The Last Goal Michael O'Neal, 2023-08-07 About the Book Will your life click away as a montage before your eyes when Death comes? Will it be a car wreck or cancer? Will Death appear to you as a skull-faced ghoul or avuncular guide? Rest assured, you will certainly meet him. Since humans became human, Death has harvested. Over the millennia, he has occasionally revealed himself to mortals. Nick, as a pre-teen, meets the specter after surviving a near miss. Throughout Nick's life, Death appears on no set schedule, their conversations a mix of reveal and closely held answers to Nick's questions: Is there a God? Is there any kind of life after death? How do you maintain such a nice tan? Nick's search for answers continues throughout his life, at times an accepted reality, at others causing Nick debilitating pain and anger. As years tick away, Nick realizes the many cultural and spiritual differences in dealing with and accepting Death, leading him to a personal understanding that helps him cope. Nick's story will bring hope to some, peace to many, and acceptance to most, as we all must ultimately face our own last goal. About the Author Michael O'Neal's interest in death and dying has been there since childhood. As a teacher, he continued education in classes focused on suicide intervention, philosophy, cultural studies, and death and dying. An enlightening experience happened when he presented a salon class on death and dying at a women's prison. A Native American woman confided in O'Neal that she'd had the Kubler-Ross experience of seeing the light. A master's degree in multicultural education, international travel, and years of living overseas gave O'Neal adjusted perceptions of Death. Being run over as a kid, two close friends committing suicide, and assisting his brother with a dignified death, motivated O'Neal to write *The Last Goal*.

Ways of Thinking of Eastern Peoples Hajime Nakamura, 1991 Ways of thinking of Eastern people is a comparative study of ways of thinking of major peoples of Asia. It has been widely admitted that this is the first attempt to give a survey and analysis of ways of thinking of Asians, which differ with peoples. The author has chiefly centered in pointing out features of Indian ways of thinking, as well as Chinese, Japanese and Tibetan ones. His knowledge of Asian traditions, as well as wonderful command of various languages of Asia, being combined, have made this attempt quite successful and reliable in the scholarly sense.

Handbook of the Economics of Finance George M. Constantinides, M. Harris, Rene M. Stulz, 2003-11-04 Volume 1A covers

corporate finance: how businesses allocate capital - the capital budgeting decision - and how they obtain capital - the financing decision. Though managers play no independent role in the work of Miller and Modigliani, major contributions in finance since then have shown that managers maximize their own objectives. To understand the firm's decisions, it is therefore necessary to understand the forces that lead managers to maximize the wealth of shareholders.

Fan Fiction Genres Julia Elena Goldmann,2022-09-01 What if James T. Kirk and Spock had a baby, left the Enterprise and moved to New Vulcan to live happily ever after? Fan fiction plots like this are a strong testament of fans' endless creativity. Not only do the authors invent their own storylines but they have developed a generic definition of content across fandoms according to the relationship present in the text. Classification is therefore profoundly related to gender and sexuality. Julia Elena Goldmann examines these generic structures and formulaic patterns comparatively in Star Trek and Supernatural fan fiction. She also focuses on the interplay of the concepts of gender, sexuality, relationships and depictions of family in these texts.

The Hand Reveals Dylan Warren-Davis,2021-04-26 A practical guide to the fascinating art of reading hands. Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature, distinct from the fortune telling of palmistry. What has come down to us as palmistry today is a rather degenerate and effete form of the ancient discipline of chiromancy. The word cheiromancy comes from the Greek chir meaning 'hand', and manteia meaning 'divination', literally meaning 'divination through the hand'. The Hand Reveals is not merely theoretical: at various points throughout the book readers are encouraged to try and apply this knowledge at every opportunity to find confirmation of the ideas. There is a considerable amount of knowledge and information compressed into these pages, and even the most diligent student would have difficulty in digesting it in one reading. It is recommended that you refer back as often as necessary to go the material you have read, to allow your understanding of cheiromancy to grow gradually. Originally published in 1993, this edition has been revised and updated with new material.

