JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Bryan Stevenson may, indeed, be America’s Mandela.”—Nicholas Kristof, *The New York Times* “You don’t have to read too long to start cheering for this man. . . . Stevenson is not only a great lawyer, he’s also a gifted writer and storyteller.”—*The Washington Post* “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—*The Financial Times* “Brilliant.”—*The Philadelphia Inquirer*

The State of the Black Family Robert Cherry, 2023-03-07 Too many Black Americans live in neighborhoods that are filled with gun violence, dysfunctional and abusive families, and children with deficient academic and behavioral skills. Instead of engaging in an open-minded search for solutions, too many pundits and politicians are content to point their fingers at systemic racism, while dismissing individual effort and traditional measures of merit as part and parcel of a system that is irredeemably broken. In *The State of the Black Family*, the economist Robert Cherry presents a blueprint for a robust set of policies that can break the cycle of intergenerational poverty and move these families forward by providing direct family support, practical educational approaches, housing policies to reinvigorate neighborhoods, and on-ramps to higher-paying jobs—an approach that enjoyed a broad consensus before leftwing social justice themes hijacked the conversation.

Healing Thomas Insel, MD, 2022-02-22 A bold, expert, and actionable map for the re-invention of America's broken mental health care system. "Healing is truly one of the best books ever written about mental illness, and I think I've read them all. —Pete Earley, author of *Crazy As* director of the National Institute of Mental Health, Dr. Thomas Insel was giving a presentation when the father of a boy with schizophrenia yelled from the back of the room, "Our house is on fire and you're telling me about the chemistry of the paint! What are you doing to put out the fire?" Dr. Insel knew in his heart that the answer was not nearly enough. The gargantuan American mental health industry was not healing millions who were desperately in need. He left his position atop the mental health research world to investigate all that was broken—and what a better path to mental health might look like. In the United States, we have treatments that work, but our system fails at every stage to deliver care well. Even before COVID, mental illness was claiming a life every eleven minutes by suicide. Quality of care varies widely, and much of the field lacks accountability. We focus on drug therapies for symptom reduction rather than on plans for long-term recovery. Care is often unaffordable and unavailable, particularly for those who need it most and are homeless or incarcerated. Where was the justice for the millions of Americans suffering from mental illness? Who was helping their families? But Dr. Insel also found that we do have approaches that work, both in the U.S. and globally. Mental illnesses are medical problems, but he discovers that the cures for the crisis are not just medical, but social. This path to healing, built upon what he calls the three Ps (people, place, and purpose), is more straightforward than we might imagine. Dr. Insel offers a comprehensive plan for our failing system and for families trying to discern the way forward. The fruit of a lifetime of expertise and a global quest for answers, *Healing* is a hopeful, actionable account and achievable vision for us all in this time of mental health crisis.

The War on Kids Cara H. Drinan, 2018 Despite inventing the juvenile court a little more than a century ago, the United States has become an international outlier in its juvenile sentencing practices. *The War on Kids* explains how that happened and how policymakers can correct the course of juvenile justice today.

Unusually Cruel Marc Morjé Howard, 2017-06-16 The United States incarcerates far more people than any other country in the world, at rates nearly ten times higher than other liberal democracies. Indeed, while the U.S. is home to 5 percent of

the world's population, it contains nearly 25 percent of its prisoners. But the extent of American cruelty goes beyond simply locking people up. At every stage of the criminal justice process - plea bargaining, sentencing, prison conditions, rehabilitation, parole, and societal reentry - the U.S. is harsher and more punitive than other comparable countries. In *Unusually Cruel*, Marc Morjé Howard argues that the American criminal justice and prison systems are exceptional - in a truly shameful way. Although other scholars have focused on the internal dynamics that have produced this massive carceral system, Howard provides the first sustained comparative analysis that shows just how far the U.S. lies outside the norm of established democracies. And, by highlighting how other countries successfully apply less punitive and more productive policies, he provides plausible solutions to addressing America's criminal justice quagmire.

Lifting the Shadow Amy Sodaro, 2025 *Lifting the Shadow* examines how the National Museum of African American History and Culture, Montgomery's Legacy Museum and Tulsa's Greenwood Rising are challenging the national narrative on slavery and race by placing racial oppression at the center of American history and linking historical slavery to contemporary racial injustice.

