**Stefano B. Longo, Rebecca Clausen, Brett Clark**

*Blackshirts and Reds* Michael Parenti, 2020-09-09 A bold and entertaining exploration of the epic struggles of yesterday and today. *Blackshirts & Reds* explores some of the big issues of our time: fascism, capitalism, communism, revolution, democracy, and ecology. These terms are often bandied about, but seldom explored in the original and exciting way that has become Michael Parenti's trademark. Parenti shows how rational fascism renders service to capitalism, how corporate power undermines democracy, and how revolutions are a mass empowerment against the forces of exploitative privilege. He also maps out the external and internal forces that destroyed communism, and the disastrous impact of the free-market victory on eastern Europe and the former Soviet Union. He affirms the relevance of taboo ideologies like Marxism, demonstrating the importance of class analysis in understanding political realities and dealing with the ongoing collision between ecology and global corporatism. Written with lucid and compelling style, this book goes beyond truncated modes of thought, inviting us to entertain iconoclastic views, and to ask why things are as they are. A penetrating and persuasive writer with an astonishing array of documentation to implement his attacks. —The Catholic Journalist By portraying the struggle between fascism and Communism in this century as a single conflict, and not a series of discrete encounters, between the insatiable need for new capital on the one hand and the survival of a system under siege on the other, Parenti defines fascism as the weapon of capitalism, not simply an extreme form of it. Fascism is not an aberration, he points out, but a 'rational' and integral component of the system.—Stan Goff, author of *Full Spectrum Disorder: The Military in the New American Century* Michael Parenti, PhD Yale, is an internationally known author and lecturer. He is one of the nation's leading progressive political analysts. Author of over 275 published articles and twenty books, his writings are published in popular periodicals, scholarly journals, and his op-ed pieces have been in leading newspapers such as *The New York Times* and *The Los Angeles Times*. His informative and entertaining books and talks have reached a wide range of audiences in North America and abroad.

Summary of Michael Parenti's *Blackshirts and Reds* Everest Media, 2022-06-15T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Fascist history exists in many forms, from posters and T-shirts to books and articles that attempt to sanitize fascist history. They say little if anything about the class policies of fascist Italy and Nazi Germany. #2 Fascist leader Benito Mussolini was born in 1883. He had spent his early life fighting with socialists, and by the end of World War I, he had become a fascist, organized strikes for landowners and industrialists, and

broke strikes on behalf of financiers. #3 In Germany, the Nazis were funded by business tycoons to terrorize workers and farm laborers, and in 1930, most of the tycoons had decided that the Weimar Republic no longer served their needs. They greatly increased their subsidies to Hitler, propelling the Nazi party onto the national stage. #4 Fascist politics and economics were similar in Italy and Germany, two countries with different histories, cultures, and languages. They ended up with the same repressive solutions because of the similarities of economic power and class conflict that existed in their respective countries.

**Politics of Fear** Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written, widely informed, and uncompromisingly honest -- a valuable expose. Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks, legal action groups, and media strategies. Gary Orfield, Harvard University What explains the electoral success of Republicans, particularly of the ascendant neoconservatives who now dominate the Party? Based on a thorough and up-to-date examination of the New Right over twenty-five years, *The Politics of Fear* proposes some provocative answers, including globalization, new technologies, and a far-reaching network of right-wing think tanks and foundations. As the authors show, all have opened the doors to a new politics of fear successfully waged by the neoconservatives. By manipulating insecurity, the New Right has created an extraordinarily successful populist conservative movement. Utilizing extensive documentation, the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal, while their approach also implicates gays, feminists, and terrorists. The book explains why Americans have willingly supported a party that promises them security, just as it delivers greater economic and political insecurity. The authors argue that, despite their striking political successes, neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures, military exploits, tort reform, deregulation, and environmental destruction.

*Japan in the Fascist Era* E. Reynolds, 2004-07-15 In contrast to Euro-centric works on comparative fascism that set Japan apart from Germany and Italy, this book emphasizes parallels between Japan and its Axis Allies. Romantic nationalist ideologies attracted a strong following in all three nations as they emerged as modern states in the late 1800s. In both Germany and Japan these were, from the beginning, strongly racial in nature. Spurred by grievances against the 'status quo' powers, all three took up aggressive policies in the 1930s, producing a short-lived 'fascist era'. Japan's prominent role demands a broader perspective and consideration of 'fascism' as more than a purely European phenomenon.

