Ruth Hill

Obras de sor Juana Inés de la Cruz Sor Juana Inés de la Cruz,2010-08-31 Sor Juana Inés de la Cruz, nació entre 1648 y 1651 en México, conocido en la época como Nueva España. Murió el 17 de abril de 1695 víctima del tifus. Amante de su libertad y del estudio, y sin inclinación hacia el matrimonio, en 1667 ingresó en un convento de las Carmelitas descalzas de México. Pronto lo abandonó por problemas de salud. Ingresó finalmente en un convento de la Orden de San Jerónimo, donde vivió el resto de su vida. En esta orden Sor Juana tuvo la posibilidad de continuar sus estudios. Hizo investigaciones científicas, escribió diversos textos, compuso canciones, obras teatro, recibió visitas de amigos y tuvo tertulias con otros intelectuales y poetas, entre otras diversas actividades. En su celda, incluso, llegó a crear una importante biblioteca. Octavio Paz afirmaba que Sor Juana Inés se hizo monja para poder pensar. Y, teniendo en cuenta las palabras sor Juana Inés de la Cruz, puede que sea cierto. «Vivir sola... no tener ocupación alguna obligatoria que embarazase la libertad de mi estudio, ni rumor de comunidad que impidiese el sosegado silencio de mis libros.» Su erudición de carácter enciclopédico abarcaba tanto la retórica y la literatura como la teología o las matemáticas y las ciencias. En literatura, se le considera una auténtica representante del Barroco tardío español. Su obra literaria comprende sonetos, redondillas, décimas, romances, glosas, endechas, lirás, poemas de amor, obras de teatro (Los empeños de una casa y Amor es más laberinto) y algún escrito en prosa. La presente antología de Obras de sor Juana Inés de la Cruz contiene sonetos, redondillas, romances, endechas y lirás de la autora.

Obras de Sor Juana Inés de la Cruz Sor Juana Ines de la Cruz,Sor Juana Ins De La Cruz,2011-08-31 La presente antología comprende poemas y cartas de sor Juana Inés de la Cruz que constituyen un relevante panorama del México del siglo XVII.

The Three Secular Plays of Sor Juana Inés de la Cruz Guillermo Schmidhuber, When war broke out in Europe in 1914, political leaders in the United States were swayed by popular opinion to remain neutral; yet less than three years later, the nation declared war on Germany. In *Nothing Less Than War: A New History of America's Entry into World War I*, Justus D. Doenecke examines the clash of opinions over the war during this transformative period and offers a fresh perspective on America's decision to enter World War I. Doenecke reappraises the public and private diplomacy of President Woodrow Wilson and his closest advisors and explores in great depth the response of Congress to the war. He also investigates the debates that raged in the popular media and among citizen groups that sprang up across the country as the U.S. economy was threatened by European blockades and as Americans died on ships sunk by German U-boats. The decision to engage in battle ultimately belonged to Wilson, but as Doenecke demonstrates, Wilson's choice was not made in isolation. *Nothing Less Than War* provides a comprehensive examination of America's internal political climate and its changing international role during the seminal period of 1914–1917.

A Reader in Latina Feminist Theology María Pilar Aquino, Daisy L. Machado, Jeanette Rodríguez, 2010-01-01 Speaking for the growing community of Latina feminist theologians, the editors of this volume write, With the emergence and growth of the feminist theologies of liberation, we no longer wait for others to define or validate our experience of life and faith.... We want to express in our own words our plural ways of experiencing God and our plural ways of living our faith. And these ways have a liberative tone. With twelve original essays by emerging and established Latina feminist theologians, this first-of-its-kind volume adds the perspectives, realities, struggles, and spiritualities of U.S. Latinas to the larger feminist theological discourse. The editors have gathered writings from both Roman Catholics and Protestants and from various Latino/a communities. The writers address a wide array of theological concerns: popular religion, denominational presence and attraction, methodology, lived experience, analysis of nationhood, and interpretations of life lived on a border that is not only geographic but also racial, gendered, linguistic, and religious.

