Old Testament Theology Horst Dietrich Preuss, 1995 Preuss presents a comprehensive analysis of the theology of the Old Testament. Utilizing the most recent scholarship available, Preuss proposes that the central and unifying theme of Old Testament theology is God's act of election and covenant and the subsequent human responses to God.

Yahweh G.H. Parke-Taylor, 2006-01-01 Biblical tradition asserts that the revelation of God to Moses in the burning bush involved also a declaration of the divine name, the Tet (represented by the letters Y, H, W, H), and its meaning. There are indications that the divine name was known prior to the time of Moses, although ultimate questions of origin and precise meaning are shrouded in obscurity. IN fact, even the exact pronunciation of the name (usually pronounced YAHWEH) is by no means certain. The author of The Divine Name in the Bible surveys the immense literature on this subject, and traces the use of various names for deity in Israel from patriarchal times onwards, with special attention to the significance of the Tetragrammaton, which in course of time, became the name by which the God of Israel was known. Various aspects of the theological meaning of the name in the Old Testament writings are explored. The Dead Sea Scrolls, the Jewish Talmudic literature, and later mystical writings are also examined. The translators of the Old Testament into Greek used Kyrios as the equivalent for YHWH—with implications for the New Testament understanding of the person of Jesus Christ, reflected also in subsequent Christological formulations.

Tetragrammaton: Western Christians and the Hebrew Name of God Robert J. Wilkinson, 2015-02-04 The Christian Reception of the Hebrew name of God has not previously been described in such detail and over such an extended period. This work places that varied reception within the context of early Jewish and Christian texts; Patristic Studies; Jewish-Christian relationships; Mediaeval thought; the Renaissance and Reformation; the History of Printing; and the development of Christian Hebraism. The contribution of notions of the Tetragrammaton to orthodox doctrines and debates is exposed, as is the contribution its study made to non-orthodox imaginative constructs and theologies. Gnostic, Kabbalistic, Hermetic and magical texts are given equally detailed consideration. There emerge from this sustained and detailed examination several recurring themes concerning the difficulty of naming God, his being and his providence.

Theological Dictionary of the New Testament Geoffrey William Bromiley, 1964 One of the most widely respected theological dictionaries put into one-volume, abridged form. Focusing on the theological meaning of each word, the

abridgment contains English keywords for each entry, tables of English and Greek keywords, and a listing of the relevant volume and page numbers from the unabridged work at the end of each article or section.

The Routledge Companion to the Qur'an George Archer, Maria M. Dakake, Daniel A. Madigan, 2021-09-30 The Routledge Companion to the Qur'an offers an impressive and comprehensive overview of the formative scripture of Islam. Including a wide number of scholarly approaches to the Qur'an by both established authorities and emergent voices, the 40 chapters in this volume represent the latest word on the academic understanding of the Muslim scripture. The Qur'an is spoken of in scholarship across disciplines; it is the beating heart of a living community of believers; it is a work of beauty and a basis for art and culture; it is a profoundly significant historical artifact; and it is a mysterious survivor from the Late Ancient Arabic-speaking world. This Handbook accompanies the reader into the many worlds that the Qur'an lives in, from its ancient settings, to its internal drama, and through the 1,400 years of discussion and debate about its meaning. Bringing diverse approaches to the Qur'an together in one volume The Routledge Companion to the Qur'an represents the vibrancy of the field of Qur'anic Studies today. This Handbook is essential reading for students and researchers in religious studies and Islamic studies. It will also be very useful for those in related fields, such as area studies, sociology, anthropology, and history.

Sufism and Theology Ayman Shihadeh, 2007-11-21 Sufism and Theology are two major currents in Islamic thought and religious culture, and over the centuries they have displayed immense diversity and intellectual richness. This book takes a flexible and inclusive approach to these trends, revealing both how Sufis approached theological traditions and themes and practised theology themselves, and how theologians approached different aspects of Sufism. Comprising chapters by leading specialists in the field, this volume is the first to explore the historically complex interface between these two major currents, highlighting key points of tension and interaction. Taking us through an array of subjects, including hermeneutics, psychology and metaphysics, light is shed on major intellectual trends and figures from the 12th century up to the modern period. These range from al-Hallaj, Ibn 'Arabi and Ibn Sab'in, to Fakhr al-Din al-Razi, Ibn Taymiyya, Haydar Amuli and Ibn Kemal Pasha, from the Ottoman context to the Safavid, and from Sunnism to Shi'ism

