Ho Chi Minh's Blueprint for Revolution Virginia Morris,Clive A. Hills,2018-09-10 When Saigon fell to North Vietnamese forces on April 30, 1975, the communist victory sent shockwaves around the world. Using ingenious strategy and tactics, Hồ Chi Minh had shown it was possible for a tiny nation to defeat a mighty Western power. The same tactics have been studied and replicated by revolutionary forces and terrorist organizations across the globe. Drawing on recently declassified documents and rare interviews with Hồ Chi Minh's strategists and operatives, this book offers fresh perspective on his blueprint and the reasons behind both the French (1945-1954) and the American (1959-1975) failures in Vietnam, concluding with an analysis of the threat this model poses today.

McNamara, Clifford, and the Burdens of Vietnam 1965-1969 Edward J. Drea,2011 Overseeing the Vietnam War and contending with these complex policy issues taxed even McNamara's enormous energy and brilliant intellect as he struggled

to manage DoD programs. His long-cherished cost-cutting programs fell by the wayside; his favored weapons systems were swept aside; his committed efforts to limit strategic arms faltered; and his reputation was permanently tarnished.

McNamara, Clifford and the Burdens of Vietnam highlights the interaction of McNamara and Clifford with the White House, Congress, the JCS, the Department of State, and other federal agencies involved in policy formulation. The two secretaries increasingly found that the cost of winning the war became a morally prohibitive as the price of losing.

Against the War Roland Menge, 2012-10-15 *AGAINST THE WAR* is a historical novel examining the response of the Vietnam War generation to the Vietnam War and the effect of the war on American society. The novel follows the intertwined lives of four friends, rowing team mates, who graduate from college in 1967, at the height of the war. Two of the four friends become involved in the war, one as a combat pilot and one as a medic. The other two of the four friends, in seeking to avoid the war, become involved in the counter culture that arises from the anti-war movement. The novel also follows the lives of the four women who become the eventual companions of the four men.

China Rising David C. Kang, 2010-01-22 Over the past three decades, China has rapidly emerged as a major regional power, yet East Asia has been more peaceful than at any time since the Opium Wars of 1839-1841. Why has the region accommodated China's rise? David C. Kang believes certain preferences and beliefs are responsible for maintaining stability in East Asia. His research shows that East Asian states have grown closer to China, with little evidence that the region is rupturing. These states see China's rise as advantageous and are willing to defer judgment as to China's wishes and future actions. They believe that a strong China stabilizes East Asia, while a weak China tempts other states to seek control of the region. Kang's provocative work reveals the flaws in contemporary views on China and offers a new understanding of sound U.S. policy in East Asia.

Pedagogies of Globalization Joel H. Spring, 2006 Examines globalization and its worldwide effects on education. A central thesis of this book is that industrial-consumerism is the dominant paradigm in the integration of education and economic planning in modern economic security states.

The Human Cost of Communism in Vietnam, 1972

Creative Interventions Eugenio Bolongaro, 2020-06-12 Who are "intellectuals"? What do they think their role and function in contemporary society is? Are they on the endangered-species list? Is equating conservatism with conservation becoming their dominant survival strategy? This book is a collection of essays that examines some of the changes in the

activities, role, function and self-perception of Italian intellectuals since World War II (two major divides are considered to be the crisis of 1956-7 and the fall of the Berlin Wall). The first section examines some of the most influential figures in the early decades, the second the activities of contemporary intellectuals, a third gives voice to some contemporary writers, a fourth contains some comparative essays about the role of intellectuals in influential contemporary Western cultures and a final section is devoted to some cross-disciplinary forays and reflections on the relevance and possible future directions of these inquiries.

Armed Struggle and Democracy Martin Legassick, 2002 The impact of the concept(s) of armed struggle for the notion(s) of democracy in South(ern) Africa is the focus of this paper. Originally submitted to a conference on (Re-) Conceptualising Democracy and Liberation in Southern Africa, held in Windhoek, Namibia during July 2002, it argues from the point of departure of the personal involvement of the author in the issues raised. The author was part of a group which criticised the strategy of armed struggle in the ANC. With this paper he inspires a debate, which can claim relevance for current issues of democracy in South Africa and the Southern African region more generally. Given the degree of personal involvement of its author, this analysis is contemporary history based on personal insights, and provides arguments for a necessary discussion.

Surviving Twice Trin Yarborough, 2014-05-27 *Surviving Twice* is the story of five Vietnamese Amerasians born during the Vietnam War to American soldiers and Vietnamese mothers. Unfortunately, they were not among the few thousand Amerasian children who came to the United States before the war's end and grew up as Americans, speaking English and attending American schools. Instead, this group of Amerasians faced much more formidable obstacles, both in Vietnam and in their new home. *Surviving Twice* raises significant questions about how mixed-race children born of wars and occupations are treated and the ways in which the shifting laws, policies, social attitudes, and bureaucratic red tape of two nations affect them their entire lives.