Gender Inequality in Our Changing World Lori Kenschaft, Roger Clark, Desiree Ciambrone, 2015-07-24 *Gender Inequality in Our Changing World: A Comparative Approach* focuses on the contemporary United States but places it in historical and global context. Written for sociology of gender courses, this textbook identifies conditions that encourage greater or lesser gender inequality, explains how gender and gender inequality change over time, and explores how gender intersects with other hierarchies, especially those related to race, social class, and sexual identity. The authors integrate historical and international materials as they help students think both theoretically and empirically about the causes and consequences of gender inequality, both in their own lives and in the lives of others worldwide.

Economic Development for Everyone Mark M. Miller, 2017-05-09 How do we create employment, grow businesses, and build greater economic resilience in our low-income communities? How do we create economic development for everyone, everywhere - including rural towns, inner-city neighborhoods, aging suburbs, and regions such as Appalachia, American Indian reservations, the Mexican border, and the Mississippi Delta - and not just in elite communities? *Economic Development for Everyone* collects, organizes, and reviews much of the current research available on creating economic development in low-income communities. Part I offers an overview of the harsh realities facing low-income communities in the US today; their many economic and social challenges; debates on whether to try reviving local economies vs. relocating residents; and current trends in economic development that emphasize high-tech industry and high levels of human capital. Part II organizes the sprawling literature of applied economic development research into a practical framework of five dynamic dimensions: empower your residents: begin with basic education; enhance your community: build on existing assets; encourage your entrepreneurs; diversify your economy; and sustain your development. This book, assembled and presented

in a unified framework, will be invaluable for students and new researchers of economic development in low-income communities, and will offer new perspectives for established researchers, professional economic developers and planners, and public officials. Development practitioners and community leaders will also find new ideas and opportunities, along with a broad view on how the many complex parts of economic development interconnect.

The Violence Inside Us Chris Murphy, 2021-05-18 “An engrossing, moving, and utterly motivating account of the human stakes of gun violence in America.”—Samantha Power, Pulitzer Prize-winning author of *The Education of an Idealist* Is America destined to always be a violent nation? This sweeping history by U.S. senator Chris Murphy explores the origins of our violent impulses, the roots of our obsession with firearms, and the mythologies that prevent us from confronting our national crisis. In many ways, the United States sets the pace for other nations to follow. Yet on the most important human concern—the need to keep ourselves and our loved ones safe from physical harm—America isn’t a leader. We are disturbingly laggard. To confront this problem, we must first understand it. In this carefully researched and deeply emotional book, Senator Chris Murphy dissects our country’s violence-filled history and the role that our unique obsession with firearms plays in this national epidemic. Murphy tells the story of his profound personal transformation in the wake of the mass murder at Newtown, and his subsequent immersion in the complicated web of influences that drive American violence. Murphy comes to the conclusion that while America’s relationship to violence is indeed unique, America is not inescapably violent. Even as he details the reasons we’ve tolerated so much bloodshed for so long, he explains that we have the power to change. Murphy takes on the familiar arguments, obliterates the stale talking points, and charts the way to a fresh, less polarized conversation about violence and the weapons that enable it—a conversation we urgently need in order to transform the national dialogue and save lives.

See No Stranger Valarie Kaur, 2020-06-16 #1 LOS ANGELES TIMES BESTSELLER • FINALIST FOR THE DAYTON LITERARY PEACE PRIZE • An urgent manifesto and a dramatic memoir of awakening, this is the story of revolutionary love. “In a world stricken with fear and turmoil, Valarie Kaur shows us how to summon our deepest wisdom.”—Elizabeth Gilbert, author of *Eat Pray Love* How do we love in a time of rage? How do we fix a broken world while not breaking ourselves?