Kleine Schriften by Josef van Ess (3 vols) Josef van Ess, 2018-03-12 *Kleine Schriften*, written by the eminent German scholar of Islamic Studies Josef van Ess, is a unique collection of Van Ess' widely scattered short writings, journal articles, encyclopaedia entries, (autobiographical) essays, reviews and lectures, in (mainly) German, English and French, some of

which are published here for the first time. It includes a full bibliography of the author's work, in addition to two indexes of classical authors and works, which aim to make accessible the remarkable riches that these *Kleine Schriften* have to offer. The three-volume collection, carefully selected by the author himself, offers over 150 texts organized primarily along Van Ess' own biography and the history of the discipline. It is divided into twelve parts, beginning with Tübingen where his career began in 1968, and ending with Retrospects and Postscripts for the future, with the thematic complexes Islam and its first options and Mu'tazila as centre pieces. All parts are introduced by brief accounts of the historical context in which each of the assembled texts was written and which course subsequent scholarship may have taken.

The Divine Name in the Gospel of John Joshua J.F. Coutts,2017-10-10 One of the distinctive features of the Fourth Gospel is the emphasis it places on the name of God. As the earliest Christian texts already exhibit a shift toward Jesus's name as the cultic or divine name, what might have motivated the Evangelist to this recovery of the divine name category? Joshua J. F. Coutts argues that the divine name acquired particular significance through the Evangelist's reading of Isaiah, which, in combination with the polemical experience and pastoral needs of early Christians, formed the impetus for his interest in and emphasis on the divine name.

A Greek-English Lexicon of the New Testament and Other Early Christian Literature Walter Bauer,2010-11-02 Described as an invaluable reference work (Classical Philology) and a tool indispensable for the study of early Christian literature (Religious Studies Review) in its previous edition, this new updated American edition of Walter Bauer's *Wörterbuch zu den Schriften des Neuen Testaments* builds on its predecessor's staggering deposit of extraordinary erudition relating to Greek literature from all periods. Including entries for many more words, the new edition also lists more than 25,000 additional references to classical, intertestamental, Early Christian, and modern literature. In this edition, Frederick W. Danker's broad knowledge of Greco-Roman literature, as well as papyri and epigraphs, provides a more panoramic view of the world of Jesus and the New Testament. Danker has also introduced a more consistent mode of reference citation, and has provided a composite list of abbreviations to facilitate easy access to this wealth of information. Perhaps the single most important lexical innovation of Danker's edition is its inclusion of extended definitions for Greek terms. For instance, a key meaning of *episkopos* was defined in the second American edition as overseer; Danker defines it as one who has the responsibility of safeguarding or seeing to it that something is done in the correct way, guardian. Such extended definitions give a fuller sense of the word in question, which will help avoid both anachronisms and confusion among users of the lexicon who may not be native speakers of English. Danker's edition of Bauer's *Wörterbuch* will be an indispensable guide for Biblical and classical scholars, ministers, seminarians, and translators.

The Names of God in Judaism, Christianity, and Islam Máire Byrne,2011-07-07 This book offers a welcome solution to the

growing need for a common language in interfaith dialogue; particularly between the three Abrahamic faiths in our modern pluralistic society. The book suggests that the names given to God in the Hebrew Bible, the New Testament and the Qur'an, could be the very foundations and building blocks for a common language between the Jewish, Christian and Islamic faiths. On both a formal interfaith level, as well as between everyday followers of each doctrine, this book facilitates a more fruitful and universal understanding and respect of each sacred text; exploring both the commonalities and differences between each theology and their individual receptions. In a practical application of the methodologies of comparative theology, Maire Byrne shows that the titles, names and epithets given to God in the sacred texts of Judaism, Christianity and Islam contribute towards similar images of God in each case, and elucidates the importance of this for providing a viable starting point for interfaith dialogue.

