Jasima Uddina Āhamada

Two Bengals Arindam Banik, Munim Kumar Barai, 2023-05-18 Bangladesh and the Indian state of West Bengal share many characteristics, including a common language, fertile land, abundant rainfall, year-round warmth, and a dense population. This book examines the progress made in crucial economic sectors that have paved the way for the development of Bangladesh and West Bengal. The book begins by describing how Bangladesh is moving toward achieving the status of a middle-income nation, and how West Bengal seems to have fallen into the trap of developmental experiments with different political ideologies over time. The book then compares the trajectory of development in various economic sectors of the two economies. In doing so, it covers social development, education, health care, food habits, cinema and theatre, and the entrepreneurship of both entities. The chapters take an empirical and descriptive approach to address various issues, analyse results, draw conclusions, and make policy suggestions.

Handbook of Research on Sustaining SMEs and Entrepreneurial Innovation in the Post-COVID-19 Era Baporikar, Neeta, 2021-02-05 A multidimensional approach to entrepreneurship, especially in the post-COVID-19 era, will have an important influence on the state of business and government, especially when considering the effects of technological development, innovation, glocalization, and nationalization policies that need to be adopted for inclusive sustainable growth, as well as the enhanced and efficient utilization of global resources. That means there is likely to be a shift in how entrepreneurship development and entrepreneurial opportunities will be perceived, developed, and resourced. The question is how to sustain SMEs and entrepreneurial innovation in the post-COVID-19 era. Thus, comprehensive research and knowledge on designing policies and approaches to ensure the sustainability of SMEs and entrepreneurial innovation in post-pandemic times are essential to sustain, stimulate, and foster SMEs, entrepreneurship, and entrepreneurial innovations. The Handbook of Research on Sustaining SMEs and Entrepreneurial Innovation in the Post-COVID-19 Era provides research dedicated to entrepreneurship with a special emphasis on the sustainability of SMEs and entrepreneurial innovations in the post-COVID-19 era. It provides discussion and the exchange of information on principles, strategies, models, techniques, methodologies, and applications of entrepreneurship in the post-COVID-19 era in the field of public and private organizations. The chapters communicate the latest developments and thinking on the entrepreneurship subject worldwide by drawing on the latest developments, ideas, research, and best practice to examine the implications of the changes taking

place due to COVID-19. This book is ideally intended for entrepreneurs, global organizations, small and medium-sized enterprises, managers, executives, government officials, policymakers, researchers, academicians, and students who are interested in learning about, designing, or implementing policies that are more effective in the post-pandemic era.

Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines

Management Association, Information Resources, 2021-12-30 Research methodology is as old as academia itself. Research methodology shifts in strategy as it crosses different disciplines and theories. This, too, is true with the shifting landscape of research opportunities and technologies available to global researchers. To achieve the most accurate and substantial research, it is important to be knowledgeable of emerging research methodologies. The Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines discusses the most recent global research innovations made across multiple fields. This anthology further discusses how these research methodologies can be applied to a variety of specific fields. Covering topics such as creative thinking, qualitative research, and the research method landscape, this book is essential for students and faculty of higher education, scientists, researchers, sociologists, computer scientists, and academicians.

Developing Curriculum for Emergency Remote Learning Environments Silva, Susana, Peres, Paula, Silva,

Cândida, 2022-12-29 All over the world, educational institutions confronted emergency policy changes caused by the COVID-19 pandemic. Due to this, academic activities were provided mostly by remote teaching and learning solutions. The transition to emergency remote teaching and learning raised some challenges regarding technical, pedagogical, and organizational issues. It is important for higher education institutions to prepare themselves to deal with future emergency scenarios, promoting an in-depth reflection about the future challenges in the post-pandemic era. Developing Curriculum for Emergency Remote Learning Environments supports creating and promoting an education-as-a-business strategy for higher education institutions by sharing possible business models. It provides a collection of different approaches to online education in the perspective of the future of education environments. Covering topics such as distance learning experiences, online practice improvement, and remote testing, this premier reference source is an excellent resource for educators and administrators of higher education, pre-service educators, IT professionals, librarians, researchers, and academicians.

The Constitutional Law of Bangladesh M Rafiqul Islam, Muhammad Ekramul Haque, 2023-07-25 This book provides a supportive lending hand to researchers of constitutional law worldwide about the constitutional law of Bangladesh. Moreover, this book discusses the evolution and development of the constitutional law of Bangladesh over 50 years from its embryonic stage with reference to comparative constitutional law. This book is a very useful resource for the comparative constitutional researchers as readers will be able to easily interpret the constitutional law of Bangladesh from national, regional and global constitutional law perspectives. This book celebrates the fiftieth anniversary of the Constitution, the first of its kind to portray the journey of constitutionalism in Bangladesh comprehensively with intellectual observations and palatable recommendations for improvement. This book looks back to the constituent assembly debates, intention of the constitution makers and how have those dreams and aspirations have come into realities, what goals have been achieved, what caused some failures, and what should be its future directions. At such a momentous point in history, it is imperative that its native and foreign constitutional authoritative voices scholarly assess the constitutional design, understand the reasons for its successes and occasional failures, and ventilate their views towards its progressive development to elevate it to a new height in the 21st century and beyond. The book chapters discuss not only the text of the constitution and some judicial precedents, rather involve in a much larger task of unveiling the interpretative approach of the Constitution from a comparative constitutional law perspective. This book shall project the future roadmap for the journey of constitutionalism in Bangladesh throughout all chapters offering policy recommendations for the revision of the Constitution.

Keramat, Sacred Relics and Forbidden Idols in Singapore William L. Gibson, 2024-08-29 Keramat, holy graves and shrines, represent physical markers of Singapore's history as a multi-ethnic maritime trading center. They offered sanctified spaces not only for Muslims but also for the entire community in which they emerged. Maintained by self-appointed caretakers, the stories of keramat often interweave fact with folklore that mirror the history and sensibilities of the community. While once an abundant part of the social landscape of Singapore, many keramat were destroyed during the post-independence rush to develop. These keramat now face a second vanishing with memories of them fading as caretakers

and community members age and pass away. In parallel, many modern Muslims consider keramat as a form of shirk, or polytheism, and tacitly consent to their destruction. This book concludes by critically examining the often-tense relationship between keramat and authority, both secular and religious, from colonial to modern times. The dilemmas of grappling with puritanical norms and grassroots elaborations in varying modes of preservation are investigated using case studies from Singapore and the wider region. A vital resource for scholars, this work contributes to a people's history of Singapore, one that both deepens and problematizes official historical accounts.

Sustainable Waste Management Challenges in Developing Countries Pariatamby, Agamuthu,Shahul Hamid, Fauziah,Bhatti, Mehran Sanam,2019-10-18 As global waste generation increases at a rapid rate, there is a dire need for waste management practices such as collection, disposal, and recycling to protect from environmental pollution. However, developing countries generate two to three times more waste, resort to open dumps more often than developed countries, and are slower to integrate waste management standards. There is a need for studies that examine the waste generation and practices of countries that share similar economic backgrounds as they strive to implement successful waste management techniques. Sustainable Waste Management Challenges in Developing Countries is an essential reference source that discusses the challenges and strategies of waste management practices and the unique waste issues faced by developing countries that prevent them from achieving the goal of integrated waste management. While highlighting topics including e-waste, transboundary movement, and consumption patterns, this book is ideally designed for policymakers, legislators, waste company managers, environmentalists, students, academicians, and municipal planners seeking current research on the global waste management problem.
