Reformas educativas en un Estado federal Guillermo Ramón Ruiz,2024-01-29 En este libro se analiza la ejecución de las reformas educativas en ocho jurisdicciones provinciales de las cinco regiones educativas que tiene la Argentina, principalmente en el plano curricular. La pregunta que guía esta indagación es: ¿qué efectivamente se ha reformado en la educación argentina en los cuarenta años de democracia? Para ello, la escala de análisis es subnacional y -con un criterio federal-; se trata de interpretar el rol del Estado federal y de las capacidades diferenciales de los Estados provinciales analizados. La cuestión de las diferencias en el Estado federal y cómo ello cercena el principio de igualdad -que está en la base del derecho a la educación- es puesta en evidencia, discutida y problematizada, aunque no necesariamente respondida. Se complementa el estudio con datos sociodemográficos. Luego de 40 años de gobiernos democráticos y una profusa labor parlamentaria en materia educativa, la desigualdad evidenciada por los indicadores de cobertura y rendimiento reflejan diferencias más profundas, sobre todo en el plano curricular. Ello afecta a las condiciones y a las estrategias de enseñanza y ciertamente impacta sobre los aprendizajes de la población escolar. Analizar esas limitaciones a partir de las políticas curriculares en el Estado federal, así como los procesos de traducción de los lineamientos federales que se evidencian en los niveles subnacionales y también algunos de los resultados en términos de desempeño constituyen los propósitos de este libro.

El Estado Federal de Panamá Justo Arosemena,2018-10-15 En *El Estado de Federal de Panamá*, Justo Arosemena expone los antecedentes históricos y culturales de la nacionalidad panameña. Este libro tuvo repercusiones inmediatas en la historia de la región. Asimismo influyó de forma definitiva en el desarrollo político del istmo de Panamá. También reordenó su relación con la Nueva Granada, del que formaba parte en la época. Arosemena cimentó aquí los modelos de gobernabilidad de un sistema federal. En consecuencia las ideas que aquí proclamó constituyeron la base ideológica de un país ansioso de ejercer su propia soberanía. Aunque Arosemena no vivió para ver su sueño hecho realidad, cabe decir que pudo definirlo con lucidez. Arosemena se remite en *El Estado Federal de Panamá* a ejemplos de la antigüedad clásica. Desarrolla una visión de la economía y del valor estratégico de Panamá. Y tiene muy en cuenta el contexto geopolítico del continente americano en la segunda mitad del siglo XIX. Finalmente cabe añadir que Arosemena fue un convencido defensor de la integración de Latinoamérica. Así lo demuestra su presencia en el Tratado de unión y alianza defensiva entre los Estados de América de

1865. Fragmento del prólogo de Rodrigo Miró Grimaldo: El Estado Federal de Panamá, la conocida obra de Justo Arosemena, apareció, con humildísimo ropaje, en la ciudad de Bogotá y en el año 1855. Dada la importancia del magistral ensayo era de esperarse su reproducción. Y durante la República se han hecho seis reediciones —sin contar una mimeografiada para uso de un grupo de estudiantes de la Universidad—, si bien nunca con la dignidad que merece.

Teoría general del Estado Hans Kelsen,2023-12-12 Mi primera idea al escribir este libro fue la de redactarlo en forma de compendio esquemático, en el cual, con criterio puramente sistemático y prescindiendo, de todo aderezo histórico-doctrinal y bibliográfico, trataría los problemas de la Teoría general del Estado desde el punto de vista de la pureza metódica, que informa todos mis trabajos científicos. La causa de que me haya decidido a redactar una obra relativamente amplia es que a medida que avanzaba en mi labor, ibame dando cuenta de que de que no me hallaba autorizado a sustentar mis propias doctrinas sin formular en sus rasgos fundamentales las opiniones ajenas, tan divergentes entre sí: tanto más cuanto que el libro había de tener también una finalidad docente. Por otra parte, entendí que el mejor modo de comprender mi doctrina era, de seguro, el confrontarla con toda la Teoría general del Estado, tal como hasta ahora se le ha venido cultivando. Hans Kelsen.

Teoría del Estado y de las formas políticas:sistemas políticos comparados Manuel Martínez Sospedra,Ainhoa

Uribe Otalora,2018-09-06 La obra nace con el propósito de ofrecer a los alumnos de Derecho, Ciencias Políticas, Sociología y otros campos afines de las Ciencias Sociales un manual completo y sencillo, que aborde, desde una perspectiva multidisciplinar, el estudio de la Teoría del Estado y de las Formas Políticas. Para ello, se combina una perspectiva histórica, junto con un enfoque jurídico y politológico, en el análisis de los sistemas políticos comparados, desde sus formas más

primitivas, hasta el momento actual. Los profesores Manuel Martínez Sospedra y Ainhoa Uribe Otalora han realizado un esfuerzo pedagógico conjunto, con la finalidad de ofrecer al público universitario una obra multidisciplinar, que sirva de instrumento de aprendizaje teórico y aplicado. La obra se concibe desde la necesidad de desarrollar las competencias de análisis crítico y razonamiento lógico de los alumnos para entender el concepto de poder, intrínseco a las formas políticas y el ámbito público. Por consiguiente, la obra analiza una combinación de elementos, como el pluralismo político, las instituciones, las elecciones, los derechos y libertados de los ciudadanos y otros procesos políticos a lo largo de la historia.