The Gospel of John Rudolf Bultmann, 2014-08-15 As the first volume in the Johannine Monograph Series, *The Gospel of John: A Commentary* by Rudolf Bultmann well deserves this place of pride. Indeed, this provocative commentary is arguably the most important New Testament monograph in the twentieth century, perhaps second only to *The Quest of the Historical Jesus* by Albert Schweitzer. In contrasting Bultmann's and Schweitzer's paradigms, however, we find that Bultmann's is far more technically argued and original, commanding hegemony among other early-Christianity paradigms. Ernst Haenchen has described Bultmann's commentary as a giant oak tree in whose shade nothing could grow, and indeed, this reference accurately describes its dominance among Continental Protestant scholarship over the course of several decades.

Joel's Use of Scripture and the Scripture's Use of Joel John Strazicich, 2007-04-30 The methodological approach employed in this research utilizes the hermeneutics of comparative midrash combined with aspects of Bakhtinian dialogism and intertextuality. The purpose of this enterprise is to discern the function of scripture in Joel and its New Testament *Nachleben*. The terms 'appropriation' and 'resignification' are descriptive of the process through which an antecedent text is transformed by its displacement, condensation, and recontextualization. These methodologies assist in giving an account of the intertextual dialogism involved in a text's unrecorded hermeneutics. The scope of the work looks at the use of scriptural traditions within the book of Joel during the Second Temple period. There is an introduction to the hermeneutical methods employed, followed by a general introduction to the book of Joel in chapter one. Chapters two and three concern the function of scripture in Joel. Finally, the last chapter deals with Joel's New Testament *Nachleben*. Each chapter has an introduction

and conclusion. This work does not eschew the importance of diachronic issues. The diachronic method pays attention to the context of an antecedent's voice, while the synchronic methodological approach pays attention to the function and purpose in which the receptor text resignifies the appropriated motifs and allusions. The diachronic becomes fused with the synchronic in the process of an allusion's recontextualization. This study, in a heuristic manner, focuses on the way that each allusion is appropriated and resignified for the needs of both Joel's community and those of the later NT, in order to understand the function of canonical hermeneutics.

Yahweh among the Gods Michael Hundley, 2022-01-13 In this study, Michael Hundley explores the diverse deities of ancient Near Eastern and biblical literature, from deified doors and diseases to the masters of the universe. Using data from Mesopotamia, Hittite Anatolia, Egypt, the Levant, and non-priestly Genesis and Exodus, Hundley explains their context-specific approach to deity, which produces complex and seemingly contradictory portraits. He suggests that ancient deities gained prominence primarily by co-opting the attributes of other deities, rather than by denying their existence or inventing new powers. He demonstrates that the primary difference between biblical and ancient Near Eastern presentations lies in their rhetorical goals, not their conceptions of gods. While others promote divine supremacy, Genesis and Exodus promote exclusive worship. Hundley argues that this monolatry redefined the biblical divine sphere and paved the way for the later development of monotheism and monotheistic explanations of evil.

A Social and Religious History of the Jews Salo Wittmayer Baron, 1952 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.

Between Muslim and Jew Steven M. Wasserstrom, 2014-07-14 Steven Wasserstrom undertakes a detailed analysis of the creative symbiosis that existed between Jewish and Muslim religious thought in the eighth through tenth centuries. Wasserstrom brings the disciplinary approaches of religious studies to bear on questions that have been examined previously by historians and by specialists in Judaism and Islam. His thematic approach provides an example of how difficult questions of influence might be opened up for broader examination. In Part I, Trajectories, the author explores early Jewish-Muslim

interactions, studying such areas as messianism, professions, authority, and class structure and showing how they were reshaped during the first centuries of Islam. Part II, *Constructions*, looks at influences of Judaism on the development of the emerging Shi'ite community. This is tied to the wider issue of how early Muslims conceptualized the Jew. In Part III, *Intimacies*, the author tackles the complex esoteric symbiosis between Muslim and Jewish theologies. An investigation of the milieu in which Jews and Muslims interacted sheds new light on their shared religious imaginings. Throughout, Wasserstrom expands on the work of social and political historians to include symbolic and conceptual aspects of interreligious symbiosis. This book will interest scholars of Judaism and Islam, as well as those who are attracted by the larger issues exposed by its methodology. Originally published in 1995.
