Men Who Hate Women Laura Bates, 2021-03-02 The first comprehensive undercover look at the terrorist movement no one is talking about. Men Who Hate Women examines the rise of secretive extremist communities who despise women and traces the roots of misogyny across a complex spider web of groups. It includes eye-opening interviews with former members of these communities, the academics studying this movement, and the men fighting back. Women's rights activist Laura Bates wrote this book as someone who has been the target of many hate-fueled misogynistic attacks online. At first, the vitriol seemed to be the work of a small handful of individual men... but over time, the volume and consistency of the attacks hinted at something bigger and more ominous. As Bates went undercover into the corners of the internet, she found an unseen, organized movement of thousands of anonymous men wishing violence (and worse) upon women. In the book, Bates explores: Extreme communities like incels, pick-up artists, MGTOW, Men's Rights Activists and more The hateful, toxic rhetoric used by these groups How this movement connects to other extremist movements like white supremacy How young boys are targeted and slowly drawn in Where this ideology shows up in our everyday lives in mainstream media, our playgrounds, and our government By turns fascinating and horrifying, Men Who Hate Women is a broad, unflinching account of the deep current of loathing toward women and anti-feminism that underpins our society and is a must-read for parents, educators, and anyone who believes in equality for women. Praise for Men Who Hate Women: Laura Bates is showing us the path to both intimate and global survival.—Gloria Steinem Well-researched and meticulously documented, Bates's book on the power and danger of masculinity should be required reading for us all.—Library Journal Men Who Hate Women has the power to spark social change.—Sunday Times

How I Met Your Mother and Philosophy Lorenzo von Matterhorn, 2013-12-10 Presents a collection of essays by philosophers about the television program How I Met Your Mother, analyzing the personalities and behavior of its various

characters from a moral and philosophical point of view.

Watching TV with a Linguist Kristy Beers Fägersten, 2016-09-09 In *Watching TV with a Linguist*, Fägersten challenges the conventional view of television as lowbrow entertainment devoid of intellectual activity. Rather, she champions the use of fictional television to learn about linguistics and at the same time promotes enriched television viewing experiences by explaining the role of language in creating humor, conveying drama, and developing identifiable characters. The essays gathered in this volume explore specific areas of linguistics, providing a comprehensive yet accessible introduction to the study of language. Through programs such as *Seinfeld*, *The Simpsons*, *Sherlock*, and *The Wire*, contributors deftly illustrate key linguistic concepts and terminology using snippets of familiar dialogue and examples of subtle narration. In addition, contributors aim to raise linguistic awareness among readers by identifying linguistics in action, encouraging readers to recognize additional examples of concepts on their own. To this end, each chapter provides suggestions for viewing other television series or specific episodes, where further examples of the linguistic concepts in focus can be found. Invaluable as a resource in linguistics and communication courses, *Watching TV with a Linguist* is the first book to use the familiar and compelling medium of television to engage students with the science of language.

The Rise of Transtexts Benjamin W.L. Derhy Kurtz, Mélanie Bourdaa, 2016-08-25 This volume builds on previous notions of transmedia practices to develop the concept of transtexts, in order to account for both the industrial and user-generated contributions to the cross-media expansion of a story universe. On the one hand exists industrial transmedia texts, produced by supposedly authoritative authors or entities and directed to active audiences in the aim of fostering engagement. On the other hand are fan-produced transmedia texts, primarily intended for fellow members of the fan communities, with the Internet allowing for connections and collaboration between fans. Through both case studies and more general analyses of audience participation and reception, employing the artistic, marketing, textual, industrial, cultural, social, geographical, technological, historical, financial and legal perspectives, this multidisciplinary collection aims to expand our understanding of both transmedia storytelling and fan-produced transmedia texts.
