On the Edge of Infinity Clemens Cavallin, 2019-03-25 This book tells the story of Michael O'Brien, one of the most popular Catholic novelists and painters of our times. It covers his life from his childhood in the Canadian Arctic to the crucial decision in 1976 to devote himself wholly to Christian sacred arts, followed by his inspiration to write fiction and his best-selling apocalyptic novel, *Father Elijah*. The story then continues to the present with explorations of O'Brien's other works. O'Brien's life is one of struggle against all odds to reestablish Christian culture in the materialist void created by the modern Western world. It is a timely reminder of hope in trials and sufferings, of endurance during marginalization and poverty. This is the first biography of O'Brien, and it also provides an introduction to his novels, paintings, and essays. The author, Clemens Cavallin, was granted unrestricted access to Michael O'Brien's personal archive, including his diary from the late 1970s until the present day. By revealing sides of O'Brien's interior creative life—including mystical experiences, spiritual battles, and illuminations—he has painted a portrait of a contemporary visual and literary artist whose inspiration arises from an intense fusion of imagination and active faith.

Not Quite Us Kevin P. Anderson, 2019-04-08 In twentieth-century Canada, mainline Protestants, fundamentalists, liberal nationalists, monarchists, conservative Anglophiles, and left-wing intellectuals had one thing in common: they all subscribed to a centuries-old world view that Catholicism was an authoritarian, regressive, untrustworthy, and foreign force that did not fit into a democratic, British nation like Canada. Analyzing the connections between anti-Catholicism and national identity in English Canada, *Not Quite Us* examines the consistency of anti-Catholic tropes in the public and private discourses of intellectuals, politicians, and clergymen, such as Arthur Lower, Eugene Forsey, Harold Innis, C.E. Silcox, F.R. Scott, George Drew, and Emily Murphy, along with those of private Canadians. Challenging the misconception that an allegedly secular, civic, and more tolerant nationalism that emerged excised its Protestant and British cast, Kevin Anderson determines that this nationalist narrative was itself steeped in an exclusionary Anglo-Protestant understanding of history and values. He shows that over time, as these ideas were dispersed through editorials, cartoons, correspondence, literature, and lectures, they influenced Canadians' intimate perceptions of themselves and their connection to Britain, the ethno-religious composition of the nation, the place of religion in public life, and national unity. Anti-Catholicism helped shape what it means to be Canadian in the twentieth century. *Not Quite Us* documents how equating Protestantism with democracy and

individualism permeated ideas of national identity and continues to define Canada into the twenty-first century.

The Proving Grounds Benjamin O'Brien, 2025-04-29 In this moving and insightful memoir, a veteran firefighter recounts his struggle to navigate the difficulties of his dangerous job while standing firm in his Catholic faith. Here is not only a thrilling window into life as an emergency worker, but also a gripping tale of one's man's struggle to withstand the spiritual challenges of a secular workplace—a battle that will resonate with Catholics across the board. How is one to preserve one's faith, and share it with others, in a society that has abandoned God? More concretely, what about vaccine mandates and rainbow flags? With grace and humility, Benjamin O'Brien recounts how he navigated these questions and many more. Touching on mental health, bullying, self-control, courage, maturity, and conflict resolution, his story of daily life in the fire station and in the field, with all its graces and crosses, is a moving account of one's man's quest to be faithful in the midst of pain, fear, confusion, and sometimes intolerance. The reader is placed in the shoes of an ordinary man striving to make sense of life's traumas and beauties, and to serve God in his daily work. *The Proving Grounds* reveals how grace is always at work behind the scenes, purifying our understanding and motives and honing our character to greater maturity—sometimes in very surprising ways.

Exogenesis Peco Gaskovski, 2023-07-03 Out of the collapse of Old America rises Lantua, a glittering thousand-mile metropolis where drones patrol the sky and AI algorithms reward social behavior. The most compliant citizens enjoy the greatest privileges, the poorest struggle to rise up the echelon system, and criminals are subjected to brain modification. Birthing and genetic quality are controlled through mass embryonic selection, with fetuses grown outside the body in artificial wombs—a technology known as exogenesis. But rebellion is brewing. Lantua struggles to control the Benedites, a rural religious people who refuse to obey one-child regulations. Each February, Field Commander Maelin Kivela oversees the forced sterilization of Benedite teenagers, a duty she carries out with unflinching zeal—but this year comes with a shock. After escaping an ambush by insurgents, Maelin returns to the city to choose one of over three hundred embryos to be her child, only to come face to face with a secret that will tear her life apart and alter the course of her civilization.