Sceptres and Sciences in the Spains Ruth Hill, 2000-01-01 *Sceptres and Sciences* argues convincingly that previous research on the Hispanic Late Baroque has underweighted the ideologies of ethnicity and empire embedded in Cartesianism and French neoclassicism. ... a masterful work of scholarship... should become essential reading in the field of Colonial and Spanish Enlightenment Studies.—*Bulletin of Hispanic Studies*

Arts of Perception Jeremy Robbins, 2013-05-13 *Arts of Perception* offers a new account of a key period in Spanish history and culture and a fundamental reassessment of its major writers and intellectuals, including Gracián, Quevedo, Calderón, Saavedra Fajardo, López de Vega, and Sor Juana. Reading these figures in the context of European thought and

the new science, and philosophy, the study considers how they developed various 'arts of perception' - complex perceptual strategies designed to overcome and exploit epistemic problems to enable an individual to act effectively in the moral, political, social or religious sphere. The study takes as its subject the distinctive epistemological mentality behind such 'arts of perception'. This mentality was fostered by the creative interaction of scepticism and Stoicism, and found expression in the key concepts *ser/parecer* and *engaño/desengaño*. The work traces the emergence, development, and impact of these concepts on Spanish thought and culture. As well as offering new interpretations of specific major figures, *Arts of Perception* offers an interpretation of the mentality of an entire culture as it made the fraught transition to intellectual modernity. As such it ranges over numerous discourses and formative contexts and provides a wealth of new material which will be of use to all those seeking to understand and interpret the literature, culture and thought of Golden Age Spain. This book was previously published as a special issue of *The Bulletin of Spanish Studies*.

Creole Subjects in the Colonial Americas Ralph Bauer, José Antonio Mazzotti, 2012-12-01 Creolization describes the cultural adaptations that occur when a community moves to a new geographic setting. Exploring the consciousness of peoples defined as creoles who moved from the Old World to the New World, this collection of eighteen original essays investigates the creolization of literary forms and genres in the Americas between the sixteenth and nineteenth centuries. *Creole Subjects in the Colonial Americas* facilitates a cross-disciplinary, intrahemispheric, and Atlantic comparison of early settlers' colonialism and creole elites' relation to both indigenous peoples and imperial regimes. Contributors explore literatures written in Spanish, Portuguese, and English to identify creole responses to such concepts as communal identity, local patriotism, nationalism, and literary expression. The essays take the reader from the first debates about cultural differences that underpinned European ideologies of conquest to the transposition of European literary tastes into New World cultural contexts, and from the natural science discourse concerning creolization to the literary manifestations of creole patriotism. The volume includes an addendum of etymological terms and critical bibliographic commentary. Latin American Readings for a Cultural Age E. Santi, 2016-10-18 Gathered in one volume are seven of the best essays written in the last fifteen years or so by the eminent Latin Americanist Enrico Mario Santí. The essays cover a wide range of

topics in Latin American poetry, narrative, film, and intellectual history and also explore Spanish Peninsular subject-matter: the Spanish Generation of 98's response to Spain's loss of Cuba in the Spanish-American War of 1898. The essays are introduced by a long text in which the author develops a bracing critique of some dominant trends in current critical practice, and spells out an alternative methodology.

The Course of Mexican Music Janet Sturman, 2015-12-22 The Course of Mexican Music provides students with a cohesive introductory understanding of the scope and influence of Mexican music. The textbook highlights individual musical examples as a means of exploring the processes of selection that led to specific musical styles in different times and places, with a supporting companion website with audio and video tracks helping to reinforce readers' understanding of key concepts. The aim is for students to learn an exemplary body of music as a window for understanding Mexican music, history and culture in a manner that reveals its importance well beyond the borders of that nation.

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era, Mexican art has emerged from an ongoing process of negotiation between the local and the global, which frequently involves invention, synthesis, and transformation of diverse discursive and artistic traditions. In this pathfinding book, María Fernández uses the concept of cosmopolitanism to explore this important aspect of Mexican art, in which visual culture and power relations unite the local and the global, the national and the international, the universal and the particular. She argues that in Mexico, as in other colonized regions, colonization constructed power dynamics and forms of violence that persisted in the independent nation-state. Accordingly, Fernández presents not only the visual qualities of objects, but also the discourses, ideas, desires, and practices that are fundamental to the very existence of visual objects. Fernández organizes episodes in the history of Mexican art and architecture, ranging from the seventeenth century to the end of the twentieth century, around the consistent but unacknowledged historical theme of cosmopolitanism, allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors. She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires, expectations, memories, and ways of being in the world—in short, that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity.

Women in Hispanic Literature Beth Miller, 2024-06-28 The topics covered by this pioneering collection of essays range from peninsular Spanish to Latin American literature, from the eleventh to the twentieth centuries, and from the subject of women as portrayed in Hispanic literature to the literature of Hispanic women writers. Some pieces present polemical feminist arguments, other are more traditional. All the contributors use their subject to take new stands on old controversies, ask new questions, and reevaluate important aspects of Hispanic literature. While there is ample evidence in these essays of

the dual archetype in Hispanic literature of women as icon and woman as fallen idol, the collection reaches beyond these stereotypes to more complex sociological and theoretical concerns. Although such research has been abundantly pursued by scholars of English and American literature, it has been notably absent from Hispanic studies. This anthology is a comprehensive introduction to its subject and a stimulus to further work in the area.
