

The Jolly Postman Allan Ahlberg

David Lewis

Jolly Postman, Or Other Peoples' Letters Allan Ahlberg, 1996-09 Fifteen years ago, long before anyone else had thought of tucking actual letters and notes inside a book, Little, Brown published *The Jolly Postman* by Allan and Janet Ahlberg. This wonderful book gave children a chance to read letters sent from one fairy tale or Mother Goose character to another. Among the funny notes was one from Jack, who lolled on a sun-drenched island, thanking the Giant for the gold that let him afford such a nifty vacation. All this amusing correspondence was deftly illustrated and the book attracted hordes of eager readers. *The Jolly Postman* and its holiday sequel, *The Jolly Christmas Postman*, established themselves as classics and have gone on to sell two million copies. Now we are happy to republish the books in larger, more inviting formats than the original but with no increase in price. These new formats are a reason to celebrate, for they will attract new generations to these very inventive, very amusing books and should find a prominent place on the shelves of libraries and bookstores this fall.

A to Zoo Rebecca L. Thomas, 2018-06-21 Whether used for thematic story times, program and curriculum planning, readers' advisory, or collection development, this updated edition of the well-known companion makes finding the right picture books for your library a breeze. Generations of savvy librarians and educators have relied on this detailed subject guide to children's picture books for all aspects of children's services, and this new edition does not disappoint. Covering more than 18,000 books published through 2017, it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply, with a subject guide that categorizes subjects by theme and topic and subject

headings arranged alphabetically, this reference applies more than 1,200 intuitive (as opposed to formal catalog) subject terms to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons, or to design thematic programs and story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles.

Early Mathematical Explorations Nicola Yelland, Deborah Butler, Carmel Diezmann, 2014-01-20 This book presents teachers with a sound theoretical framework for encouraging children to explore mathematical concepts and become numerate in the 21st century. It shows that mathematical learning can occur in a variety of ways, including when children explore ideas through play, problem solving and problem posing, engage in a rich variety of multimodal learning experiences, pursue self-directed activities and cooperate with others, and make connections between ideas and experiences in their everyday worlds. - Back cover

Teaching on a Shoestring Helen Lewis, Russell Grigg, 2018-09-14 In *Teaching on a Shoestring: An A to Z of everyday objects to enthuse and engage children and extend learning in the early years*, Russell Grigg and Helen Lewis explore the educational value of familiar objects and suggest practical activities to help develop young learners' cross-curricular skills. We take many everyday objects for granted. But in a time of ever-tightening school budgets these objects can be invaluable in affording low-cost, high-impact opportunities for learning. With these value-for-money principles in mind, Russell and Helen have packed this practical A to Z handbook to the brim with fun facts, inspiring ideas and exciting activities to help teachers make the best use of familiar objects as launch pads for effective learning. Underpinned by solid theory, *Teaching on a Shoestring* investigates the learning potential of twenty-six inexpensive, readily available resources from apples to ice cubes to zebra-patterned fabric and shows how they can be exploited to develop in young learners the four skills widely regarded as essential in the twenty-first century: communication, collaboration, critical thinking and creativity. The book is organised into two parts: covering theory, then practice. In Part 1 the authors examine the nature of an object-rich learning environment and discuss the benefits of enquiry-based learning, in which the emphasis is upon promoting collaboration, dialogue and higher-order thinking in real-world contexts. In Part 2 the learning opportunities around the twenty-six objects are laid out in detail to illustrate how they can be put into practice. While the book focuses on object-based pedagogy employed with the under-sevens age category, many of the principles can also be applied with older children. There is a common format for the enquiry into each object, arranged into the following sections: In a nutshell key background information about the object in its broader context; Did you know? interesting facts about the object; Ready key vocabulary, resources and health and safety factors to consider; Steady learning goals and intentions; Go activities which show how

teachers can develop the four skills of communication, collaboration, critical thinking and creativity around the object; Other ideas follow-up cross-curricular ideas; and Find out more websites and other references for further information. Suitable for early years educators and anyone who works with young children.

Reading Contemporary Picturebooks David Lewis, 2012-11-12 Reading Contemporary Picturebooks takes a look at one of the most vibrant branches of children's literature - the modern picturebook. This exciting new book takes a sample of contemporary picturebooks and closely examines the features that make them distinctive and then suggests a way of characterising the 'interanimation' of words and pictures that is the essence of the form. The reasons for the picturebook's vitality and flexibility are also explored and the close bond between the picturebook and its readers is analyzed. Advances in our understanding of how visual images are organized are examined and the book concludes with an attempt to redescribe the picturebook in such a way that pictures, readers and text may be drawn together. Picturing Text will be of interest to students, teachers and researchers interested in reading, children's literature and media studies.