Provocative and Contemplative Quotations John L. Bowman,2013-12-10 Emerson wrote that thinking is hard to do, which is why so few do it. Socrates asserted the unexamined life is not worth living, Franklin pondered prudence, Sartre examined the existentialist void, Bothius described the wheel of fortune, Cicero mused on old age, Shakespeare dramatized revenge, La Rochefoucauld unveiled vices tribute to virtue, Montaigne said no wind works for those with no port of

destination and Sophocles explained it is a mistake to wait until evening to see how splendid the day has been. For millennia brilliant historic thinkers have pondered timeless truths about human nature. Many provocative and contemplative ideas have resonated through time, proving as meaningful today as in the past. This book offers a compendium of thought-provoking quotations along with cogent author comments. It is a celebration of thinking and thought never goes out of fashion.

Quotatives Isabelle Buchstaller, Ingrid van Alphen, 2012 Research on quotation has yielded a rich and diverse knowledge-base. Scientific interest has been sparked particularly by the recent emergence of new quotative forms in typologically related and unrelated languages (i.e. English *be like*, Hebrew *kazé*, Japanese *mitai-na*). The present collection gives a platform to research conducted within different linguistic sub-disciplines and on the basis of a variety of Western and non-Western languages. The introduction presents an overview of forms and functions of old and new quotative constructions. The nine chapters investigate quotation from different perspectives, from conversation analysis over grammaticalization and language variation and change to typological and formal approaches. The collection advocates a comprehensive approach to the phenomenon 'quotation', seeking a more nuanced knowledge-base as regards the linguistic properties, social uses and pragmatic functions than monolingual or single disciplinary approaches deliver. The cross-disciplinary nature and the wealth of data make the findings broadly available and relevant.

Personalisation in Mass Media Communication Daniela Landert, 2014-02-04 It seems to be a truism that today's news media present the news in a more personal and direct way than print newspapers some twenty-five years ago. However, it is far from obvious, how this can be described linguistically. This study develops a model that integrates and differentiates between the various facets of personalisation from a linguistic point of view. It includes 1) contexts that involve the audience by inviting direct interaction and through the use of visual elements; 2) the focus on private individuals who are personally affected by news events; and 3) the use of communicative immediacy, for instance in the form of direct speech and first and second person pronouns. This model is applied to data from five British online news sites, demonstrating how individual features contribute to personalisation, how different features interact, and what personalisation strategies are used by news sites of different market orientations.

The Philosophy of Gottlob Frege Richard L. Mendelsohn, 2005-01-10 This analysis of Frege's views on language and

metaphysics in *On Sense and Reference*, arguably one of the most important philosophical essays of the past hundred years, provides a thorough introduction to the function/argument analysis and applies Frege's technique to the central notions of predication, identity, existence and truth. Of particular interest is the analysis of the Paradox of Identity and a discussion of three solutions: the little-known Begriffsschrift solution, the sense/reference solution, and Russell's 'On Denoting' solution. Russell's views wend their way through the work, serving as a foil to Frege. Appendices give the proofs of the first 68 propositions of Begriffsschrift in modern notation. This book will be of interest to students and professionals in philosophy and linguistics.

Taking Flight Laura Cruz, Michele A. Parker, Brian Smentkowski, Marina Smitherman, 2023-07-03 *Taking Flight* synthesizes research on best practices for running centers of teaching and learning, providing practical guidance and resources for educational developers who are looking to open new centers; revitalize an underperforming center; or sustain and enhance an effective center. The authors offer the necessary background, relevant examples, and practical exercises specifically designed to support the sustained vitality of educational development and its role in fostering organizational change. The book is practical in nature, with step sheets, diagrams, and similar materials designed to facilitate reflection and application. The book guides educational developers in enhancing and applying their knowledge, skills and abilities to establish a leadership role which, in turn, will enable them to play a pivotal role in translating visionary strategies into meaningful actions across their respective campuses. An effective, well-managed center for teaching and learning has the potential to benefit its institution's faculty, staff, students, and community members. Through fostering a productive relationship with campus administration, centers can improve morale, contribute to shaping and achieving institutional learning mission and outcomes, enhance institutional reputation, and make a contribution to the practice of teaching and learning across the academy. The materials in *Taking Flight* were honed through a series of national workshops developed under the aegis of the POD Network - the professional organization for educational developers in the United States. This book answers a need for a resource for directors and staff of centers that has been identified by leaders in the field. It also provides valuable context for all leaders concerned about student learning and the improvement of teaching.
