Jane K. Glenn

The Gallery of Regrettable Food James Lileks, 2001 Recipes and food photography from the 1940s, '50s, and '60s assembled with humorous commentary.

100 Unexpected Statements about the Gallery of Regrettable Food Adam Maxey, 2013-03 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of The Gallery of Regrettable Food. Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

Feminist Food Studies Barbara Parker, Jennifer Brady, Elaine Power, Susan Belyea, 2019-08-21 This expansive collection enriches the field of food studies with a feminist intersectional perspective, addressing the impacts that race, ethnicity, class, and nationality have on nutritional customs, habits, and perspectives. Throughout the text, international scholars explore three areas in feminist food studies: the socio-cultural, the corporeal, and the material. The textbook's chapters intersect as they examine how food is linked to hegemony, identity, and tradition, while contributors offer diverse perspectives that stem from biology, museum studies, economics, popular culture, and history. This text's engaging writing style and timely subject-matter encourage student discussions and forward-looking analyses on the advancement of food studies. With a unique multidisciplinary and global perspective, this vital resource is well-suited to undergraduate students of food studies, nutrition, gender studies, sociology, and anthropology.

Gastroanomalies James Lileks, 2007 Presents photographs, illustrations, food ads, recipes, and culinary miscellany from the 1950s and 1960s with commentary on an array of the best of the worst dishes from the period.

Food and World Culture Linda S. Watts, Kelty Clark-Mahoney, 2022-08-23 This book uses food as a lens through which to explore important matters of society and culture. In exploring why and how people eat around the globe, the text focuses on

issues of health, conflict, struggle, contest, inequality, and power. Whether because of its necessity, pleasure, or ubiquity, the world of food (and its lore) proves endlessly fascinating to most people. The story of food is a narrative filled with both human striving and human suffering. However, many of today's diners are only dimly aware of the human price exacted for that comforting distance from the lived-world realities of food justice struggles. With attention to food issues ranging from local farming practices to global supply chains, this book examines how food's history and geography remain inextricably linked to sociopolitical experiences of trauma connected with globalization, such as colonization, conquest, enslavement, and oppression. The main text is structured alphabetically around a set of 70 ingredients, from almonds to yeast. Each ingredient's story is accompanied by recipes. Along with the food profiles, the encyclopedia features sidebars. These are short discussions of topics of interest related to food, including automats, diners, victory gardens, and food at world's fairs. This project also brings a social justice perspective to its content—weighing debates concerning food access, equity, insecurity, and politics.

Six Women Who Shaped What Americans Eat Michelle Mart, 2025-07-15 Six Women Who Shaped What Americans Eat tells the story of how food choice in modern America has been influenced by culture, industrial abundance, and health narratives. Mart reflects on the careers of six women to illustrate the varied and overlapping influences on food choice. Each of these women had a substantial impact on American cuisine, attitudes toward food, and what people chose to eat. They highlighted the politics of food, the pleasure of food, the connection between food and health, and the environmental harm of poor food choices. Part one of the book discusses the bounties of the modern American food system and covers Hazel Stiebeling, Poppy Cannon, and Julia Child. Stiebeling was a chemist and government nutritionist beginning in the 1930s and

shaped dietary guidelines and school lunches that affected generations of Americans. Cannon, a best-selling cookbook author and newspaper columnist, gained fame in the 1950s by preaching the wonders of processed food. Child, another cookbook author and television personality starting in the 1960s, celebrated French cuisine and made it accessible to American cooks (and palates). Part two examines the hidden costs of abundance and covers Frances Moore Lappé, Marion Nestle, and Alice Waters. Lappé was an author and activist concerned with the environmental impact of food in the late 20th century and who is credited with bringing vegetarianism into the mainstream. Nestle was an academic nutritionist, government consultant, and author who decried the undue influence of food corporations. Waters, a celebrity chef, restaurateur, and food activist, became a symbol of alternative food movements in the 21st century-- Provided by publisher.

Culinary Ephemera William Weaver,2010-10-18 This extraordinary collection, a trove of enchanting designs, appealing colors, and forgotten motifs that stir the imagination, features an unprecedented assortment of ephemera, or paper collectibles, related to food. It includes images of postcards, match covers, menus, labels, posters, brochures, valentines, packaging, advertisements, and other materials from nineteenth- and twentieth-century America. Internationally acclaimed food historian William Woys Weaver takes us on a lively tour through this dazzling collection in which each piece tells a new story about food and the past. Packed with fascinating history, the volume is the first serious attempt to organize culinary ephemera into categories, making it useful for food lovers, collectors, designers, and curators alike. Much more than a catalog, Culinary Ephemera follows this paper trail to broader themes in American social history such as diet and health, alcoholic beverages, and Americans abroad. It is a collection that, as Weaver notes, will transport us into the vicarious worlds of dinners past, brushing elbows with the reality of another time, another place, another human condition.

Einstein's Beets Alexander Theroux, 2017-05-10 Britney Spears loathes meatloaf and “all lumpy stuff.” Arturo Toscanini hated fish. Ayn Rand despised salads. Alexander Theroux’s *Einstein’s Beets* is a study of the world of food and food aversions. The novelist and poet probes the secret and mysterious attitudes of hundreds of people—mostly famous and well-known—toward eating and dining out, hilariously recounting tales of confrontation and scandalous alienation: it contains gossip, confession, embarrassment, and perceptive observations.