Valarie Kaur—renowned Sikh activist, filmmaker, and civil rights lawyer—describes revolutionary love as the call of our time, a radical, joyful practice that extends in three directions: to others, to our opponents, and to ourselves. It enjoins us to see no stranger but instead look at others and say: You are part of me I do not yet know. Starting from that place of wonder, the world begins to change: It is a practice that can transform a relationship, a community, a culture, even a nation. Kaur takes readers through her own riveting journey—as a brown girl growing up in California farmland finding her place in the world; as a young adult galvanized by the murders of Sikhs after 9/11; as a law student fighting injustices in American prisons and on Guantánamo Bay; as an activist working with communities recovering from xenophobic attacks; and as a woman trying to heal from her own experiences with police violence and sexual assault. Drawing from the wisdom of sages, scientists, and activists, Kaur reclaims love as an active, public, and revolutionary force that creates new possibilities for ourselves, our communities, and our world. See *No Stranger* helps us imagine new ways of being with each other—and with ourselves—so that together we can begin to build the world we want to see.

Rethinking Punishment in the Era of Mass Incarceration Chris Surprenant, 2017-07-06 This book offers a philosophical examination of incarceration as a form of punishment. A diverse group of contributors engages with research in criminology, economics, law, and sociology to help contextualize the philosophical issues.

A Place Outside the Law Peter Jan Honigsberg, 2019-11-12 Firsthand testimonies from Guantánamo Bay, inspiring future generations to never repeat the human rights violations of the detention center. Law scholar and Witness to Guantánamo founder Peter Jan Honigsberg uncovers a haunting portrait of life at the military prison and its toll, not only on the detainees and their loved ones but also on its military and civilian personnel and the journalists who reported on it. Honigsberg conducted 158 interviews across 20 countries so that the people who lived and worked there could tell their heartbreaking and inspirational stories. In each one, we face the reality that the healing process cannot begin until we start the conversation about what was done in the name of protecting our country. These are a few of them. Many alleged operatives in Guantánamo were purchased by the United States for ransom from Afghan and Pakistani soldiers. Brandon Neely, a prison guard who processed the first group of suspected operatives to arrive in Cuba, flew to London to embrace the detainees he guarded after leaving the military. Navy whistleblower Matt Diaz covertly released the names of 500 detainees by sending them in a greeting card to a lawyer in New York. Journalist Carol Rosenberg committed the past 17 years of her career to documenting life at Guantánamo. And Damien Corsetti, an interrogator who came to be known as the “King of Torture,” received ribbons and awards for the same cruel actions for which he was later prosecuted. In startling, aching prose, *A Place Outside the Law* shines a light on these unheard voices, and through them, encourages the global community to embrace humanity as our greatest tool to make the world a safer place.

When We Walk By Kevin F. Adler, Donald W. Burnes, 2023-11-07 How to end homelessness in America: a must-read

guide to understanding housing instability, supporting our unhoused neighbors, and reclaiming our humanity. A deeply humanizing analysis that will change the way you think about poverty and homelessness—for the socially engaged reader of Isabel Wilkerson's *Caste* and Matthew Desmond's *Evicted*. Think about the last time that you saw or interacted with an unhoused person. What did you do? What did you say? Did you offer money or a smile, or did you avert your gaze? When *We Walk By* takes an urgent look at homelessness in America, showing us what we lose—in ourselves and as a society—when we choose to walk past and ignore our neighbors in shelters, insecure housing, or on the streets. And it brilliantly shows what we stand to gain when we embrace our humanity and move toward evidence-based people-first, community-driven solutions, offering social analysis, economic and political histories, and the real stories of unhoused people. Authors Kevin F. Adler and Donald W. Burnes, with Amanda Banh and Andrijana Bilbija, recast chronic homelessness in the U.S. as a byproduct of twin crises: our social services systems are failing, and so is our humanity. Readers will learn: Why our brains have been trained to overlook our unhoused neighbors The social, economic, and political forces that shape myths like “all homeless people are addicts” and “they’d have a house if they got a job” What conservative economics gets wrong about housing insecurity What relational poverty is, and how to shift away from “us versus them” thinking That for many Americans, housing insecurity is just one missed paycheck away Who “the homeless” really are—and why that might surprise you What you can do to help, starting today A necessary, deeply humanizing read that goes beyond theory and policy analysis to offer engaged solutions with compassion and heart, *When We Walk By* is a must-read for anyone who cares about homelessness, housing solutions, and their own humanity.
