Great Books Written by Africans across the Academic Disciplines Emmanuel D. Babatunde, Abdul Karim Bangura, 2022-07-04 This volume is the first text to provide a comprehensive account of the great books across the academic disciplines written by Africans born in the continent and those who became naturalized citizens of African countries. These great books are those that have had a powerful, important or affecting influence on the author of a chapter in this book, as an individual, and on society. The books included here are mostly of the storytelling type and, thus, not representative of most of the academic disciplines. This volume allows each contributor to write a chapter on a discipline showcasing five great books written by African authors. Each selection is appraised and suggestions made by other experts in a discipline, while every chapter entails an introduction to the topic, a conceptual discussion of the discipline, a book-by-book review of the five books, and a conclusion and recommendations for research using the selected books.

Brennan, 2024-10-18 From medieval to contemporary, classic authors to journalists, the writers quoted in this reference work bring to life the triumphs, the musings, the frustrations, the insights of the craft of writing. Each entry gives the author, source and date. Sources include essays, journals, diaries, letters, interviews, and, in a few instances, fictional works.

Approaches to Teaching the Works of Gertrude Stein Logan Esdale, Deborah M. Mix, 2018-08-01 A trailblazing modernist, Gertrude Stein studied psychology at Radcliffe with William James and went on to train as a medical doctor before coming out as a lesbian and moving to Paris, where she collected contemporary art and wrote poetry, novels, and libretti. Known as a writer's writer, she has influenced every generation of American writers since her death in 1946 and remains avant-garde. Part 1 of this volume, Materials, provides information and resources that will help teachers and students begin and pursue their study of Stein. The essays of part 2, Approaches, introduce major topics to be covered in the classroom--race, gender, feminism, sexuality, narrative form, identity, and Stein's experimentation with genre--in a wide range of contexts, including literary analysis, art history, first-year composition, and cultural studies.

Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research.

In the Beginning Mary Jean DeMarr, 1995 Others concentrate more on analysis of the subject novel itself, indicating more briefly how that book relates to those which follow it. Some discuss such questions as what exactly is the first novel in some rather complex series and in several cases more than one initiating book is discussed. No attempt has been made to include consideration of a representative sample of the various types of detective series, but a variety of authors is covered, ranging from such classics as Agatha Christie, Rex Stout, and Dorothy L. Sayers, to more recent authors like James McClure, Joseph Hansen, and Colin Dexter.

Visceral Cosmopolitanism Mica Nava, 2007-10-15 Renowned cultural theorist Mica Nava makes a significant contribution to the study of cosmopolitanism by exploring everyday English urban cosmopolitanism and foregrounding the gendered, imaginative and empathetic aspects of positive engagement with cultural and racial difference. By looking at a wide range of texts, events and biographical narratives, she traces cosmopolitanism from its marginal status at the beginning

of the twentieth century to its relative normalisation by century's end. Case studies include the promotion of cosmopolitanism by Selfridges before the first world war; relationships between white English women and 'other' men -- Jews and black GIs -- during the 1930s and 1940s; literary, cinematic and social science representations of migrants in postcolonial Britain; and Diana and Dodi's interracial romance in the 1990s. In the final chapter, the author draws on her own complex family history to illustrate the contemporary cosmopolitan London experience. Scholars have tended to ignore the oppositional cultures of antiracism and social inclusivity. This groundbreaking study redresses this imbalance and offers a sophisticated account of the uneven history of vernacular cosmopolitanism.

Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non-academic philosophers, and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields, before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

Verdun and the Somme Harro Grabolle, 2004 Analysis of British and German prose fiction written between 1916 and 1937, with different ideological points of view. Prologue to Annihilation Stephen H. Norwood, 2021-08-03 American and British appeasement of Nazism during the early years of the Third Reich went far beyond territorial concessions. In *Prologue to Annihilation: Ordinary American and British Jews Challenge the Third Reich*, Stephen H. Norwood examines the numerous ways that the two nations' official position of tacit acceptance of Jewish persecution enabled the policies that ultimately led to the Final Solution and how Nazi annihilationist intentions were clearly discernible even during the earliest years of Hitler's rule. Further, Norwood looks at the nature and impact of American and British Jewish resistance to Nazi persecution and the efforts of Jews at the grassroots level to press Jewish organizations to respond more forcefully to the Nazi menace. He examines the worldwide protest and boycott movements against Germany and German goods as well as mass demonstrations by working-class and lower-middle-class Jews in many American and British cities. *Prologue to Annihilation* details how the events of 1930-1936 tested American

and British societies' willingness to accept Nazism and its anti-Jewish philosophy and illuminates the divisions that existed even within the Jewish community about how best to challenge Nazi antisemitic policies and atrocities.

[A Time for Searching](#) Henry L. Feingold, 1995-05 In this fourth volume, [the author] notes that the decline of religiousness in the second and third generations of American Jews was balanced by the development of an activist political culture based on an elaborate organizational life, an effective fund-raising apparatus, and Zionism, with its notion of Jewish peoplehood. That reshaping of American Jewish individual and communal identity in some measure accounts for the insufficient response to the plight of European Jews during the Holocaust. American Jewry's remarkable achievement in the private sphere overshadowed its weakness in the public one--Series Editor's forward.

Jack Jackson's American History Jack Jackson, 2013-01-18 Los Tejanos is the story of the Texas-Mexican conflict between 1835 and 1875 as seen through the eyes of tejano (literally Texan of Mexican, as distinct from anglo, heritage) Juan Seguín. It is through Seguín, a pivotal and tragic figure, that Jackson humanizes Texas' fight for independence and provides a human scale for this vast and complex story. Lost Cause documents the violent reaction to Reconstruction by Texans. As Jackson wrote, "Texas reaped a bitter harvest from the War Between the States. Part of this dark legacy was the great unrest that plagued the beaten but unbowed populace." The tensions caused by Reconstruction are told through the Taylor-Sutton feud, which raged across South Texas, embracing two generations and causing untold grief, and the gunslinger John Wesley Hardin, who swept across Texas killing Carpetbaggers, Federal soldiers, and Indians.
