the Brain is an outstanding addition to the motivational self-help field as we have been awaiting a compendium of practical self-help quotes and positive affirmations. Individuals struggling with stress, anxiety, life direction, or challenges and obstacles will find this immensely valuable. I have known Dr. Wright for over ten years. He is an intelligent, observant, levelheaded, practical, and innovative thinker in the mental health field. This should be required reading for all individuals who struggle with purpose and direction!” Todd M. Antin, MD Board certified in adult, addiction, forensic, and geriatric psychiatry CEO and Medical Director of PACT Atlanta LLC Psychiatry Department Medical Director for Emory DeKalb Medical Center

Social Media in South India Shriram Venkatraman,2017-06-09 One of the first ethnographic studies to explore use of social media in the everyday lives of people in Tamil Nadu, Social Media in South India provides an understanding of this subject in a region experiencing rapid transformation. The influx of IT companies over the past decade into what was once a space dominated by agriculture has resulted in a complex juxtaposition between an evolving knowledge economy and the traditions of rural life. While certain class tensions have emerged in response to this juxtaposition, a study of social media in the region suggests that similarities have also transpired, observed most clearly in the blurring of boundaries between work and life for both the old residents and the new. Venkatraman explores the impact of social media at home, work and school, and analyses the influence of class, caste, age and gender on how, and which, social media platforms are used in different contexts. These factors, he argues, have a significant effect on social media use, suggesting that social media in South India, while seeming to induce societal change, actually remains bound by local traditions and practices.