Unusual Museum Exhibits Marina Hadleigh, 2025-03-31 *Unusual Museum Exhibits* explores the fascinating world of unconventional museum collections, delving into the motivations behind collecting bizarre artifacts and how these exhibits challenge our understanding of art and history. It examines the psychology of collecting, the redefinition of historical artifacts, and the power of museums to shape narratives. For example, collections of deformed animal specimens or instruments of torture push the boundaries of what we consider worthy of display. The book progresses by first introducing the concept of unusual in museums, then moves into focused sections detailing oddities of the natural world, museums dedicated to the darker side of history, and exhibits challenging traditional artistic boundaries. Readers will discover how museums, from their origins as cabinets of curiosities, influence public perception and how these oddities offer valuable insights into the human condition. By analyzing these unconventional exhibits, the book provides a deeper understanding of our cultural biases and the ways in which museums shape our understanding of the world.

The Happiest Life Hugh Hewitt, 2014-01-07 What's the secret to a life of happiness? In this delightful book brimming with humorous and poignant passages, radio personality Hugh Hewitt provides the answer. The starting place is generosity, he says, and there are seven gifts that are sure to improve the lives of both giver and receiver: encouragement, energy, enthusiasm, good humor, graciousness, gratitude, and patience. Anyone can give these gifts, but Hewitt shows that some people are particularly well placed to offer them: parents, spouses, family members, friends, teachers, coworkers, and fellow

church members. Channeling his skills as a broadcaster, journalist, lawyer, and teacher, Hewitt weaves stories about these seven gifts and seven givers with inspiring and motivating observations to help readers become generous in the ways that matter most. The Happiest Life is not simply a delight to read, and not merely a glimpse under the hood of a remarkable man. It's a map to what Robert Frost once described as the road less traveled—the road that leads to a life of meaning and gratitude and joy.” —Charles J. Chaput, O.F.M. Cap., Archbishop of Philadelphia Reading this book is the next best thing to sitting down for a long conversation with my friend Hugh Hewitt.” —Dr. R. Albert Mohler, Jr., president of the Southern Baptist Theological Seminary “Wanna be a happier person? Know anyone else who does? What if this book could actually help with that? Cutting to the chase—it can. And it will. —Eric Metaxas, New York Times best-selling author of Bonhoeffer: Pastor, Martyr, Prophet, Spy and 7 Men: And the Secret of Their Greatness

The Joy of Eating Jane K. Glenn,2021-11-05 This volume explores our cultural celebration of food, blending lobster festivals, politicians' roadside eats, reality show chef showdowns, and gravity-defying cakes into a deeper exploration of why people find so much joy in eating. In 1961, Julia Child introduced the American public to an entirely new, joy-infused approach to cooking and eating food. In doing so, she set in motion a food renaissance that is still in full bloom today. Over the last six decades, food has become an increasingly more diverse, prominent, and joyful point of cultural interest. The Joy of Eating discusses in detail the current golden age of food in contemporary American popular culture. Entries explore the proliferation of food-themed television shows, documentaries, and networks; the booming popularity of celebrity chefs; unusual, exotic, decadent, creative, and even mundane food trends; and cultural celebrations of food, such as in festivals and music. The volume provides depth and academic gravity by tying each entry into broader themes and larger contexts (in relation to a food-themed reality show, for example, discussing the show's popularity in direct relation to a significant economic event), providing a brief history behind popular foods and types of cuisines and tracing the evolution of our understanding of diet and nutrition, among other explications.

The Oxford Companion to American Food and Drink Andrew F. Smith,2007-05 Offering a panoramic view of the history and culture of food and drink in America with fascinating entries on everything from the smell of asparagus to the history of White Castle, and the origin of Bloody Marys to jambalaya, the Oxford Companion to American Food and Drink provides a concise, authoritative, and exuberant look at this modern American obsession. Ideal for the food scholar and food enthusiast alike, it is equally appetizing for anyone fascinated by Americana, capturing our culture and history through what we love most—food!Building on the highly praised and deliciously browseable two-volume compendium the Oxford Encyclopedia of Food and Drink in America, this new work serves up everything you could ever want to know about American consumables and their impact on popular culture and the culinary world. Within its pages for example, we learn that Lifesavers candy

owes its success to the canny marketing idea of placing the original flavor, mint, next to cash registers at bars. Patrons who bought them to mask the smell of alcohol on their breath before heading home soon found they were just as tasty sober and the company began producing other flavors. Edited by Andrew Smith, a writer and lecturer on culinary history, the Companion serves up more than just trivia however, including hundreds of entries on fast food, celebrity chefs, fish, sandwiches, regional and ethnic cuisine, food science, and historical food traditions. It also dispels a few commonly held myths. Veganism, isn't simply the practice of a few hippies, but is in fact wide-spread among elite athletic circles. Many of the top competitors in the Ironman and Ultramarathon events go even further, avoiding all animal products by following a strictly vegan diet. Anyone hungering to know what our nation has been cooking and eating for the last three centuries should own the Oxford Companion to American Food and Drink. DT Nearly 1,000 articles on American food and drink, from the curious to the commonplace DT Beautifully illustrated with hundreds of historical photographs and color images DT Includes informative lists of food websites, museums, organizations, and festivals

Eating Your Words William Grimes, 2004-09 More than two thousand entries define a variety of words and terms related to eating and foods, describing exotic dishes, cooking techniques, ingredients, and foods.
