Offering socio-cultural perspectives and multidisciplinary insights from leading scholars, the book explores contemporary issues, challenges and trends. Organised into four parts, the handbook begins with an introductory section that explores contemporary issues, challenges and trends that tourism cities face today. A range of topics are explored, including sustainable urban tourism, overtourism and urbanisation, the impact of terrorism, visitor-host interactions, as well as reflections on present and future challenges for tourism cities. Water for Life A.W. Jayawardena, 2022-12-09 Water is a precious resource essential for all forms of life, and although there is plenty of water to meet the demand for the present population – and even for a projected population of 9 billion – there is significant spatial and temporal variation in its distribution. This results in water rich and water poor countries, water-related conflicts, and unsafe drinking water, a major killer identified by the World Health Organization (WHO). *Water for Life: Drinking Water, Health, Food, Energy Nexus* covers these issues, highlighting the multi-faceted uses and importance of water in life: water resources, chemistry of water, drinking water, and the links between water and health, food, irrigation, soil, energy, transport, industry, recreation, disasters, and conflicts. The book is accessible and clear, with technical elements. It is ideal as a background supplementary text to support more specialist study across civil engineering, geography, and social sciences, and will guide readers to see the big picture of environmentally sustainable water management for all human and other biotic lives.

Thailand: Deadly Destination John Stapleton, 2014-11-17 The daily robbing, bashing, drugging, extortion and murder of foreign tourists on Thai soil, along with numerous scandals involving unsafe facilities and well established scams, has led to frequent predictions that Thailand's multi-billion dollar tourist industry will self-destruct. Instead tourist numbers more than doubled in the decade to 2014. The world might not have come to the hometowns of the many visitors fascinated by Thailand, but it certainly came to the Land of Smiles. While the Thai media is heavily censored, and bad news stories about tourists suppressed, nonetheless there is more than enough evidence to demonstrate that something has gone seriously awry with the nation's tourist industry. In 2014, just as in the years preceding it, there were train, bus, ferry, speedboat, motorbike and car accidents, murders, knifings, unexplained deaths, numerous suicides, diving accidents, robberies gone wrong, anonymous bodies washing up on the shores and a string of alcohol and drug related incidents. Thailand had a dying king and serious succession problems, weak democratic institutions, an economy slipping into recession, faced issues of corruption across many of its key services and was host to international crime syndicates, awash with despised foreigners and drifting perilously towards civil war. Tourists choose one destination over another for a number of reasons, most of which Thailand

scores highly on. But on the core issue of tourist safety, Thailand scores very badly indeed.

Intersections of Tourism, Migration, and Exile Natalia Bloch, Kathleen M. Adams, 2022-12-30 This book challenges the classic – and often tacit – compartmentalization of tourism, migration, and refugee studies by exploring the intersections of these forms of spatial mobility: each prompts distinctive images and moral reactions, yet they often intertwine, overlap, and influence one another. Tourism, migration, and exile evoke widely varying policies, diverse popular reactions, and contrasting imagery. What are the ramifications of these siloed conceptions for people on the move? To what extent do gender, class, ethnic, and racial global inequalities shape moral discourses surrounding people's movements? This book presents 12 predominantly ethnographic case studies from around the world, and a pandemic-focused conclusion, that address these issues. In recounting and juxtaposing stories of refugees' and migrants' returns, marriage migrants, voluntourists, migrant retirees, migrant tourism workers and entrepreneurs, mobile investors and professionals, and refugees pursuing educational mobility, this book cultivates more nuanced insights into intersecting forms of mobility. Ultimately, this work promises to foster not only empathy but also greater resolve for forging trails toward mobility justice. This accessibly written volume will be essential to scholars and students in critical migration, tourism, and refugee studies, including anthropologists, sociologists, human geographers, and researchers in political science and cultural studies. The book will also be of interest to non-academic professionals and general readers interested in contemporary mobilities.
