Killer Traitor Spy Tim Ayliffe, 2023-07-05 SET TO BE ADAPTED FOR THE SCREEN. Journalist John Bailey and CIA officer Ronnie Johnson join forces to outwit their most deadly adversary yet. 'Ayliffe is a master of the genre.' Sulari Gentill STEALING SECRETS IS A DEADLY GAME Someone wants Russian millionaire Dmitry Lebedev dead. After years flying under the radar in Sydney, he's just had a narrow escape when a sex worker is poisoned in his hotel room. In desperation he contacts his former CIA case officer, Ronnie Johnson, offering to expose a traitor inside the Australian government in return for protection. John Bailey has spent decades risking his life to break news stories. Along the way he's made some interesting friends, including Ronnie — who saved his life in Iraq — and Scarlett Merriman, whose night with Lebedev left her in a coma. And now they both need Bailey's help. While Bailey investigates what happened to Scarlett, Ronnie Johnson is calling in an

old debt. Because the same people going after Lebedev have framed Ronnie for murder. From Canberra to Moscow to Beijing, Killer Traitor Spy uncovers the new lines of espionage in the twenty-first century. It proclaims Ayliffe as a master of the genre. 'A carefully crafted, propulsive thriller that sails uncomfortably close to the truth.' Michael Brissenden 'Torn from the headlines and relentlessly paced.' Matthew Spencer

Dark Night Martin Edmond, 2013-11-01 In 1984, on his way to a major exhibition opening, celebrated New Zealand painter Colin McCahon went missing for 24 hours in Sydney, Australia. He was discovered by police the next day on a bench in Centennial Park with no identification and suffering from amnesia; by all accounts, McCahon was never quite the same from this night until his death three years later. This work of creative nonfiction underscores the life and work of Colin McCahon and traces a possible McCahon route across Sydney, wandering through bars and flop houses, streets and churches. Exploring key issues, such as the attractions of the bottle, the role of faith and religion, the illuminating power of the imagination, and the hold of family relationships, this record chronicles not only a mysterious incident but also the life and art of the man who lived it.

The Year Everything Changed Phillipa McGuinness, 2018-05-28 On New Year's Eve 2001, with her husband by her side, Phillipa McGuinness buried her son. They stood with a young priest in Chua Chu Kang Cemetery and watched a small coffin go into the ground. Later that night, shattered, they sat looking out at the hundreds of ships waiting to come into port in Singapore's harbor. Or trying to leave, who could tell? Each of them thinking about the next year, starting within hours. Phillipa wanted time to push on, for 2001 to be over, but she was also scared. What might be next? 2001 was an awful year. It's the only year where you can mention a day and a month using only numbers and everyone knows what you mean. But 9/11 wasn't the only momentous event that year. In Australia a group of orange-jacketed asylum seekers on deck the Norwegian vessel Tampa seemed responsible for Prime Minister John Howard's statement not long after: 'We will decide who comes to this country and the circumstances in which they come.' These words became his mantra during the bruising election that followed in November, both sides of politics affected by their venom and insularity, or their strength and resolve, depending on which way you looked at it. The year had started with what was supposed to be a celebratory event of sophistication and nuance, reflecting the kind of country we hoped we had become. Yet the Centenary of Federation on 1 January turned out to be a class-A fizzer. The nation seemed to decide that what was really worth commemorating wasn't the peaceful bringing together of colonial states into a Commonwealth but the doomed assault on a Turkish beach that happened fourteen years later in 1915. It is easier to animate young men dying than old men signing a constitution. 2001 marked the halfway point of twenty years of continuous economic growth in Australia. But the year started with shiny tech startups continuing their implosion following the dotcom bubble burst. The deal of the (nascent) century, the merger between Netscape and AOL, seemingly an all-powerful mega corporation, began to slide. Yet perhaps the digital world as we now

know it did start in 2001, at least for what is now the most powerful company in the world. For this was the year that Google, in no hurry to launch an IPO, received its PageRank patent, assigned to Larry Page and Stanford University. The rest, as they say, is history. Apple launched the iPod in 2001, not only transforming the soundtrack to our lives but shifting cultural alignments so that distributors became the richest guys in the room, rather than the artists writing, singing and playing the songs. If 2001 were a movie – oh wait, of course it was – its tagline might be ‘The year that changed everything’. And that change is not over.
