Life Is A Game Mev Dinc, 2021-08-22 Life Is A Game tracks the fascinating life and successful career of legendary game developer Mev Dinc. The story begins in a mountainous Black Sea village; his father left him and his mother when Mev was only six months old, and with no home and thrown into poverty, they were left to survive the harsh winters alone. By the time he'd arrived in the UK in 1979, he had an English wife but couldn't speak a word of English. He then bought a ZX Spectrum in 1983 without any desire to use it. But through his resilience and ingrained will to overcome any obstacles, he learned to speak English, and taught himself programming and game development - all in two years! The rest, as they say, is history! This incredible story shows how Mev Dinc came from these humble beginnings and ended up becoming an award-winning developer, a member of BAFTA and the founding father of the Turkish Gaming Sector. This intriguing rags-to-riches tale will inspire as much as it entertains. Mev is a legend! - Jon Dean. A fantastic career - Steve Merrett I'm proud of Mev's achievements - Jon Hare. I both admire and hold Mev as a dear friend. - Charles Cecil A true Turkish Gaming Legend - Ulas Karademir

Michael Jackson Christopher R. Smit, 2017-07-05 Throughout his 40-year career, Michael Jackson intrigued and captivated public imagination through musical ingenuity, sexual and racial spectacle, savvy publicity stunts, odd behaviours, and a seemingly apolitical (yet always political) offering of popular art. A consistent player on the public stage from the age of eight, his consciousness was no doubt shaped by his countless public appearances, both designed and serendipitous. The artefacts he left behind - music, interviews, books written by and about him, and commercial products including dolls, buttons, posters, and photographs, videos, movies - will all become data in our cultural conversation about who Michael Jackson was, who he wanted to be, who we made him to be, and why. Michael Jackson: Grasping the Spectacle includes essays that aim to understand Jackson from multiple perspectives: critical cultural theory, musicology, art history, media studies, cultural anthropology, sociology, philosophy, religious studies, literary theory, gender studies, performance studies, disability studies, film studies, and African-American studies. Intended for classroom use as well as research and general interest, this book expands our understanding both of this fascinating figure himself and of gender, sexuality, celebrity, and popular culture.

Singing the Congregation Monique M. Ingalls, 2018-09-17 Contemporary worship music shapes the way evangelical

Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or modes of congregating. Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of congregation and congregational music. Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as worship. Congregational music-making is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

Earth Roar Nick Cook,2021-12-13 The time has come for humanity's last stand against the threat from the stars that unless it is stopped will wipe out all life on Earth. The final instalment of the Earth Song series heralds the arrival of the Kimprak asteroid ship in our solar system and where the stage will be set for an epic confrontation. Whilst Lauren and the team work to bring Tempest's systems rapidly online, Eden is throwing all its resources into preparing starship for battle. Production is also working flat out to replace as many of the X-craft as possible after so many were lost at the battle with the Kimprak over Antarctica. With everything now on the line, they must also attempt to create a true alliance with a former enemy if our world to have any chance of defending itself from the alien threat. When the Kimprak mothership is detected passing through the Oort Cloud it soon becomes apparent that the final battle in the orbit of Jupiter will be far worse than anything they could have ever imagined. Lauren will also be faced with the ultimate decision, but will she have the strength to go through what will be asked of her as commander before the end? *Earth Roar* is the sequel to *Earth Scream*, and is part of the *Multiverse Chronicles*, an epic series of interlinked stories that includes the *Fractured Light* trilogy, following humanity's struggle to survive across parallel universes.

Past Preserve Us Carol Nickles,2025-05-28 In the late 1960s, Dr. Nick Randall, a fierce advocate of endangered animals and field biologist on Michigan's Isle Royale National Park accepts a faculty position at the Great Lakes University Museum. Single mother Jeannie Parks, Curator of the University's Historic Costume and Textile Collection, endeavors to preserve cultural artifacts for historical research and education. As the two scientists collaborate on museum and community events, they struggle with an unforeseen attraction to each other and the haunts of past traumas. Despite an heiress fiancée, mysterious artifacts, and a perilous, life-threatening event, can Nick and Jeannie materialize a happy ever after?

The City That Ate Itself Brian James Leech,2018-02-28 Winner of the Mining History Association Clark Spence Award for the Best Book in Mining History, 2017-2018 Brian James Leech provides a social and environmental history of Butte, Montana's Berkeley Pit, an open-pit mine which operated from 1955 to 1982. Using oral history interviews and archival finds, *The City That Ate Itself* explores the lived experience of open-pit copper mining at Butte's infamous Berkeley Pit. Because an open-pit mine has to expand outward in order for workers to extract ore, its effects dramatically changed the lives of workers and residents. Although the Berkeley Pit gave consumers easier access to copper, its impact on workers and community members was more mixed, if not detrimental. The pit's creeping boundaries became even more of a problem. As open-pit mining nibbled away at ethnic communities, neighbors faced new industrial hazards, widespread relocation, and disrupted social ties. Residents variously responded to the pit with celebration, protest, negotiation, and resignation. Even after its closure, the pit still looms over Butte. Now a large toxic lake at the center of a federal environmental cleanup, the Berkeley

Pit continues to affect Butte's search for a postindustrial future.

Crossing Boundaries with Children's Books Doris Gebel, United States Board on Books for Young People, 2006-05-25 This annotated bibliography-organized geographically by world region and country, describing nearly 700 books representing 73 countries-is a valuable resource for librarians, teachers, and anyone else seeking to promote international understanding through children's literature. It is the third volume sponsored by the United States Board on Books for Young People. The first, Carl M. Tomlinson's *Children's Books from Other Countries* (1998) is a compendium of international children's literature with annotations of both in and out of print books published between 1950 and 1996. Susan Stan's *The World Through Children's Books* (2002) was the second and it included books published between the years 1997 and 2000. *Crossing Boundaries* includes international children's books published between 2000 and 2004, as well as selected American books set in countries other than the United States. Editor Doris Gebel has compiled an important tool for providing stories that will help children understand our differences while simultaneously demonstrating our common humanity.