**Socialism Betrayed** Roger Keeran, Thomas Kenny, 2010-10-20 A fresh multi-faceted look at the overthrow of the Soviet State, the dismemberment of the Soviet Union, and the campaign to introduce capitalism from above. Roger Keeran and Thomas Kenny have given us a clear and powerful Marxist analysis of the momentous events which most directly shaped world politics today, the destruction of the USSR, the 'Superpower' of socialism. -Norman Markowitz, author of *The Rise and*

Fall of the People's Century I have not read anything else with such detailed and intimate knowledge of what took place. This manuscript is the most important contribution I have read. -Phillip Bonosky, author of Afghanistan-Washington's Secret War  
A well-researched work containing a great deal of useful historical information. Everyone will benefit greatly from the mass of historical data and the thought-provoking arguments contained in the book. -Bahman Azad, author of Heroic Struggle

**Why the World Needs China** Kyle Ferrana, 2020-01-01 While the US portrays itself as a noble example of freedom and democracy, it has in fact led the world to greater inequality than ever before. But now, for the first time in decades, nations facing the brunt of its domination and exploitation have alternative, more tenable options in pursuit of development. Chinese finance is building badly-needed infrastructure where the West would not, Chinese commerce is providing a lifeline to countries the US has targeted for destruction, and Chinese industry is producing new sources of renewable and transition energy at an unparalleled rate. This book addresses: China's development and political economy based on independent studies, statistical data, and comparative analysis Current geopolitical conflicts and major developments and their relation to China Chinese finance and its effect on the rest of the world, particularly Africa. China's profound emphasis on environmentalism, renewable energy, and plan for the future. Though it has yet to fully step into this role, the People's Republic of China has become the de facto leader of a future multipolar world.

**Race Woman** Gerald Horne, 2000 A fascinating account of the extraordinary life of W. E. B. Du Bois's widow: a complex, creative woman who lived a colorful, meaningful life. (Essence) Horne is the first biographer to grant Shirley Graham Du Bois her due. (Boston Globe)

**Women, Political Struggles and Gender Equality in South Asia** M. Alston, 2014-08-07 A brutal gang-rape of a young woman in India in 2012 caused a global outcry against rising brutal violence against women. In response to the young woman's death and the protests that followed, the contributors analyze the position of women in South Asia, the issue of violence, women's political activism and gender inequalities.

**Multiple Selves** Richard Lebow, 2024-11-28 Multiple Selves offers an original take on identity, self-fashioning, and the problems of identity politics. It bridges the genres of political science, sociology, philosophy, and even self-help. It draws on current debates in psychology, philosophy and political science, as well as art and literature, to address a serious life issue that has important political and ethical implications. Multiple Selves denies that we have a single identity, are unique, or could use either identity or uniqueness as a source of political and ethical guidance. We are a jumble of multiple self- and social-identifications, that change in character and rise and fall in importance over time. Some of these identifications are reinforcing, others are in conflict, and all are context-dependent. The book offers a critique of identity politics, on both the right and the left. It proposes more realistic ways of self-fashioning, described as much as a social, as an individual

enterprise. Recognition of our fragmented selves can produce important ethical insights and greater psychological contentment.

**Religion and Cooperative Economics** Jamin Andreas Hübner, 2025-07-09 This volume looks at the intersection between religion and cooperative economics through the lens of economic justice. It covers world religious traditions and gives particular focus to cooperative organization, the social and economic problems of capitalism, and the earliest Christian tradition of the Jesus movement. It also examines religious and theological discourse in contemporary defenses of neoliberal capitalism and contemporary advocates of cooperatives. The book serves to unfold both how and why cooperative economics can and should supplant traditional employer-employee relationships (a pillar of modern capitalism) and revive interest in cooperation, worker solidarity, and significant social and political reforms.

*Grand Strategies of the Left* Van Jackson, 2023-11-02 Why are progressives often critical of US foreign policy and the national security state? What would a statecraft that pulls ideas from the American left look like? *Grand Strategies of the Left* brings the progressive worldview into conversation with security studies and foreign policy practice. It argues that American progressives think durable security will only come by prioritizing the interconnected conditions of peace, democracy, and equality. By conceiving of grand strategy as worldmaking, progressives see multiple ways of using foreign policy to make a more just and stable world. US statecraft – including defense policy – should be retooled not for primacy, endless power accumulation, or a political status quo that privileges elites, but rather to shape the context that gives rise to perpetual insecurity. Progressive worldmaking has its own risks and dilemmas but expands how we imagine what the world is and could be.