The Arts and the Bible Stanley E. Porter, Wendy J. Porter, 2024-01-04 Throughout its history, the Christian church has had a troubled relationship with the arts, whether literature, poetry, music, visual arts, or other forms of artistic expression. This volume is not designed to resolve the issues, but it is designed to present a number of different statements about various dimensions of the arts in their relationship to the Bible. The Bible is the document that stands behind the Christian church as an inspiration to it and to its arts. As a result, we have divided this volume into six parts: perspectives on the arts, culture and art, visual enactments, contemporary interpretations, music, and the Bible and literature. Many of the issues that the history

of the interaction of the arts and the Bible within the Christian church has uncovered are insightfully and artfully addressed by this book. The wide range of contributors runs the gamut from practicing artists of various media to scholars within varied academic fields.

COMING TO AMERICA: A JOURNEY OF FAITH Eric Tayem Tangumonkem, Ph.D.,2014-03-07 Coming to America: A Journey of Faith is Eric Tangumonkem's story of wrestling with these thoughts and doubts. God called him to America from Cameroon to pursue graduate studies at the University of Texas at Dallas, but he had no money to put towards this dream. In this book, Tangumonkem shares his journey of learning to trust God as he stepped out in faith and came to America despite a lack of funds. He also shares some of his formative experiences prior to this call—experiences that will encourage readers in their faith. Tangumonkem's life is a testimony to the faithfulness of God, and he is careful to give Him all of the glory.

Catholic Women's Colleges in America Tracy Schier,Cynthia Russett,2003-05-22 More than 150 colleges in the United States were founded by nuns, and over time they have served many constituencies, setting some educational trends while reflecting others. In Catholic Women's Colleges in America, Tracy Schier, Cynthia Russett, and their coauthors provide a comprehensive history of these institutions and how they met the challenges of broader educational change. The authors explore how and for whom the colleges were founded and the role of Catholic nuns in their founding and development. They examine the roots of the founders' spirituality and education; they discuss curricula, administration, and student life. And they describe the changes prompted by both the church and society beginning in the 1960s, when decreasing enrollments led some colleges to opt for coeducation, while others restructured their curricula, partnered with other Catholic colleges, developed specialized programs, or sought to broaden their base of funding. Contributors: Dorothy M. Brown, Georgetown University; David R. Contosta, Chestnut Hill College; Jill Ker Conway, Massachusetts Institute of Technology; Carol Hurd Green, Boston College; Monika K. Hellwig, Association of Catholic Colleges and Universities; Karen Kennelly, president emerita of Mount Saint Mary's College, Los Angeles; Jeanne Knoerle, president emerita of Saint Mary-of-the-Woods College; Thomas M. Landy, College of the Holy Cross; Kathleen A. Mahoney, Humanitas Foundation; Melanie M. Morey, Leadership and Legacy Associates, Boston; Mary J. Oates, Regis College; Jane C. Redmont, Graduate Theological Union in Berkeley; Cynthia Russett, Yale University; Tracy Schier, Boston College.

The Fair Folk and Little Orphan Mary Maria Konopnicka,2025-01-07 A classic children's tale about Gnomes, appealing equally, if not more so, to the adult child. Written in rich, lyrical prose, frequently shifting into the peasant dialect and interspersed with sundry verses and songs, the tale is replete with mytho-folkloric motifs, legends, superstitions, historical and biblical references, magical depictions of natural phenomena, the sunsets, the twilights, the dawns; the changing seasons, the shadows, the colors, the sounds and silences, Poland's diverse landscape, her fields, forests and

mountains, along with her flora and fauna, and realistic descriptions of late 19th-century Polish rural life. Not least among The Fair Folk's charms is the author's whimsical sense of humor—a humor that often rises to a level of high hilarity.

How, When and Why did Bede Write his Ecclesiastical History? Richard Shaw, 2022-02-17 Bede's Ecclesiastical History is our main source for early Christian Anglo-Saxon England, but how was it written? When? And why? Scholars have spent much of the last half century investigating the latter question – the 'why'. This new study is the first to systematically consider the 'how' and the 'when'. Richard Shaw shows that rather than producing the History at a single point in 731, Bede was working on it for as much as twenty years, from c. 715 to just before his death in 735. Unpacking and extending the period of composition of Bede's best-known book makes sense of the complicated and contradictory evidence for its purposes. The work did not have one context, but several, each with its own distinct constructed audiences. Thus, the History was not written for a single purpose to the exclusion of all others. Nor was it simply written for a variety of reasons. It was written over time – quite a lot of time – and as the world changed during that time, so too did Bede's reasons for writing, the intentions he sought to pursue – and the patrons he hoped to please or to placate.

Encounter, Transformation and Identity Ian Fowler, Verkiijika G. Falso, 2009 Bringing together key historical and innovative ethnographic materials on the peoples of the South-West Province of Cameroon and the Nigerian borderlands, this volume presents critical and analytical approaches to the production of ethnic, political, religious, and gendered identities in the region. The contributors examine a range of issues relating to identity, including first encounters and conflict as well as global networking, trans-national families, enculturation, gender, resistance, and death. In addition to a number of very striking illustrations of ethnographic and material culture, this volume contains key maps from early German sources and other original cartographical materials.