Estructura orgánica y derechos fundamentales en la Constitución española de 1978 Mercedes Iglesias Bárez,2010 La obra Estructura orgánica y derechos fundamentales en la Constitución española de 1978 aborda los temas básicos del Derecho constitucional. Su concepción inicial surgió dentro del género de los manuales, destinada a servir de material de estudio a los alumnos a distancia del Título Propio de Ciencias de la Seguridad de la Universidad de Salamanca. Por ello, el libro otorga un tratamiento especial a todas aquellas cuestiones relacionadas con los derechos fundamentales y sus garantías constitucionales, aspectos que resultan especialmente interesantes para los futuros criminólogos y detectives privados. No obstante, más allá de esta idea originaria, la obra pretende ser un estudio exhaustivo de la Constitución de 1978, de la organización de los poderes, tanto en su dimensión horizontal como territorial, así como de los derechos y libertades que declara el texto constitucional español. Especialmente interesante resulta la metodología empleada en el análisis de los temas, que alcanza no sólo al tratamiento teórico de las cuestiones sino también a su dimensión práctica. En este sentido, el libro realiza continuas referencias al tratamiento legislativo y jurisprudencial de la materia, con una dedicación especial a la labor de interpretación que de la Constitución española en el ámbito de los derechos lleva a cabo el Tribunal Europeo de Derechos

Humanos. Resulta también atractivo el diseño de cada uno de los temas. Todos los capítulos se organizan metodológicamente en tres partes: la explicación teórico-práctica del tema: la exposición de supuestos prácticos que el alumno debe resolver y, finalmente, la propuesta de unos ejercicios de test que sirven al estudiante para evaluar sus conocimientos.

[Anti-Americanism in Latin America and the Caribbean](#) Alan McPherson,2006-03-01 Whether rising up from fiery leaders such as Venezuela's Hugo Chavez and Cuba's Fidel Castro or from angry masses of Brazilian workers and Mexican peasants, anti U.S. sentiment in Latin America and the Caribbean today is arguably stronger than ever. It is also a threat to U.S. leadership in the hemisphere and the world. Where has this resentment come from? Has it arisen naturally from imperialism and globalization, from economic and social frustrations? Has it served opportunistic politicians? Does Latin America have its own style of anti Americanism? What about national variations? How does cultural anti Americanism affect politics, and vice

versa? What roles have religion, literature, or cartoons played in whipping up sentiment against 'el yanqui'? Finally, how has the United States reacted to all this? This book brings leaders in the field of U.S. Latin American relations together with the most promising young scholars to shed historical light on the present implications of hostility to the United States in Latin America and the Caribbean. In essays that carry the reader from Revolutionary Mexico to Peronist Argentina, from Panama in the nineteenth century to the West Indies' mid century independence movement, and from Colombian drug runners to liberation theologians, the authors unearth little known campaigns of resistance and probe deeper into episodes we thought we knew well. They argue that, for well over a century, identifying the United States as the enemy has rung true to Latin Americans and has translated into compelling political strategies. Combining history with political and cultural analysis, this collection breaks the mold of traditional diplomatic history by seeing anti Americanism through the eyes of those who expressed it. It makes clear that anti Americanism, far from being a post 9/11 buzzword, is rather a real force that casts a long shadow over U.S. Latin American relations.

La organización territorial del Estado Alfons Cucó Giner,Joaquim Farinós i Dasí,Juan Romero González,2002 Durante los últimos veinte años del pasado siglo, se han intensificado los procesos de descentralización política y de transformación del Estado nación. Nuevas realidades, nuevos procesos globalizadores y rápidos cambios estructurales que aceleraron la marcha de la historia como nadie había previsto, han provocado en Europa profundas transformaciones que afectan a la estructura del Estado, a la distribución del poder político y a la capacidad de instrumentar políticas públicas. La emergencia de la escala regional y la necesidad de establecer formas de cooperación entre diferentes niveles de gobierno, son dos de las características más importantes de estas últimas décadas. En muchos casos, como los tres países de la Unión Europea que aquí se analizan, Alemania, Bélgica y España, a esta emergencia de la escala regional se añade el hecho fundamental de que las respectivas realidades estatales integran regiones constitucionales o regiones con poderes legislativos.
