Constitutional Protection of Human Rights in Latin America Allan R. Brewer-Carías, 2009 This book examines the most recent trends in the constitutional and legal regulations in all Latin American countries regarding the amparo proceeding. It analyzes the regulations of the seventeen amparo statutes in force in Latin America, as well as the regulation on the amparo guarantee established in Article 25 of the American Convention of Human Rights.

Judicial Review in Mexico Richard D. Baker, 2015-01-02 The amparo suit is a Mexican legal institution similar in its effects to such Anglo-American procedures as habeas corpus, error, and the various forms of injunctive relief. It has undergone a long evolution since it was incorporated into the Constitution of 1857. Today, its principal purpose is to protect private individuals in the enjoyment of the rights guaranteed by the first twenty-nine articles of the Constitution. Mexico after its independence produced many constitutions. One of the earliest problems was to find an adequate means of defending the Constitution against ill-founded interpretations of its precepts. Like the United States, Mexico has developed a system of constitutional defense in which the judiciary is the supreme interpreter of what this document means. Unlike the United States Supreme Court, however, the Mexican Supreme Court has not been innovative in its decisions or contradicted the administration on major policy decisions. This difference must be attributed to the civil law system of Mexico as well as to the political climate. The first part of Richard D. Baker's book describes the historical background of amparo and other methods

of constitutional defense in Mexico. The three men most closely associated with creating a judicial form of constitutional defense in Mexico were Manuel Crescencio Rejón, José Fernando Ramírez, and Mariano Otero. Their own writings indicate that the immediate source of amparo must be found in the American institution of judicial review that was transmitted to Mexicans through Alexis de Tocqueville's *Democracy in America*. The second part is an exposition of the workings of the amparo suit in the twentieth century and the constitutional and statutory provisions affecting it. Since 1857, when it was incorporated into article 102 of the Constitution, the amparo suit has evolved into a highly complex institution performing three functions: the defense of the civil liberties enumerated in the first twenty-nine articles of the Constitution, the determination of the constitutionality of federal and state legislation, and cassation. The Supreme Court is primarily limited to defending civil liberties through the amparo suit; it remains less innovative and more restricted than the United States system of judicial review, especially in the effect of its judgments on political agencies. Baker's study is the first one in English dealing with this subject and is one of the most extensive in any language. It should be welcome as a valuable tool to all students of Mexican law, history, and political thought.

La acción de amparo Ismael Ruiz Martínez, 2003

Compendio de historia del derecho y del estado Francisco Xavier González Díaz Lombardo, 1997 Compendio de la historia del Derecho y del Estado constituye una labor de investigación histórica verdaderamente extraordinaria. Su mérito principal consiste en presentar una visión panorámica del pensamiento jurídico, filosófico y político en diversos periodos y descubrir en el espacio y en el tiempo el concepto del Derecho y del Estado, con base humanística. El autor, con criterio y científico, determina épocas, escuelas y tendencias; relaciona personajes y teorías, y considera los diversos factores sociales, económicos, políticos y filosóficos que intervienen en el desarrollo histórico del Derecho y del Estado. Por su contenido, este libro está dedicado a los alumnos de la Facultad de Derecho y para quienes estudian Ciencias Políticas y Sociales, así como para los que están en la carrera de Filosofía y Letras. Sin embargo, también puede ser aprovechado en otras carreras y resultará útil en los programas de estudio a nivel preparatoria.

Juicio de amparo mexicano Enrique Flores Terríquez, 2014-02-05 En este libro el lector encontrará cuatro novedosas e interesantes reflexiones críticas de la aplicación del juicio de amparo mexicano, estructuradas por medio de capítulos. Las dos primeras tienen un contenido empírico. La tercera y cuarta son reflexiones con sustento en principios normativos y doctrinales, resultado de la observación, la inferencia y comparativa entre normas jurídicas. El primer enfoque describe el empleo del juicio de amparo como un instrumento para evadir la verificación de mercancías de procedencia extranjera en transporte. Por su parte, el siguiente capítulo maneja el desempeño de los defensores públicos del estado de Jalisco a través del juicio de amparo. Adicionalmente, en el tercer capítulo se ubica la institución constitucional de la suplencia de la queja deficiente, misma que desde luego, se ratifica su regulación en la nueva Ley de Amparo. Y finalmente, el lector encontrará la

reflexión encaminada a demostrar cuestiones sobre los menores de edad y su representación legal en el juicio de amparo indirecto.

La fronda liberal José Antonio Aguilar Rivera, 2014-10-01 Una reflexión a varias voces sobre una de las tradiciones políticas más importantes y soslayadas de México: el liberalismo. ¿Qué es el liberalismo y cómo se ha entendido y operado en México? Éste es el punto de partida de La fronda liberal, un libro conformado por casi una treintena de ensayos escritos por algunas de las plumas más comprometidas con el devenir y la investigación política y social de nuestro país. El liberalismo en México y Latinoamérica es un tema polémico en sí mismo, que enfrenta mitos, dogmas y lugares comunes, pero pocas veces discutido con la objetividad y el rigor intelectual que merece. Este libro busca subsanar esa falta. La fronda liberal ofrece un panorama amplio y diverso sobre un asunto que, por su propia naturaleza, debe ser abordado desde la pluralidad. Autores como Alonso Lujambio, Carlos Elizondo, Federico Reyes Heróles, José Ramón Cossío, José Woldenberg, Luis Villoro y Soledad Loaeza trazan la ruta del liberalismo en México, atendiendo a sus vertientes históricas, políticas, sociales, económicas, culturales, jurídicas, biográficas y filosóficas. Los textos del libro van del ensayo de largo aliento a la nota periodística, pero todos se ocupan del tema con profundidad. La fronda liberal dibuja la anatomía de un concepto indispensable para comprender nuestra realidad y, sobre todo, para trazar perspectivas de futuro.

Fortalecimiento de derechos, ampliación de libertades, II Eduardo Ferrer Mac-Gregor, Gilberto Higuera Bernal, Saúl López Noriega, 2019-01-10 Esta serie de cuatro volúmenes analiza las Reformas Estructurales desde varios puntos de vista: la del protagonista que desde el propio órgano estatal preparó y puso en práctica la reforma, y la de dos académicos que desde las perspectivas nacional e internacional desmenuzan el contexto, la puesta en marcha y los retos que conlleva cada una de estas Reformas. El presente volumen aborda las reformas político-electoral, al juicio de amparo, al Código Nacional de Procedimientos Penales, y en materia de justicia cotidiana.

Lecciones de Amparo Carlos F. Rodríguez Campos, 1997

Through Thin and Thick Ángel R. Oquendo, 2022-06-30 The book launches with examples, concrete cases, or political confrontations to explain how to conceive the safeguards at stake. It portrays these as embodying principles requiring particular actions and the implementation of policies. For instance, free speech demands permitting seemingly offensive expression plus promoting a diverse and open public debate. The work scrutinizes specific guaranties, such as those pertaining to asylum, citizenship, abortion, due process, self-determination, or the environment. It presents them as engendering problems peculiar to them. Next, the discussion dissects how precepts, like human rights and democracy, may contingently clash despite their overall commensurability. Finally, it underscores the interconnection of negative, substantive, and national entitlements with their positive, procedural, and international counterparts. Throughout, ruminations on the following questions unfold: How may courts and governments respectively contribute to actualizing the liberties at issue? How do these bear upon social justice? How may ideologically opposed states nonetheless collaborate on them?
