All Roads Lead to Manyberries Ron Wood, 2010

Hide & Seek John A. Cassara, 2006 One failure of 9/11 that has not received the attention it deserves is the inadequacy of the U.S. and international network of financial transparency reporting requirements to detect terrorist finance. In *Hide and Seek*, John A. Cassara, an expert in the fields of terrorist financing and money laundering, provides personal insight into the workings of the intelligence and law enforcement communities. He contends that the mistakes made by many different agencies before 9/11 were not isolated. Rather, he says these blunders were a result of bureaucratic cultures, misguided policies, and entrenched ways of doing business. Moreover, vulnerabilities still exist. Cassara's unique background allows personal insight into the real workings of the intelligence and law enforcement communities that failed us on September 11, 2001. His memoir provides a true-life perspective on issues, procedures, government cultures, and decisions that are so

vitaly important today.

All Roads Leads To Us Jiya Vyas,2025-04-16 Set in the heart of Mumbai, this is a heartwarming story of two seemingly different individuals—Nikhat, a determined journalism student searching for “the one,” and Fateh, a gold-medalist graduate running an NGO for stray dogs, determined to prove his worth beyond his father’s shadow. Brought together by chance and purpose, they navigate ambition, heartbreak, healing, and the slow, magical bloom of love. This is a story about finding your path, your voice, and the person who sees you at your worst—and stays. A tender, soul-stirring tale of friendship, courage, and love that feels like home.

Evil Paradises Mike Davis,Daniel Bertrand Monk,2011-07-16 *Evil Paradises*, edited by Mike Davis and Daniel Bertrand Monk, is a global guidebook to phantasmagoric but real places—alternate realities being constructed as “utopias” in a capitalist era unfettered by unions and state regulation. These developments—in cities, deserts, and in the middle of the sea—are worlds where consumption and inequality surpass our worst nightmares. Although they read like science fiction, the case studies are shockingly real. In Dubai, where child slavery existed until very recently, a gilded archipelago of private islands known as “The World” is literally being added to the ocean. In Medellín and Kabul, drug lords—in many ways textbook capitalists—are redefining conspicuous consumption in fortified palaces. In Hong Kong, Cairo, and even the Iranian desert, burgeoning communities of nouveaux riches have taken shelter in fantasy Californias, complete with Mickey Mouse statues, while their maids sleep in rooftop chicken coops. Meanwhile, Ted Turner rides herd over his bison in 2 million acres of private parkland. Davis and Monk have assembled an extraordinary group of urbanists, architects, historians, and visionary thinkers to reflect upon the trajectory of a civilization whose deepest ethos seems to be to consume all the resources of the earth within a single lifetime.

Seeds of Terror Gretchen Peters,2009-05-12 Revealing the astonishing story of how Afghanistan's booming opium trade is bankrolling Al Qaeda and the Taliban, *Seeds of Terror* follows the drugs from the fields of the small farmers to the clandestine deals of the weapons merchants.

Set in the immediate future, as Pakistan’s economy collapses, China invades Pakistan and is knocking on the doors of India. China is determined to change the power equation in the world. Inadvertently, the chronicler harbours memories that could change the map of the world and the course of history. From Dubai to Karachi S. Hussain Zaidi,2024-12-30 ‘Who is bigger than the King?’ Dawood Ibrahim went undercover after the serial blasts of 12 March 1993 in Mumbai. Nobody knew how he had managed to escape from India while his D

Company had proven links to the blasts. Yakub Memon was subsequently executed, resulting in the bloody split of the Mumbai Mafia. What happened to Dawood Ibrahim then? Where is he now? As these questions began to surround, S. Hussain Zaidi's riveting investigation led to Karachi, where Dawood is now the Kingmaker. Fiercely protected and valiantly denied by the Pakistani government, he has come to become the protector of the country's dwindling economy and tumultuous polity. Yet, Dawood Ibrahim remains untouched by either of the governments across the Line of Control. From the lanes of Dongri to becoming world's most wanted fugitive and a powerbroker for the Pakistani government, Dawood has come a long way. Thrilling and jaw dropping, From Dubai to Karachi is a much-awaited sequel to Black Friday, uncovering his last thirty years as S. Hussain Zaidi pens a definitive end to the Dawood saga.

