Monstrous Fantasies Leila K. Norako, 2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre, the last of the Latin crusader states in the Holy Land, and what these texts reveal about the cultural anxieties of late medieval England. Leila K. Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance. These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself, resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims. These romances, which—as Norako argues—also influenced Geoffrey Chaucer's Canterbury Tales, conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages. Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum, Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so-called wars on terror in the twenty-first century in such films as Kingdom of Heaven and American Sniper.

**Identifying Cultural Intersections in the Works of Shota Rustaveli and Nizami Ganjavi** Maka Elbakidze, Irma Ratiani, 2023-11-21 The Knight in the Panther's Skin, the most significant text in Georgian literature, was written by Shota Rustaveli in the Late Middle Ages. Rustaveli's philosophic, aesthetic and ethical views bear the clear imprint of medieval European culture as well as oriental literature. So, The Knight in the Panther's Skin organically unites the cultural traditions of the Christian West and Muslim East. This book conducts comparative research within the frame of these two huge cultures. The objective of the research is to show the fundamental problems raised in the works of Shota Rustaveli and Nizami Ganjavi, the typological essence of the similarities between them, as well as the historic, cultural, literary, and aesthetic factors that make their works differ.

**The Mystery Knight: A Graphic Novel** George R. R. Martin,2017-08-08 A graphic novel edition of The Mystery Knight, one of the thrilling Dunk and Egg novellas from George R. R. Martin's A Knight of the Seven Kingdoms and a prequel of sorts to A Game of Thrones "Every wedding needs a singer, and every tourney needs a mystery knight." Westeros is eerily peaceful. King Aerys I sits on the Iron Throne. A ravaging plague has abated. Yet beneath the surface, tensions linger sixteen years after a failed rebellion. In these restless times, noble hedge knight Ser Duncan the Tall—Dunk, to his friends—and his precocious boy squire, Egg, travel the Seven Kingdoms performing chivalrous deeds, though Egg's bloodline must be concealed at all costs. After heading north for Winterfell, Dunk and Egg are lured off the kingsroad by a wedding feast—and an unusually lucrative tournament. The champion jousting will claim a rare trophy indeed: a dragon's egg. Dunk, always better in a melee, would be satisfied with a hot meal, a cup of wine, and a purse full of coins. But a treasonous plot is more likely to hatch before another dragon ever stretches its wings. Someone's on to Egg. And a mystery knight with designs on an even bigger prize soon throws the entire affair into chaos.

**Big Little Hotel** Donna Kacmar,2023-03-28 This book showcases small hotels, all located in the United States, designed by architects who use light and materials in interesting and intentional ways. The designs also deliberately connect to their local history, context, or land - in many cases all three. Both the architecture and the operations harmonize with the place, whether that is a bustling city, small town, or natural area. Many are new buildings but some are adaptive reuse projects or renovations of historic properties, extending the connectivity of the place into the future. A condensed history of lodging helps to place the many typologies and histories of hospitality in relationship to world events and includes the many factors that influence hotel development such as business practices, technology, and even politics. Hotels are influenced by larger trends and innovations in hospitality such as the emergence of a variety of creative possibilities for future travel. A final chapter includes speculation on travel trends and encourages us all to wander more intentionally.

The Oxford Handbook of Shakespearean Tragedy Michael Neill,David Schalkwyk,2016-08-18 The Oxford Handbook of Shakespearean Tragedy presents fifty-four essays by a range of scholars from all parts of the world. Together these essays offer readers a fresh and comprehensive understanding of Shakespeare tragedies as both works of literature and as performance texts written by a playwright who was himself an experienced actor. The opening section explores ways in which later generations of critics have shaped our idea of 'Shakespearean' tragedy, and addresses questions of genre by examining the playwright's inheritance from the classical and medieval past. The second section is devoted to current textual

issues, while the third offers new critical readings of each of the tragedies. This is set beside a group of essays that deal with performance history, with screen productions, and with versions devised for the operatic stage, as well as with twentieth and twenty-first century re-workings of Shakespearean tragedy. The book's final section expands readers' awareness of Shakespeare's global reach, tracing histories of criticism and performance across Europe, the Americas, Australasia, the Middle East, Africa, India, and East Asia.

