La mujer y el arte en Colombia Garcia Galvis, Carlos Alberto, 2024-04-12 La disciplina histórica y, en particular, la

historia del arte colombiano han prestado una escasa atención a la mujer y a su relación con el campo artístico. Este libro reivindica a las artistas, entre 1841 y 1910, un actor social que ha sido invisibilizado por el relato canónico de la historiografía del arte en Colombia, el cual ha determinado la idea que tenemos sobre el arte, sus procesos, los artistas, los estilos y las corrientes, entre otros. Este texto explora la manera cómo la mujer accedió a los espacios de formación y exposición y el papel que la historiografía del arte le otorgó a este suceso.

Praxis de la gestión cultural Carlos Yáñez Canal,2018-10-24 Este libro surge en la práctica y desde la práctica de la gestión cultural. Sus dimensiones son múltiples y son abordadas por varios artículos desde diferentes lugares a nivel experiencial y en una lógica contextual. La mayoría de los textos se orientan a plantear la exigencia de una reflexión crítica sobre lo que hace y lo que es la gestión cultural, no solo en términos técnicos, funcionales, metodológicos y teóricos, sino también por las especialidades que la han ido configurando. En el libro, los autores indagan el saber desde la praxis que caracteriza a la gestión cultural, un saber que debe deslindar sus campos de lo técnico y las particularidades que lo acompañan a nivel instrumental, así como de las determinaciones teóricas que reducen el pensar a lo que establecen los paradigmas dominantes y hegemónicos. Para ellos el horizonte de pensamiento de la gestión cultural debe desmarcarse de dichos límites, para enfocarse en una reflexión que permita comprender las experiencias que se perfilan y se viven en forma única y singular, análisis que queda plasmado en el hilo discursivo de cada capítulo.

Teacher Education in the 21st Century Reginald Monyai,2019-05-02 A learner-centred curriculum provides space for the learner to be actively involved in knowledge production and learning. Such can only happen if the learner's confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification. The twenty-first century teacher must create an environment that not only supports the Four Pillars of Learning but also leads to learners being allowed a voice to ask pertinent questions. The teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking, and the students should be encouraged to practice the truth and have

self-respect and respect for other people. This can happen if the learner is afforded the opportunity to self-accept. If the learners fail to do so, they are likely to have lack of confidence, which will lead to lack of independence.

La vocación filosófica de Rafael Carrillo Carlos Elias Luquez Carrillo, 2020-04-01 Su vocación por la filosofía, es en nuestro sentir la faceta más importante de su vida, porque a partir de allí, comenzó a edificar toda su obra, haciendo, una ruptura con la filosofía tomista que se venía enseñando en colegios y universidades, e introduciendo el estudio de la filosofía moderna en el país. Este trabajo de investigación y para consulta, podría ser un referente o uno de los tantos insumos que ya existen, para que las nuevas generaciones, se decidan en algún momento, escribir la Historia de la Filosofía en Colombia y Latinoamérica, dada ya nuestra tradición en esta disciplina. Sin un destinatario específico, la idea de escribir este libro obedeció a mi interés por dar a conocer su obra, y despertar el interés de las nuevas generaciones que deseen dedicarse a una actividad intelectual, seria y rigurosa. Rafael Carrillo es uno de esos paradigmas.

Memoria y formación Olaya Gualteros, Vladimir, Ortega Valencia, Piedad, Herrera, Martha Cecilia, Cristancho, José Gabriel, 2013-04-26 Producto de investigación grupal e interdisciplinar y de un proceso continuo de acumulación de conocimientos, el libro *Memoria y formación: configuraciones de la subjetividad en ecologías violentas* es, por si mismo, parte de esta nueva corriente de los estudios sobre la violencia en nuestro país; se nutre de ella, reinterpreta los avances teóricos y metodológicos logrados en la comprensión histórica, sociológica, política y psicológica del conflicto armado colombiano, y establece áreas en torno a las cuales su aporte es novedoso: la consolidación de la memoria del conflicto armado como campo cultural, las relaciones entre obra artística, subjetividad, formación y memoria, la subjetivación y formación ético-política que emergen en la memoria de maestros y jóvenes, la enseñanza de la historia reciente sobre violencia política, y la participación de la pedagogía crítica en la configuración de una pedagogía de la memoria en contextos de violencia política.
