Encounterism: The Neglected Joys of Being In Person Andy Field,2023-07-18 A playful, analytical, informed, and poetic exploration of the delight and transformative power of real-life encounters. The light touch of a hairdresser's hands on one's scalp, the euphoric energy of a nightclub, huddling with strangers under a shelter in the rain, a spontaneous snowball fight in the street, a daily interaction with a homeless man—such mundane connections, when we closely inhabit the same space, and touch or are touched by others, were nearly lost to “social distancing.” Will we ever again shake hands without a thought? In this deeply rewarding book, Andy Field brings together history, science, psychology, queer theory, and pop culture with his love of urban life and his own experiences—both as a city-dweller and as a performance artist—to forge creative connections: walking hand-in-hand with strangers, knocking on doors, staging encounters in parked cars. In considering twelve different kinds of encounters, from car rides to video calls to dog-walker chats in the park, Field argues “that in the spontaneity and joy of our meetings with each other, we might find the faint outline of a better future.”

Designing for Empathy Elif M. Gokcigdem, 2019-05-24 As museums are currently shaping their tools for fostering empathy as an intentional outcome of museum experiences, the idea of empathy-building is reshaping them as socially relevant institutions that increasingly value diversity, accessibility, and equality. This is a non-linear, multi-layered, and multi-dimensional transformation that requires multidisciplinary, cross-industry, and cross-sector alliances for its sustainability. The potential of this collective transformation effort includes the invention of unconventional, evidence-based, and sustainable solutions that can be scaled up beyond the walls of traditional museums to all kinds of informal learning platforms to help eliminate the empathy-deficit in our world. Designing for Empathy expands our understanding of empathy and its potential for fostering compassionate worldviews and actions through a multidisciplinary exploration in three parts: "The Object of Our Empathy" explores how we define and perceive the "Other;" "The Alchemy of Empathy" introduces thirteen design elements of empathy that might lead to transformative learning experiences; and "The Scope and the Spectrum of Empathy" highlights the importance of positioning empathy as a cross-industrial shared value for the benefit of people and the planet. Designing for Empathy will inspire and empower those who are interested in intentionally designing for empathy to cultivate compassionate worldviews and actions that celebrate and preserve the oneness of all people, the environment, and our planet.

Ethnodramatherapy Stephen Snow, 2021-11-24 Ethnodramatherapy explores the integration of the performance ethnography method, known as ethnodrama, with the principles and practices of drama therapy to establish a sound theoretical formulation for ethnodramatherapy, and considers its use as art, as therapy, as research and as a vehicle for social justice. The book begins by defining ethnodramatherapy – an original synthesis created by the author through deep study and practice of Mienczakowski's ethnodrama, combined with 35 years of his own practice and research in drama therapy, creative arts therapies and therapeutic theatre. The book describes the origins of ethnodramatherapy, along with its evolution and method. It then delves into applications of the practice highlighted by five case studies with different audiences in different settings. Subjects include adults with developmental disabilities, female adolescents in youth protection, caregivers for loved ones with mental illnesses and Chinese students exploring controversial issues of oppression in China. Complex ethical issues are reviewed and suggestions are made on how to deal with some of the challenging ethical situations that are likely to arise in the ethnodramatherapy process. What emerges is a powerful tool that harnesses theatrical art, ethnographic research and the clinical techniques of drama therapy to create a potential for emancipatory experience for both performers and audiences. This exciting and dynamic synthesis of drama therapy, performance ethnography, theatrical art and social activism will be of interest to the whole community of theatre practitioners and scholars who use theatre to effect individual and social change, including the disciplines of applied theatre, theatre education, experimental theatre,

performance studies, and, of course, drama therapy, psychodrama and the other creative arts therapies.

Ontologies of Nature Gerard Kuperus, Marjolein Oele, 2017-10-04 This volume contains essays that offer both historical and contemporary views of nature, as seen through a hermeneutic, deconstructive, and phenomenological lens. It reaches back to Ancient Greek conceptions of physis in Homer and Empedocles, encompasses 13th century Zen master Dōgen, and extends to include 21st Century Continental Thought. By providing ontologies of nature from the perspective of the history of philosophy and of contemporary philosophy alike, the book shows that such perspectives need to be seen in dialogue with

each other in order to offer a deeper and more comprehensive philosophy of nature. The value of the historical accounts discussed lies in discerning the conceptual problems that contribute to the dominant thinking underpinning our ecological predicament, as well as in providing helpful resources for thinking innovatively through current problems, thus recasting the past to allow for a future yet to be imagined. The book also discusses contemporary continental thinkers who are more critically aware of the dominant anthropocentric and instrumental view of nature, and who provide substantial guidance for a sensible, innovative “ontology of nature” suited for an ecology of the future. Overall, the ontologies of nature discerned in this volume are not merely of theoretical interest, but strategically serve to suspend anthropocentrism and spark ethical and political reorientation in the context of our current ecological predicament.

