Law and Christianity in Latin America M.C. Mirow, Rafael Domingo, 2021-03-08 This volume examines the lives of more than thirty-five key personalities in Latin American law with a focus on how their Christian faith was a factor in molding the evolution of law in their countries and the region. The book is a significant contribution to our ability to understand the work and perspectives of jurists and their effect on legal development in Latin America. The individuals selected for study exhibit wide-ranging areas of expertise from private law and codification, through national public law and constitutional law, to international developments that left their mark on the region and the world. The chapters discuss the jurists within their historical, intellectual, and political context. The editors selected jurists after extensive consultation with legal historians in various countries of the region looking at the jurist's particular merits, contributions to law in general, religious perspective, and importance within the specific country and period under consideration. Giving the work a diversity of international and methodological perspectives, the chapters have been written by distinguished legal scholars and historians from Latin America and around the world. The collection will appeal to scholars, lawyers, and students interested in the interplay between law and religion. Political, social, legal, and religious historians among other readers will find, for the first time in English, authoritative treatments of the region's essential legal thinkers and authors. Students and other who may not read Spanish will appreciate these clear, accessible, and engaging English studies of the region's great jurists.

Buying the Land, Selling the Land Richard Boast, 2008 Studying Crown Maori land policy and practice in the period 1869–1929, from the establishment of the Native Land Court power until the cessation of large-scale Crown purchasing by Gordon Coates, this investigation chronicles the bleak and grim tidal wave of Crown purchasing that dominated the Maori people under very difficult circumstances. While recognizing that the government purchasing of Maori land was in its own way driven by genuine, if blinkered, idealism, this work's deep research on land purchasing policy gives renewed insight on the significant politicians of the era, such as Sir Donald McLean, John Balance, and John McKenzie who were strong advocates of expanded and state-controlled land purchasing.

International Criminal Law in Mexico Tania Ixchel Atilano, 2021-03-26 This book puts forward proposals for solutions to the current gaps between the Mexican legal order and the norms and principles of international criminal law. Adequate legislative measures are suggested for compliance with international obligations. The author approaches the book's subject matter by tracing all norms related to the prosecution of core crimes and contextualizing each of the findings with a brief historical and political account. Additionally, state practice is analyzed, identifying patterns and inconsistencies. This approach is new in offering a wide perspective on international criminal law in Mexico. Relevant legal documents are analyzed and annexed in the book, providing the reader with a useful guide to the topics analyzed. Issues including the following are examined: the incorporation of core crimes in the Mexican legal order, military jurisdiction, the war crimes definition under Mexican law, unaddressed atrocities, state practice and future challenges to combat impunity. The book will be of relevance to legal scholars, students, practitioners of law and human rights advocates. It also offers interesting insights to political scientists, historians and journalists. Tania Ixchel Atilano has a Dr. Iur. from the Humboldt Universität Berlin, an LL.M. in German Law from the Ludwig Maximilian Universität, Munich, and attained her law degree at the ITAM in Mexico City.

Latin American Law M. C. Mirow, 2010-01-01 Private law touches every aspect of people's daily lives—landholding, inheritance, private property, marriage and family relations, contracts, employment, and business dealings—and the court records and legal documents produced under private law are a rich source of information for anyone researching social, political, economic, or environmental history. But to utilize these records fully, researchers need a fundamental understanding of how private law and legal institutions functioned in the place and time period under study. This book offers the first comprehensive introduction in either English or Spanish to private law in Spanish Latin America from the colonial period to the present. M. C. Mirow organizes the book into three substantial sections that describe private law and legal institutions in the colonial period, the independence era and nineteenth century, and the twentieth century. Each section begins with an introduction to the nature and function of private law during the period and discusses such topics as legal education and lawyers, legal sources, courts, land, inheritance, commercial law, family law, and personal status. Each section

also presents themes of special interest during its respective time period, including slavery, Indian status, codification, land reform, and development and globalization.

Mexican Law for the American Lawyer Jorge A. Vargas, 2009 Three special features make this book unique in many respects. First, the book has been written by an eminent group of Mexican practitioners and academics recognized in Mexico for their legal expertise. These are attorneys working for prestigious law firms in Mexico who wrote their chapters keeping in mind the professional interest of American lawyers. Second, each of its seventeen chapters discusses a Mexican legal area commonly found in decisions rendered by state or federal courts in our country. These areas include personal injury, contracts, Fideicomisos, real estate, companies, Maquiladoras, promissory notes, family law, conflict of laws, letters rogatory, enforcement of judgments, etc. And third, most chapters include a legal glossary, a specialized bibliography and samples of practical Mexican legal documents. This up-to-date book, edited and co-authored by University of San Diego School of Law professor Jorge A. Vargas, a prolific author on Mexican law, will be invaluable for legal practitioners, judges and government officials who handle legal matters involving Mexican law, as well as for business and law students. Whether a researcher is a seasoned Mexican legal scholar or new to the subject, tools that are laid out well, written by experts, and concisely written are always welcomed but not always available. This particular publication is one of the best structured books I have seen recently. If you deal with Mexican law you should consider having this one on your shelf. -- Legal Information ALERT

