Quotationary is a source of inspiration for every writer, book-lover and thinker. It contains the thoughts of many of the finest minds since ancient man started to express his wit and wisdom in aphoristic form. The Quote Verifier Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed. Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as Nice guys finish last, and Play it again, Sam, but more surprising ones such as Ain't I a woman? and Golf is a good walk spoiled, as well as the origins of popular sayings such as The opera ain't over till the fat lady sings, No one washes a rented car, and Make my day. Keyes's in-depth research routinely confounds widespread assumptions about who said what, where, and when. Organized in easy-to-access dictionary form, *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres, such as Yogi Berra and Oscar Wilde, famous last words, and misremembered movie lines. An invaluable resource for not just those with a professional need to quote accurately, but anyone at all who is interested in the roots of words and phrases, *The Quote Verifier* is not only a fascinating piece of literary sleuthing, but also a great read.

Grief and Its Transcendence Adele Tutter, Léon Wurmser, 2015-09-16 *Grief and its Transcendence: Memory, Identity, Creativity* is a landmark contribution that provides fresh insights into the experience and process of mourning. It includes fourteen original essays by pre-eminent psychoanalysts, historians, classicists, theologians, architects, art-historians and artists, that take on the subject of normal, rather than pathological mourning. In particular, it considers the diversity of the mourning process; the bereavement of ordinary vs. extraordinary loss; the contribution of mourning to personal and creative growth; and individual, social, and cultural means of transcending grief. The book is divided into three parts, each including two to four essays followed by one or two critical discussions. Co-editor Adele Tutter's Prologue outlines the salient themes and tensions that emerge from the volume. Part I juxtaposes the consideration of grief in antiquity with an examination of the contemporary use of memorials to facilitate communal remembrance. Part II offers intimate first-person accounts of mourning from four renowned psychoanalysts that challenge long-held psychoanalytic formulations of mourning. Part III contains deeply personal essays that explore the use of sculpture, photography, and music to withstand, mourn, and transcend loss on individual, cultural and political levels. Drawing on the humanistic wisdom that underlies psychoanalytic thought, co-editor Léon Wurmser's Epilogue closes the volume. *Grief and its Transcendence* will be a must for psychoanalysts, psychotherapists, psychiatrists, and scholars within other disciplines who are interested in the topics of grief, bereavement and creativity.

Vladimir Nabokov Brian Boyd, 1991 The story of Nabokov's life continues with his arrival in the United States in 1940. He found that supporting himself and his family was not easy--until the astonishing success of *Lolita* catapulted him to world fame and financial security.

Spanish Hebrew Poetry and the Arabic Literary Tradition Arie Schippers, 2023-08-21 Offers an introduction to the history of the Jews of the Iberian peninsula and the political situation of Muslim Spain during the 11th century as well as an

introduction to Arabic poetry, its genres and poetical theory, and the relation between Arabic poetry from the East and that of al-Andalus. This book deals extensively with the different Arabic poetic genres and their Hebrew equivalents, focusing on the four main poets Samuel Ha-Nagid, Solomon Ibn Gabirol, Moses Ibn Ezra and Yehuda Ha-Lewi. At the end conclusions are drawn about the use of Arabic themes in Hebrew Andalusian poetry.

Writing the Image After Roland Barthes Jean-Michel Rabaté, Jean-Michel Rabaté, 2012-05-23 In the final stages of his career, Roland Barthes abandoned his long-standing suspicion of photographic representation to write *Camera Lucida*, at once an elegy to his dead mother and a treatise on photography. In *Writing the Image After Roland Barthes*, Jean-Michel Rabaté and nineteen contributors examine the import of Barthes's shifting positions on photography and visual representation and the impact of his work on current developments in cultural studies and theories of the media and popular culture.

Imagination, Emblems, and Expressions Helen Ryan-Ranson, 1993 Twenty-four essays take diverse approaches (thematic, feminist, historicist, cultural materialist, etc.) to the theme of culture (including its expression in literature, art, mass media, etc.) and identity (self, regional, or national) in Latin America (five essays), the Caribbean (ten essays) and Europe (nine essays). Paper edition (unseen), \$16.95. Annotation copyright by Book News, Inc., Portland, OR

George MacDonald's Challenging Theology of the Atonement, Suffering, and Death Miho Yamaguchi, 2007-06 This book sheds light on the challenging theology of nineteenth-century Scottish writer George MacDonald concerning the true meaning of the Atonement, the purpose of trials and suffering, the nature of the unpardonable sin, hope for growth, and death. Under consideration is Thomas Hooker's *Poor Doubting Christian Drawn unto Christ* on the redemption of Joan Drake and its influence on MacDonald's *Wingfold* trilogy; MacDonald's version of the *Wandering Jew*; MacDonald's interpretation of Coleridge's *The Rime of the Ancient Mariner* and Dante's *Divine Comedy*; and similarities and differences between the theological ideas of MacDonald, C. S. Lewis, Elizabeth Prentiss, and Shusaku Endo.

