Shostakovich's Ballets and the Search for Soviet Dance Laura E. Kennedy, 2025-05-13 Author Laura E. Kennedy examines the three ballets composed by Dmitri Shostakovich during the early Stalinist period, showing how he aimed to create Soviet ballet until his third ballet was condemned in 1936, when he subsequently abandoned the genre. Throughout the book, she draws on extensive archival materials from St. Petersburg and Moscow--many not previously published--and argues that the three ballets illuminate his interest in the genre, the creative resources available to him, and the artistic and political pressures under which he worked.

Piano Trio No. 2 Dmitrii Dmitrievich Shostakovich, 1975

Shostakovich's Music for Piano Solo Sofia Mosheovich, 2015-05-28 The piano works of Dmitri Shostakovich (1906-1975) are among the most treasured musical compositions of the 20th century. In this volume, pianist and Russian music scholar Sofia Mosheovich provides detailed interpretive analyses of the ten major piano solo works by Shostakovich, carefully noting important stylistic details and specific ways to overcome the numerous musical and technical challenges presented by the music. Each piece is introduced with a brief historic and structural description, followed by an examination of such interpretive aspects as tempo, phrasing, dynamics, voice balance, pedaling, and fingering. This book will be an invaluable resource for students, pedagogues, and performers of Shostakovich's piano solos.

Physicality of Leadership Donna Ladkin, Steven Taylor, 2014-11-28 Academic literature has to a large extent ignored

how leaders present themselves physically. This volume invites leadership scholars to inquire rigorously into the physical aspect of leading and leadership. By noticing and dwelling with the visible facets of leading, the book suggests new possibilities for how leadership can be created and studied.

The New York Times Essential Library: Classical Music Allan Kozinn, 2004-08-02 A dazzling appraisal of the definitive classical music performances available today For classical music lovers, there is nothing more beguiling and exciting than the range of technique and emotion that can capture or transform the great works in the hands of a conductor and musicians. But with hundreds of recordings released every year, discovering the jewels is a challenge, for newcomers as well as for connoisseurs. New York Times classical music critic Allan Kozinn offers the ultimate collector's guide, packed with a rich history of the composers and performers who stir our souls. From Bach's eloquent Goldberg Variations performed by master pianist Glenn Gould at the beginning and end of his career in startlingly different interpretations, to a lyrical performance of Rimsky-Korsakov's Scheherazade conducted by Kiril Kondrashin shortly after his defection from the Soviet Union, Kozinn places each work in the greater context of musical development and stretches the listener's understanding of each pivotal composition. These original essays on the one hundred greatest recorded classical works provide both practical guidance for building a library and deep insight into the transcendent power of music itself.

Chamber Music James M. Keller, 2011 This title is a collection of essays about the essential masterworks of the chamber-music literature. The book covers a core repertoire of pieces for representative instrumental groupings for three or more players that a concertgoer is most likely to encounter in the course of concert-going.

Dimensions of Energy in Shostakovich's Symphonies Michael Rofe, 2016-04-22 Shostakovich's music is often described as being dynamic, energetic. But what is meant by 'energy' in music? After setting out a broad conceptual framework for approaching this question, Michael Rofe proposes various potential sources of the perceived energy in Shostakovich's symphonies, describing also the historical significance of energeticist thought in Soviet Russia during the composer's formative years. The book is in two parts. In Part I, examples are drawn from across the symphonies in order to demonstrate energy streams within various musical dimensions. Three broad approaches are adopted: first, the theories of Boleslav Yavorsky are used to consider melodic-harmonic motion; second, Boris Asafiev's work, with its echoes of Ernst Kurth, is used to describe form as a dynamic process; and third, proportional analysis reveals numerous symmetries and golden sections within local and large-scale temporal structures. In Part II, the multi-dimensionality of musical energy is considered through case studies of individual movements from the symphonies. This in turn gives rise to broader contextualised perspectives on Shostakovich's work. The book ends with a detailed examination of why a piece of music

might contain golden sections.

Silver Age and After: Repressed Russian Poets, Artists and Philosophers during the Soviet Period Roberto Echavarren, 2024-09-17 The details of the Jewish Holocaust have become part of our history through the testimony of those who survived the death camps. The details of Lenin's and Stalin's reign of terror are far less known because they took place behind a wall of secrecy, and because survivors have been loath to speak about them for fear of retribution. This is an encompassing volume presenting an intense display, as complete as can be, of poets, artists, musicians, and philosophers and intellectual actors implicated in different aspects of Russian life roughly through the period 1900-1960. They were people who had lived under the Soviet regime in times of peace and in times of war, from the Red Terror through the Great Terror. One must bear in mind the political and economic conditions in which those lives developed: the one-party rule placed above both the government and the citizens, the abashment of the division of powers, the suppression of private property and private economic initiative, the political police, and the GULAG. I deal with the poets in several chapters, then theater directors, then composers, then philosophers (these both in the introduction and in the play at the end of the book). Besides the Prologue and Introduction, the reader will find an Index of historical names, plus an extensive Bibliography. The work can be used for reference, for classroom adoption, for researchers/practitioners of Russian Literature, Political Studies, Slavic Studies, and Russian History.

Singing Soviet Stagnation: Vocal Cycles from the USSR, 1964-1985 Richard Louis Gillies,2021-12-09 Singing Soviet Stagnation: Vocal Cycles from the USSR, 1964-1985 explores the ways in which the aftershock of an apparent crisis in Soviet identity after the death of Stalin in 1953 can be detected in selected musical- literary works of what has become known as the 'Stagnation' era (1964-1985). Richard Louis Gillies traces the cultural impact of this shift through the intersection between music, poetry, and identity, presenting close readings of three substantial musical-literary works by three of the period's most prominent composers of songs and vocal cycles: • Seven Poems of Aleksandr Blok, Op. 127 (1966-1967) by Dmitri Shostakovich (1906-1975) • Russia Cast Adrift (1977) by Georgy Sviridov (1915-1998) • Stupeni (1981-1982; 1997) by Valentin Silvestrov (b. 1937). The study elaborates an interdisciplinary approach to the analysis of musical-literary artworks that does not rely on existing models of musical analysis or on established modes of literary criticism, thereby avoiding privileging one discipline over the other. It will be of particular significance for scholars, students, and performers with an interest in Russian and Soviet music, the intersection between music and poetry, and the history of Russian and East European culture, politics, and identity during the twentieth century.