**Loving Jewish People** Paul O. Bischoff, 2025-08-21 Jewish people are experiencing another Holocaust. The only difference between today's catastrophic extermination of Jews and that of Nazi Germany's is technology. German efficiency murdered Jewish people and disposed of their bodies in short order. Iranian murderous terror toward Jewish people is taking longer. Missiles are hit and miss. Why does the world hate the Jews? It all starts with God. An anti-God spirit prevails in cultures around the world. The Jews are God's first people on earth. They are God's method of blessing all families and nations. Maybe it's jealousy. No matter what, you can't love God and hate the Jews. Ironically the very religion which owes its existence to Judaism, Christianity, has historically been the perpetrator of Jewish hatred. The church was a bystander while others executed their mission of annihilation. The opposite of hate is love. To reverse current global anti-Jewish feeling requires loving Jewish people as human beings. It must start with a repentant church willing to admit, confess, and plead forgiveness from any Jewish person. The church needs to practice what it believes--to love God with all its heart, body, soul, and spirit--by demonstrating concrete ways to love its neighbor, the Jewish people.

**Principles of Big Data** Jules J. Berman, 2013-05-20 Principles of Big Data helps readers avoid the common mistakes that endanger all Big Data projects. By stressing simple, fundamental concepts, this book teaches readers how to organize large volumes of complex data, and how to achieve data permanence when the content of the data is constantly changing. General methods for data verification and validation, as specifically applied to Big Data resources, are stressed throughout the book. The book demonstrates how adept analysts can find relationships among data objects held in disparate Big Data resources, when the data objects are endowed with semantic support (i.e., organized in classes of uniquely identified data objects). Readers will learn how their data can be integrated with data from other resources, and how the data extracted from Big Data resources can be used for purposes beyond those imagined by the data creators. - Learn general methods for specifying Big Data in a way that is understandable to humans and to computers - Avoid the pitfalls in Big Data design and analysis - Understand how to create and use Big Data safely and responsibly with a set of laws, regulations and ethical standards that apply to the acquisition, distribution and integration of Big Data resources

**The Law & Politics of Brexit: Volume II** Federico Fabbrini, 2020-11-05 The book provides the first comprehensive analysis of the withdrawal agreement concluded between the United Kingdom and the European Union to to create the legal framework for Brexit. The book -- which builds on a prior volume The Law & Politics of Brexit (OUP 2017) - overviews the

process of Brexit negotiations that took place between the UK and the EU from 2017 to 2019, and examines the key provisions of the Brexit deal. The volume assesses the withdrawal agreement provisions on the protection of citizens' rights, the Irish border and the financial settlement - as well as the governance provisions on transition, decision-making and adjudication, and the prospects for future EU-UK trade relations. Formative Britain Martin Carver, 2019-01-14 *Formative Britain* presents an account of the peoples occupying the island of Britain between 400 and 1100 AD, whose ideas continue to set the political agenda today. Forty years of new archaeological research has laid bare a hive of diverse and disputatious communities of Picts, Scots, Welsh, Cumbrian and Cornish Britons, Northumbrians, Angles and Saxons, who expressed their views of this world and the next in a thousand sites and monuments. This highly illustrated volume is the first book that attempts to describe the experience of all levels of society over the whole island using archaeology alone. The story is drawn from the clothes, faces and biology of men and women, the images that survive in their poetry, the places they lived, the work they did, the ingenious celebrations of their graves and burial grounds, their decorated stone monuments and their diverse messages. This ground-breaking account is aimed at students and archaeological researchers at all levels in the academic and commercial sectors. It will also inform relevant stakeholders and general readers alike of how the islands of Britain developed in the early medieval period. Many of the ideas forged in Britain's formative years underpin those of today as the UK seeks to find a consensus programme for its future.

*Breakthroughs in College Reading* Nelson Graff, Nika Hogan, Rebecca Kersnar, 2024-09-05 How do we help college students become independent learners in their disciplines? In this collection, the editors and contributors argue that we do so by supporting students in learning from texts, which entails recognizing reading as a problem-solving process, supporting students to take responsibility for the intellectual work in their classes, and creating strong classroom communities that help students develop identities as scholars.