Mexico, 1848-1853 Pedro Santi, Will Fowler, 2018-08-06 Historians have paid scant attention to the five years that span from the conclusion early in 1848 of Mexico's disastrous conflict with the United States to the final return to power in April 1853 of General Antonio López de Santa Anna. This volume presents a more thorough understanding of this pivotal time, and the issues and experiences that then affected Mexicans. It sheds light on how elite politics, church-state relations, institutional affairs, and peasant revolts played a crucial role in Mexico's long-term historical development, and also explores topics like marriage and everyday life, and the public trials and executions staged in the aftermath of the war with the U.S.

Corruption and Justice in Colonial Mexico, 1650-1755 Christoph Rosenmüller, 2019-05-02 Provides the first detailed analysis of the evolution of the concept of corruption in colonial Mexico.

Comparative Perspectives on Communal Lands and Individual Ownership Lee Godden, Maureen Tehan, 2010-02-26 Comparative Perspectives on Communal Lands and Individual Ownership: Sustainable Futures addresses property and land title as central mechanisms governing access to communally-held land and resources. The collection assesses the effectiveness of property law and tenure models developed around concepts of individual ownership, for achieving long-term environmental and economic sustainability for indigenous peoples and local communities. It explores the momentum for change in the international realm, and then develops a comparative focus across Australia, North America, Africa, Peru, New Zealand and the Pacific region, examining the historical and current impacts of individuation of title on the customary law

and practice of indigenous peoples and local communities. Themes of property, privatisation and sustainable communities are developed in theoretical analyses and case studies from these jurisdictions. The case studies throw into sharp relief how questions of land law and resources management should not be separated from wider issues about the long-term viability of communities. Comparative analysis allows consideration of how western models of land tenure and land title might better accommodate the exercise of traditional practices of indigenous peoples and local communities, while still promoting autonomy, choice and economic development. This volume will be of interest to scholars and professionals working in the fields of property law, land reform, policy and planning, indigenous law and customary law, environmental sustainability, development and resource management.

Juicios orales de derecho familiar: hacia su implementación y unificación en México Pablo Alfonso Aguilar Calderon, 2025-02-27 El Derecho Familiar constituye un pilar esencial para la preservación de las relaciones sociales, siendo la base fundamental de las instituciones familiares y un factor clave en el desarrollo tanto de los individuos como del Estado. En este sentido, la presente obra lleva a cabo un análisis de diversos procesos judiciales a través de la historia de varios países de Europa y América, incluido México, con el fin de comprender los mecanismos de administración de justicia, identificar aciertos y errores, así como su evolución. Finalmente, se proponen soluciones orientadas a la optimización de los procesos judiciales familiares mediante la implementación de juicios orales y el proceso de mediación obligatoria, con el objetivo de garantizar de manera integral, expedita y eficiente la protección de los intereses del núcleo familiar.

The Enlightenment on Trial Bianca Premo, 2017 The principal protagonists of this history of the Enlightenment are non-literate, poor, and enslaved colonial litigants who began to sue their superiors in the royal courts of the Spanish empire. With comparative data on civil litigation and close readings of the lawsuits, *The Enlightenment on Trial* explores how ordinary Spanish Americans actively produced modern concepts of law.

Good Places and Non-places in Colonial Mexico Gómez-Herrero Gómez, Vasco de Quiroga, 2001 High state official and judge of the Supreme Court or the Segunda Audiencia, and later first bishop of the state of Michoacan, Vasco de Quiroga is still celebrated for the alternative community models he established for the Purepecha Indians in the Northwestern state of Michoacan in Mexico. This study offers the most complete approach to date to the writings directly attributed to this state official of the Spanish Empire and also to the scholarship about him. This work provides critical readings of Quiroga's texts including the Rules and Regulations for the Government of the Hospitals of Santa Fe de Mexico and Michoacan, *Información en Derecho*, *De Debellandis Indis* and the *Juicio de Residencia*, and relates them to more widely known figures such as Ginés de Sepúlveda, Bartolomé de las Casas, Bernal Díaz del Castillo and Francisco de Vitoria among others. This book will be of interest to all those engaged in the history of literature, legal studies, utopianism, Hispanic/Spanish studies of the Early

Modern Period, Colonial Latin American Studies and Golden Age Studies.

The Protectors of Indians in the Royal Audience of Lima Mauricio Novoa, 2016-04-18 In *The Protectors of Indians in the Royal Audience of Lima: History, Careers and Legal Culture, 1575-1775* Mauricio Novoa offers an account of the institution that developed in the vice-royalty of Peru for the protection of Indians before the high courts of justice. Making use of historical materials, Novoa provides a comprehensive view on the formation of the legal elite in Lima during the colonial period; reviews the litigation undertaken by indigenous plaintiffs, and explains the legal culture that allowed the development of juristic doctrine around the Indian personal status.