On Beckett, On! Jean-Michel Rabaté, Laurel Garver, 2025-06-10 This collection of essays was born from a wish to show to a wider audience how exciting and productive Samuel Beckett scholarship has become, at a time when there are more essays and books written about Beckett than about any key modernist authors like Joyce and Woolf. This volume contains numerous essays on Beckett that the Journal of Modern Literature has published in the last decade. Their enduring quality proves that Beckett's oeuvre has maintained its appeal today because it attracts original scholars who are also interested in issues like philosophy, psychoanalysis, ethics, contemporary history, and literary theory.

Early Brain Sprouts from States to Traits Meena Chintapalli, 2017-05-30 Today, the society is at a crossroads, spending billions of dollars on fixing drug addiction problems, teen pregnancy, and youth health-risk behaviors and violence but unable

to accomplish the goals. Prevalence of ADHD, spectrum behaviors, explosive temper, bipolar disorder, violence everywhere, teen anxiety and depression, and drug abuse problems are still high. NIH data shows that 40% of eighteen- to thirty-four-year-olds have some mental health issues that need help. Dollars are spent when changes cannot happen. If the same money is spent in educating general masses through the community organizations on the brain synaptic proliferation for zero- to three-year-olds in their optimal intellectual, cognitive, personality development, we certainly can create a better world. We can prevent ADHD, autism-spectrum behaviors, learning disabilities, depression, and psychosomatic illnesses by preventing aversive pathways during development at zero to five years old. Every child born needs to live on their strengths and talents with self-confidence. The book discusses scientific facts on experiential neurodevelopment for physical, intellectual, psychological, social, and emotional health in childrens zero- to five-year development and gives a curriculum to parents on sensory nurturing and multisensory integration with no expensive toys or gadgets.

Magdalene Mysteries Seren Bertrand, Azra Bertrand, 2020-04-07 Discover the Womb Rites and initiatory magic of Mary Magdalene, who was revered as a Priestess and human embodiment of the Goddess • 2020 Nautilus Gold Award • Reveals how Mary Magdalene was a sacred priestess of the ancient Womb Mysteries, connected to moon wisdom, sacred harlot archetypes, and goddesses in many traditions, including Sophia, Isis, Inanna, Asherah, Lilith, Jezebel, and Witches • Explains

how the Magdalene Mysteries have been encoded in Gnostic texts, sacred art, and literature and unveils the secret Grail heresy of the Ghent Altarpiece • Offers rituals and practices to initiate you into the Womb magic of the ancient priestesses and access deeper dimensions of sexuality and feminine power A sacred priestess of the ancient Womb Rites, Mary Magdalene was at the center of a great and enduring Mystery tradition, one that touched on a stream of perennial spiritual wisdom as old as humanity. Worshipped as the human embodiment of the Goddess, the earthly Sophia, her womb was the spiritual luminatrix that anointed and empowered Jesus, transforming him into the Christ. As a priestess of the Goddess, Mary Magdalene knew how to embody the light and the dark, how to harness the magic potency of sacred sexual energy, and how to cleanse, awaken, and resurrect the soul. Yet, even though she sparked the creation of a worldwide religion, her story and teachings have been forgotten. Unveiling the lost left-hand path of the Magdalene, the Feminine Christ, authors Seren and Azra Bertrand explore how this underground stream of knowledge has been carried forward over the millennia through an unbroken lineage of Womb Shamans, Priestesses, Oracles, and Medicine Women. They explain how the Magdalene Mysteries, symbolized by the Rose, have been encoded in Gnostic codices and gospels and in the highest art, literature, and architecture of many ages, including most significantly the Ghent Altarpiece. They examine Mary Magdalene's connection to moon wisdom, sacred harlot archetypes, and goddesses in many traditions, including Isis, Inanna, Asherah, Lilith, and Jezebel, and look at shamanic, tantric, and Cathar expressions of sacred feminine mysteries as well as the Witch and Templar roots of Robin Hood and Maid Marian. In this revelatory and magical text on the lost feminine mystery traditions of Mary Magdalene and the lineage of Sophia, the authors present encompassing theological, historical, mythological, and archetypal wisdom, with rituals and practices to initiate you into the Womb magic of the ancient priestesses and the path of the wild feminine.