[Vocal Apparitions](#) Michal Grover-Friedlander, 2014-12-25 Cinema and opera have become intertwined in a variety of powerful and unusual ways. *Vocal Apparitions* tells the story of this fascinating intersection, interprets how it occurred, and explores what happens when opera is projected onto the medium of film. Michal Grover-Friedlander finds striking affinities between film and opera--from Lon Chaney's classic silent film, *The Phantom of the Opera*, to the Marx Brothers' *A Night at the Opera* to Fellini's *E la nave va*. One of the guiding questions of this book is what occurs when what is aesthetically essential about one medium is transposed into the aesthetic field of the other. For example, Grover-Friedlander's comparison of an opera by Poulenc and a Rossellini film, both based on Cocteau's play *The Human Voice*, shows the relation of the vocal

and the visual to be surprisingly affected by the choice of the medium. Her analysis of the Marx Brothers' *A Night at the Opera* demonstrates how, as a response to opera's infatuation with death, cinema comically acts out a correction of opera's fate. Grover-Friedlander argues that filmed operas such as Zeffirelli's *Otello* and Friedrich's *Falstaff* show the impossibility of a direct transformation of the operatic into the cinematic. Paradoxically, cinema at times can be more operatic than opera itself, thus capturing something essential that escapes opera's self-understanding. A remarkable look at how cinema has been haunted--and transformed--by opera, *Vocal Apparitions* reveals something original and important about each medium.

Bion Nicola Abel-Hirsch, 2019-01-25 This is a book of 365 quotes from the work of the psychoanalyst Wilfred Bion. Something of an enigma, Bion often doesn't write in the way one would expect of a psychoanalyst, but is being read ever-increasingly around the world, in and outside the psychoanalytic community. Certain of his comments are often quoted, whilst swathes of his work lie almost untouched. How to make some of the detail of this work available? What he writes is often dense in the way the structure of a poem can be, and the book has the format of a 'poem a day' collection - providing a way into his complete work one quote at a time. Alongside commentaries by Abel-Hirsch are thoughts on Bion's work drawn from papers by other analysts from the UK, the Americas, and Europe. The book is structured in a way that will inform and interest the general reader as well as giving something new to psychoanalysts and others who already know his work well.

Spatiality at the Periphery in European Literatures and Visual Arts Kathryn Everly, Stefano Giannini, Karina von Tippelskirch, 2023-06-12 *Spatiality at the Periphery in European Literatures and Visual Arts* analyzes the impact migrations, both internal and external, have on Europe's literary and visual representations in the nineteenth to twenty-first centuries. The volume aims to subvert a centripetal reading of European cultural production by including peripheral thinkers, writers, and visual artists operating in transcultural contexts. The essays highlight and investigate the fertile artistic discourses generated in the spatial peripheries outside of Europe or its inner peripheries. The volume addresses the need for geocritical readings that overcome the engrained dichotomy of centers-peripheries. By doing so, the book brings a more nuanced approach to national literatures and proposes the idea of "contact zones of imaginative interaction".

Pirates and Mutineers of the Nineteenth Century Grace Moore, 2016-12-05 The first volume devoted to literary pirates in the nineteenth century, this collection examines changes in the representation of the pirate from the beginning of the nineteenth century through the late Victorian period. Gone were the dangerous ruffians of the eighteenth-century novel and in their place emerged a set of brooding and lovable rogues, as exemplified by Byron's *Corsair*. As the contributors engage with acts of piracy by men and women in the literary marketplace as well as on the high seas, they show that both forms were foundational in the promotion and execution of Britain's imperial ambitions. Linking the pirate's development as a literary figure with the history of piracy and the making of the modern state tells us much about race, class, and evolving gender relationships. While individual chapters examine key texts like *Treasure Island*, Dickens's 1857 'mutiny' story in

Household Words, and Peter Pan, the collection as a whole interrogates the growth of pirate myths and folklore throughout the nineteenth century and the depiction of their nautical heirs in contemporary literature and culture.