The Complete Home Learning Sourcebook Rebecca Rupp, 1998 Lists all the resources needed to create a balanced curriculum for homeschooling--from preschool to high school level.

The Pocket Guide to Poets & Poetry Andrew Taylor, 2011-07-12 A concise history and guide to poetry, with short biographies of approximately 250 poets from Homer to Heaney and Dickinson to Dylan. Starting with a history of poetry and discussions of poets and their work in the context of their times, and overviews of such topics as verse forms and genres, this book goes on to review an extensive list of individual poets, with biographical information and notes on their best works. In addition, a variety of photos and a glossary are included. A delight for anyone interested in poetry, *The Pocket Guide to Poets & Poetry* is also useful for those who want to discover new favorites. Those featured include: Sylvia Plath * Sappho * Geoffrey Chaucer * the Beowulf poet * John Donne * John Milton * Andrew Marvell * Percy Bysshe Shelley * Edgar Allan Poe * Emily Bronte * Edward Lear * W.B. Yeats * Hilary Belloc * Marianne Moore * Dylan Thomas * Joseph Brodsky * and many more

English 5-11 David Waugh, Wendy Jolliffe, 2016-06-23 English is central to the primary-school curriculum and successfully mastering the basics has a significant influence on pupils' ability to learn and achieve their future goals. Now fully updated, *English 5-11* provides comprehensive, up-to-date and creative guidance on teaching English in the primary school. Each chapter provides the busy teacher with indispensable advice and guidance, as well as opportunities to reflect upon current practice in the classroom. Key areas covered include: ■ language and literacy development; ■ grammar, punctuation and spelling; ■ talk for learning; ■ systematic synthetic phonics; ■ fiction, poetry and non-fiction; ■ drama and creativity; ■ teaching in a multilingual classroom; ■ ICT ■ Planning and assessment. This third edition reflects changes in government policy and gives greater attention knowledge about language and is closely related to the changing curriculum for primary English. The highly experienced authors are former literacy advisors and have frontline teaching, school-management and

teacher-training experience. This book will be an invaluable resource for all trainee and practising teachers interested in teaching English in an accessible, contemporary and dynamic way.

Teaching and Learning in the Early Years David Whitebread, Penny Coltman, 2015-02-20 This best-selling text book provides a broad-ranging and up-to-date review of thinking and best practice within nursery and infant education. Written around the basic truth that an effective early years curriculum must start with the children, their needs and their potential, the contributors to this classic text acknowledge that learning must have a strong element of fun, wonder and excitement. Fully revised and updated in light of recent changes to the Early Years curriculum, with brand new chapters on assessment, communication, writing, creativity and diversity, the contributors address a range of fundamental issues and principles, including: an analysis of research into how children learn; discussions of issues such as classroom organisation, curriculum management, and assessment; a detailed section on play and language; chapters covering individual curriculum areas, including new chapters on music and PSHE. Each chapter combines a review of important principles with practical and inspiring classroom examples throughout. It is essential reading for all Foundations Stage and KS1 trainee teachers, their tutors and mentors, and serving teachers working in the 3-7 age range who wish to reflect upon and develop their practice.

Healthy Living in the Early Years Foundation Stage ,

Developing Children's Critical Thinking through Picturebooks Mary Roche, 2014-07-25 This accessible text will show students and class teachers how they can enable their pupils to become critical thinkers through the medium of picturebooks. By introducing children to the notion of making-meaning together through thinking and discussion, Roche focuses on carefully chosen picturebooks as a stimulus for discussion, and shows how they can constitute an accessible, multimodal resource for adding to literacy skills, while at the same time developing in pupils a far wider range of literary understanding. By allowing time for thinking about and digesting the pictures as well as the text, and then engaging pupils in classroom discussion, this book highlights a powerful means of developing children's oral language ability, critical thinking, and visual literacy, while also acting as a rich resource for developing children's literary understanding. Throughout, Roche provides rich data and examples from real classroom practice. This book also provides an overview of recent international research on doing 'interactive read alouds', on what critical literacy means, on what critical thinking means and on picturebooks themselves. Lecturers on teacher education courses for early years or primary levels, classroom teachers, pre-service education students, and all those interested in promoting critical engagement and dialogue about literature will find this an engaging and very insightful text.

Common Core Curriculum Maps in English Language Arts, Grades K-5 Great Minds, 2011-10-19 The first books to present specific guidance for teaching the Common Core State Standards Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to

assist teachers in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more Teachers can use the maps to plan their year and craft their own more detailed lesson plans Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.
