

Diapositivas Coca Cola Powerpoint

JG Myers

El arte de actuar Rolf Dobelli, 2016-08-02 Más errores de lógica que es mejor que comentan otros.» «En 2009 me di cuenta de que, en paralelo con mi trabajo como novelista, había completado un auténtico estudio de psicología social y cognitiva. Para evitar apuestas frívolas con las ganancias acumuladas a lo largo de mi carrera literaria, empecé a confeccionar una lista de esos errores cognitivos sistemáticos, junto con notas y anécdotas personales# Pronto me di cuenta también de que semejante colección de escollos no solo resultaba útil a la hora de decidir en qué invertir, sino también para resolver asuntos comerciales y personales. Armado con mi lista, no pude evitar su atractivo# y especular con la posibilidad de obtener ventajas en mis negocios. Ahora disponía de categorías, términos y explicaciones con los que defenderme de la irracionalidad. La incapacidad de pensar con claridad, o lo que los expertos denominan un «error cognitivo», constituye una desviación sistemática de la lógica, del pensamiento y de la conducta óptima, racional y razonable. Con «sistemática» quiero decir que estos no se limitan a ser errores de juicio ocasionales sino más bien errores rutinarios, obstáculos frente a la lógica con los que tropezamos una y otra vez, repitiendo pautas a través de las generaciones y los siglos.» Opiniones: «Rolf Dobelli posee conocimientos profundos en la materia y el don del ingenio; una combinación poco frecuente desde el Renacimiento.» Nassim Nicholas Taleb , autor de El cisne negro «Este libro ofrece un cambio de perspectiva refrescante. Rolf Dobelli proporciona estímulos para la reflexión y escribe textos claros. Ingenioso, entretenido, brillante.» Christoph Franz, presidente de la junta directiva de Lufthansa «Este libro es impriscindible en el maletín de todos los consejeros delegados.» Ton Büchner , consejero delegado de AkzoNobel «¿Hay que leer este libro? Sin falta. Pues es extraordinariamente divertido y presenta, con seriedad, la esencia del pensamiento humano.» Roland Berger, fundador y presidente honorífico de Roland Berger Strategy Consultants «¡Una fiesta para el conocimiento! Quien no quiera tropezar continuamente con errores de lógica debe leer este libro.» Iris Bohnet , profesora de la Universidad de Harvard
