*Learning to Apply* Quince Duncan, 2013-02-22 Book Five of the Learning to Apply Series, is a consolidated version of two former manuals, titled Fieldworks (Duncan, 2010) and Applying Research (Duncan, 2010), used in 10th and 11th grades at West College High School. This reform, at the suggestion of Director Cynthia Delgado, is consistent with the fact that the undergraduate paper that Wests students prepare is developed precisely over these two academic years as a single project. During level ten-eleven, students consolidate their capacity for self-education learning how to learn, learning how to comprehend the subjects studied, and learning how to apply the knowledge acquired when faced with today's challenging and changing reality, thereby achieving the final aim of the Series. Students will design and develop an undergraduate report, (tesina in Spanish) which is the final research-report that they are expected to present as part of their graduation process. The tesina is basically an individual study that each student carries out to demonstrate his capacity to formulate a problem, confront it with a basic theoretical framework, using proper methodology and adequate techniques required to close this stage of his academic experience. The course is divided in two parts: Fieldworks, designed to recap formerly acquired knowledge, to set up a professionally oriented research plan and to complete preliminary investigation. The second part, Applying Research, guides students to the completion of their investigation and to the delivery of a competent report.

**What Work Means** Claudia Strauss, 2024-06-15 What Work Means goes beyond the stereotypes and captures the diverse ways Americans view work as a part of a good life. Dispelling the notion of Americans as mere workaholics, Claudia Strauss presents a more nuanced perspective. While some live to work, others prefer a diligent 9-to-5 work ethic that is conscientious but preserves time for other interests. Her participants often enjoyed their jobs without making work the focus of their life. These findings challenge laborist views of waged work as central to a good life as well as post-work theories that treat work solely as exploitative and soul-crushing. Drawing upon the evocative stories of unemployed Americans from a wide range of occupations, from day laborers to corporate managers, both immigrant and native-born, Strauss explores how diverse Americans think about the place of work in a good life, gendered meanings of breadwinning, accepting financial support from family, friends, and the state, and what the ever-elusive American dream means to them. By considering how post-Fordist unemployment experiences diverge from joblessness earlier, What Work Means paves the way for a historically and culturally informed discussion of work meanings in a future of teleworking, greater automation, and increasing nonstandard employment.