**The Tragedy of the Commodity** Stefano B. Longo, Rebecca Clausen, Brett Clark, 2015-06-25 Winner of the 2017 Paul Sweezy Marxist Sociology Book Award from the American Sociological Association Although humans have long depended on oceans and aquatic ecosystems for sustenance and trade, only recently has human influence on these resources dramatically increased, transforming and undermining oceanic environments throughout the world. Marine ecosystems are in a crisis that is global in scope, rapid in pace, and colossal in scale. In *The Tragedy of the Commodity*, sociologists Stefano B. Longo, Rebecca Clausen, and Brett Clark explore the role human influence plays in this crisis, highlighting the social and economic forces that are at the heart of this looming ecological problem. In a critique of the classic theory “the tragedy of the commons” by ecologist Garrett Hardin, the authors move beyond simplistic explanations—such as unrestrained self-interest or population growth—to argue that it is the commodification of aquatic resources that leads to the depletion of fisheries and the development of environmentally suspect means of aquaculture. To illustrate this argument, the book features two fascinating case studies—the thousand-year history of the bluefin tuna fishery in the Mediterranean and the massive Pacific salmon fishery. Longo, Clausen, and Clark describe how new fishing technologies, transformations in ships and storage

capacities, and the expansion of seafood markets combined to alter radically and permanently these crucial ecosystems. In doing so, the authors underscore how the particular organization of social production contributes to ecological degradation and an increase in the pressures placed upon the ocean. The authors highlight the historical, political, economic, and cultural forces that shape how we interact with the larger biophysical world. A path-breaking analysis of overfishing, *The Tragedy of the Commodity* yields insight into issues such as deforestation, biodiversity loss, pollution, and climate change.

*Market Socialism* David Schweickart, James Lawler, Hillel Ticktin, Bertell Ollman, 2016-04-22 Aside from Post Modernism, probably the hottest topic today among socialist scholars world-wide is Market Socialism. In this book, four leading socialist scholars present both sides of the debate--two for, and two against--highlighting the different perspectives from which Market Socialism has been viewed. Arguing in favor of Market Socialism are the philosophers David Schweickart and James Lawler. While opposing them and Market Socialism are the political economist Hillel Ticktin and the political theorist Bertell Ollman. The evidence and arguments found in this book will prove invaluable to readers interested in the future of socialism.

**In the Heart of the Heart of Another Country** Etel Adnan, 2005-09 A mosaic of lyrical vignettes, at once deeply personal and political, set against the turbulent backdrop of Arab/Western relations. Adnan writes, Contrary to what is usually believed, it is not general ideas and grandiose unfolding of great events that impress the mind during times of heightened historic upheavals, but rather the uninterrupted flow of little experiences, observations, disturbances, small ecstasies, or barely perceptible discouragements that make up day-to-day living. Etel Adnan, a Lebanese American poet, painter, and essayist, lives in Paris, Beirut, and the San Francisco Bay Area. Among her books, the novel *Sitt Marie Rose* is considered a classic of Middle Eastern literature. She has been a powerful voice for compassion and empowerment in feminist and antiwar movements.

San Francisco Beat David Meltzer, 2021-10-20 San Francisco Beat is an essential archive of the Beat Generation, a rich moment in a fortunate place. America, somnolent, conformist and paranoid in the 1950s, was changed forever by a handful of people who refused an existence of drudgery and enterprise, opting instead for a life of personal, spiritual and artistic adventure. In these intimate, free-wheeling conversations, a baker's dozen of the poets of San Francisco talk about the scene then and now, the traditions of poetry, and about anarchism, globalism, Zen, the Bomb, the Kabbalah and the Internet. Diane

di Prima, William Everson, Lawrence Ferlinghetti, Jack Hirschman, Joanne Kyger, Philip Lamantia, Michael McClure, David Meltzer, Jack Micheline, Kenneth Rexroth, Gary Snyder, Lew Welch, Philip Whalen . . . as we begin to slip into a national slumber somewhat akin to that of the Eisenhower years, it's exhilarating to have this squall line of Beats pass through our consciousness.—Kirkus Reviews . . . fierce engagement executed with humor and vernacular sensitivity.—Dale Smith, Austin Chronicle David Meltzer (1937-2016) was the author of many books of poetry, including *Tens*, *The Name*, *Arrows: Selected Poetry 1957-1992* and *Two-Way Mirror (City Lights)*. He was the editor of *Birth*, *The Secret Garden*, *Reading Jazz* and *Writing Jazz*, among other collections. His agit-smut fictions include *The Agency Trilogy*. Meltzer read poetry at the Jazz Cellar in the 1950s and in the 1960s fronted the band, *Serpent Power*.

*Keys to the Garden* Ammiel Alcalay, 1996-10 One hundred stories, poems and essays by Oriental Jews on subjects ranging from race to political allegiance. One story is on a professor's wife who, unable to conceive, takes a student to bed.