Desert Paradises Julian Bolleter, 2019-03-29 *Desert Paradises: Surveying the Landscapes of Dubai's Urban Model* explores how designed landscapes can play a vital role in constructing a city's global image and legitimizing its socio-political hierarchy. Using the case study of Dubai, Bolleter explores how Dubai's rulers employ a paradisiacal image of greening the desert, in part, as a tool for political legitimization. Bolleter also evaluates the designed landscapes of Dubai against the principles of the United Nations and the International Federation of Landscape Architects and argues that what is happening in Dubai represents a significant discrepancy between theory and practice. This book offers a new perspective on landscape design that has until now been unexplored. It would be beneficial to academics and students of geography, landscape architecture, urban design and urban planning - particularly those with an interest in Dubai or the many cities in the region that are experiencing Dubaiification.

Transnational Crime and Black Spots Stuart S. Brown, Margaret G. Hermann, 2019-10-29 "The strength of this book is that it does not look at a single case or even a few disparate examples of drug, weapon, and human trafficking but looks at many patterns—intra-regionally, cross-nationally, and internationally. It is an innovative addition to the literature on the nature of the safe havens—or 'black spots'—currently being used for illicit activity. This book will make a clear impact on the scholarship of transnational crime and the geopolitics of the illicit global economy." —Jeremy Morris, Aarhus University, Denmark Transnational criminal, insurgent, and terrorist organizations seek places that they can govern and operate from with minimum interference from law enforcement. This book examines 80 such safe havens which function outside effective state-based government control and are sustained by illicit economic activities. Brown and Hermann call these geographic locations 'black spots' because, like black holes in astronomy that defy the laws of Newtonian physics, they defy the world as defined by the Westphalian state system. The authors map flows of insecurity such as trafficking in drugs, weapons, and people, providing an unusually clear view of the hubs and networks that form as a result. As transnational crime is increasing on the internet, Brown and Hermann also explore if there are places in cyberspace which can be considered black spots. They conclude by elaborating the challenges that black spots pose for law enforcement and both national and international

governance.

Building Sharjah Sultan Sooud Al Qassemi, Todd Reisz, 2021-07-05 *Building Sharjah* reveals how modern architecture unfurled across the United Arab Emirates' third-largest city. An oil discovery in 1972 positioned Sharjah as one of the world's final cities shaped by transformative fortune. In the footsteps of Kuwait, Riyadh, and Dubai, Sharjah faced a metamorphosis: either one that repeated the past's mistakes or one that reimagined how wealth can build a city. Sharjah's potential enticed an international cast of experts to create a bold, new city. As their projects begin to vanish, this book preserves them through unseen photographs and recovered documents. New writing chronicles how local and arriving residents arranged the designed, concrete environment into a home. Beyond just a local artifact, this book examines the confident promises made by

global practices of urbanization.

Through a blend of historical analysis and ethnographic insights, the book offers an exploration of how film circulations have evolved amidst geopolitical

shifts and technological advancements. By reframing our perspective to view Arab cinema cultures through the lens of the Bombay film industry, it challenges prevailing Orientalist narratives, offering a nuanced and refreshing portrayal of the Arab-speaking region.

Showpiece City Todd Reisz,2020-10-27 Staggering skylines and boastful architecture make Dubai famous—this book traces them back to a twentieth-century plan for survival. In 1959, experts agreed that if Dubai was to become something more than an unruly port, a plan was needed. Specifically, a town plan was prescribed to fortify the city from obscurity and disorder. With the proverbial handshake, Dubai's ruler hired British architect John Harris to design Dubai's strategy for capturing the world's attention—and then its investments. *Showpiece City* recounts the story of how Harris and other hired professionals planned Dubai's spectacular transformation through the 1970s. Drawing on exclusive interviews, private archives, dog-eared photographs, and previously overlooked government documents, Todd Reisz reveals the braggadocio and persistence that sold Dubai as a profitable business plan. Architecture made that plan something to behold. Reisz highlights initial architectural achievements—including the city's first hospital, national bank, and skyscraper—designed as showpieces to proclaim Dubai's place on the world stage. Reisz explores the overlooked history of a skyline that did not simply rise from the sands. In the city's earliest modern architecture, he finds the foundations of an urban survival strategy of debt-wielding brinkmanship and constant pitch making. Dubai became a testing ground for the global city—and prefigured how urbanization now happens everywhere.
