**Viewfinding** Cathy Jean Mullen,Janice Rahn,2010 This is a collection of essays on the arts, new media, popular culture, and technologies as they influence practices of curriculum development and teaching. The authors - artists, educators, scholars, and researchers with both scholarly and practical expertise - share their teaching practices and curriculum knowledge, and reflect upon challenging issues in contemporary art, popular culture, new media, and technology. Each

chapter proposes pedagogical structures and curriculum resources that can be adapted to diverse school contexts and technical resources. The perspectives gathered in this book reflect ideas drawn from several disciplines, including contemporary art, histories of the arts, culture and technology, cultural studies, and media studies, as well as various approaches to the study of technologies; authors also incorporate a range of educational theories and instructional practices, mainly from the visual and performing arts. At times explicit and at others implicit, these wide-ranging conceptual influences inform the varied curriculum and teaching practices described here. Together, these essays and their companion DVD, which illustrates many of these diverse perspectives, provide a comprehensive and thoughtful look at arts-based approaches to new media.

*A Curious Mind Expanded Edition* Brian Grazer, Charles Fishman, 2023-11-28 In this specially combined edition with a new foreword, Academy Award-winning producer Brian Grazer and acclaimed author Charles Fishman blend their insights from bestselling books *A Curious Mind* and *Face to Face* to transform the art of connecting with and through curiosity. In *A Curious Mind*, deemed “a captivation account of how the simple act of asking questions can change your life” by Malcolm Gladwell, Grazer offers a brilliant peek into the “curiosity conversations” that inspired him to create some of the world’s most iconic movies and television shows. He shows how curiosity has been the “superpower” that fueled his rise as one of Hollywood’s leading producers and creative visionaries. And in the captivating follow-up *Face to Face*, Grazer reveals that the secret to a more fulfilling life lies in personal connections, sparked through curiosity, learning through his interactions with people like Taraji P. Henson, Bill Gates, Barack Obama, Eminem, and Prince. Now with a new foreword with fresh insights about curiosity from the last decade, *A Curious Mind Expanded* invites you to consider your personal journey of human connection. A fascinating page-turner, this combined edition offers a blueprint for how we can awaken our own curiosity and use it as a superpower in our own lives.

**Christmas in the Crosshairs** Gerry Bowler, 2016-09-13 An Anglican priest hands out brass knuckles to his congregation, preparing to battle anti-Christmas fanatics. Fascists insist that the Winter Solstice is the real Christmas, while Communists stage atheist musicals outside of churches on Christmas Eve. Activists vandalize shops that start touting the holiday in October and anti-consumerists sing parody carols in shopping malls. Is there a war on Christmas? As Gerry Bowler demonstrates in *Christmas in the Crosshairs*, there is and always has been a war, or several wars, on Christmas. A cherished global phenomenon, Christmas is the biggest single event on the planet. For Christians it is the second-most sacred date on the calendar, but it also engages billions of people who are caught up in its commercialism, music, sentiment, travel, and frenetic busyness. Since its controversial invention in the Roman Empire, Christmas has struggled with paganism, popular culture, and fierce Christian opposition; faced abolition in Scotland and New England; and braved neglect and near-death in the 1700s, only to be miraculously reinvented in the 1800s. The twentieth century saw it banned by Bolsheviks and twisted

by Nazis. Since then, special interest groups of every stripe have used the holiday's massive popularity to draw attention to their causes. Christmas in the Crosshairs tells the story of the tug-of-war over Christmas, replete with cross-dressing priests, ranting Puritans, and atheist witches. In this eye-opening history of Christmas and its opponents from the beginning up to the present day, Bowler gives us a shocking, and richly entertaining, new look at the tradition we thought we knew so well.

**Dr. Seuss** Philip Nel, 2005-01-01 Philip Nel takes a fascinating look into the key aspects of Seuss's career - his poetry, politics, art, marketing, and place in the popular imagination. Nel argues convincingly that Dr. Seuss is one of the most influential poets in America. His nonsense verse, like that of Lewis Carroll and Edward Lear, has changed language itself, giving us new words like nerd. And Seuss's famously loopy artistic style - what Nel terms an energetic cartoon surrealism - has been equally important, inspiring artists like filmmaker Tim Burton and illustrator Lane Smith. --from back cover

*Base-1 method: A structural-functional approach to word, sentence and discourse readability* Bernd Nuss, 2018 Text readability is at the core of successful reading instruction and language learning. To counteract the challenges of complex reading content, text leveling is a vital necessity for readers with limited language access. A transdisciplinary analysis of reading development and linguistic interrelations builds the theoretical foundation of the base-1 method. This method focuses solely on structural and functional text elements on the word, sentence and cohesion level. But this book also discusses the significance of other prevalent readability factors, such as the reader's language knowledge or socio-cultural background. The base-1 method is designed to level early reading texts in German and other alphabetic languages. Experimental tests with a German immersion population has led to a preliminary calibration to demonstrate the validity of

this approach. Bernd Nuss ist erfahrener Immersionslehrer in verschiedenen Programmen, die sich über Nord-, Zentral- und Südamerika erstrecken. An der E. E. Waddell Language Academy wirkt er schulintern als Immersion Facilitator, kooperiert mit Bildungsorganisationen und betreut die Praktika von Gaststudierenden an der Schule. Bernd Nuss has worked as an educator and facilitator in English and German language immersion programs all over the Americas and in Europe. In this capacity, he has also been collaborating as a researcher with universities and other educational institutions in Europe, Asia, and the USA.

**Popular Culture and Political Economic Thought** Thomas Strychacz, 2023-01-30 We live in an era of economic fabling where often fantastic representations of economic life in popular culture sit uncomfortably alongside a neoliberal capitalist fairy tale that the Earth's resources can continue to be exploited into an indefinite future. Popular Culture and Political Economic Thought: Fables of Commonwealth examines a variety of animated movies, TV shows, written fictions, adventure travelogues, and Paleo archeologies (and diets) to suggest that popular culture poses a multiform challenge to the failing theories and practices of neoclassical economics. This book contends that it does so most successfully by implementing older formations of political economic thought: stages theory, bioeconomics, and a robust discourse on commonwealth. An era of eco-crisis demands a new economics. It, therefore, also requires a new appraisal of the popular imaginary and its potential for leveraging alternative conceptions of economic and political relations. This book begins that conversation.
