Behold a Pale Horse William Cooper, 2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to talk due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been talking, he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. Bill Cooper is the world's leading expert on UFOs. -- Billy Goodman, KVEG, Las Vegas. The only man in America who has all the pieces to the puzzle that has troubled so many for so long. -- Anthony Hilder, Radio Free America William Cooper may be one of America's greatest heroes, and this story may be the biggest story in the history of the world. -- Mills Crenshaw, KTALK, Salt Lake City. Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands. -- William Cooper, October 24, 1989.

Behold! a Pale Horse Milton Cooper, 2018-05-02 William Cooper turned out to be right; and that's all we have to say about his self-published Book. Let's keep copies of this treatise for our grandchildren and their children, so the spectre of corruption and perfidy that we the late 20th century generation experienced, will never occur again in seven generations.

Global Self-Deception Alexander Baron, 1996-01-01

A Culture of Conspiracy Michael Barkun, 2003 Unravelling the genealogies and permutations of conspiracist worldviews, this work shows how this web of urban legends has spread among sub-cultures on the Internet and through mass media, and

how this phenomenon relates to larger changes in American culture.

The Unidentified Colin Dickey, 2021-07-20 America's favorite cultural historian and author of *Ghostland* takes a thought-provoking and deliciously unsettling (Publisher's Weekly) tour of the country's most persistent unexplained phenomena In a world where rational, scientific explanations are more available than ever, belief in the unprovable and irrational--in fringe--is on the rise: from Atlantis to aliens, from Flat Earth to the Loch Ness monster, the list goes on. It seems the more our maps of the known world get filled in, the more we crave mysterious locations full of strange creatures. Enter Colin Dickey, Cultural Historian and Tour Guide of the Weird. With the same curiosity and insight that made *Ghostland* a hit with readers and critics, Colin looks at what all fringe beliefs have in common, explaining that today's Illuminati is yesterday's Flat Earth: the attempt to find meaning in a world stripped of wonder. Dickey visits the wacky sites of America's wildest fringe beliefs--from the famed Mount Shasta where the ancient race (or extra-terrestrials, or possibly both, depending on who you ask) called Lemurians are said to roam, to the museum containing the last remaining evidence of the great Kentucky Meat Shower--investigating how these theories come about, why they take hold, and why as Americans we keep inventing and re-inventing them decade after decade. *The Unidentified* is Colin Dickey at his best: curious, wry, brilliant in his analysis, yet eminently readable.

Jewish Space Lasers Mike Rothschild, 2023-09-19 With the current rise of antisemitism, this important book looks at how one Jewish family—the Rothschilds—became a lightning rod for the conspiracy theories of the last two centuries, and how those theories are still very much alive today. In 2018 Congresswoman Marjorie Taylor Greene took to social media to share her suspicions that the California wildfires were started by ‘space solar generators’ which were funded by powerful, mysterious backers. Instantly, thousands of people rallied around her, blaming the fires on “Jewish space lasers” and, ultimately, the Rothschild family. For more than 200 years, the name Rothschild has been synonymous with two things: great wealth, and conspiracy theories about what they're really doing with it. Almost from the moment Mayer Amschel Rothschild and his sons emerged from the Jewish ghetto of Frankfurt to revolutionize the banking world, the Rothschild family has been the target of myths, hoaxes, bizarre accusations, and constant, virulent antisemitism. Over the years, they have been blamed for everything from the sinking of the Titanic, to causing the Great Depression, and even creating the COVID-19 pandemic. *Jewish Space Lasers: The Rothschilds and 200 Years of Conspiracy Theories* is a deeply researched dive into the history of the conspiracy industry around the Rothschild family - from the pamphlet wars of Paris in the 1840s to the dankest pits of the internet today. Journalist and conspiracy theory expert Mike Rothschild, who isn't related to the family, sorts out myth from reality to find the truth about these conspiracy theories and their spreaders. Who were the Rothschilds? Who are they today? Do they really own \$500 trillion and every central bank, in addition to “controlling the British money supply?” Is any of this actually true? And why, even as their wealth and influence have waned, do they continue to drive conspiracies and hoaxes?

Conspiracy Theories Aaron John Gulyas, 2016-02-22 Narratives based on conspiratorial and paranoid thinking have become increasingly prominent throughout the 20th and 21st centuries. From the prosaic to the outlandish, conspiracy theories involve aliens and Nazis, underground bases and mind control technology. They range from sinister tales of malevolent reptilian beings infiltrating our government to fears of the New World Order rounding up patriotic Americans and putting them into internment camps. These stories and their underlying concerns have a long history in the U.S. and have often been bolstered by revelations of real conspiracies and cover-ups by private and public entities. This book examines conspiracy theories and the narratives constructed by those who believe and propagate them, providing a unique view of U.S. history and highlighting fears both founded and unfounded.

The Paranormal and the Paranoid Aaron Gulyas, 2015-06-11 Toward the end of the twentieth century, science fiction television took a dark turn. Series like *The X-Files*, *Millennium*, and *Dark Skies* wove menacing technologies, paranormal forces, and shadowy government agencies into complex tales of corruption and cover-ups. Mind control, alien abductions, secret government laboratories, and implacable “men in black” moved from the fringes to the mainstream of American culture, making weekly appearances in living rooms everywhere. Other series that played on fears of new technologies—such as virtual reality—set the stage for unfamiliar kinds of exploitation, while *Dark Angel* offered glimpses of a near-future wasteland devastated by a technological catastrophe. In *The Paranormal and the Paranoid: Conspiratorial Science Fiction Television*, Aaron John Gulyas explores the themes that permeated and defined science fiction television at the turn of the millennium. The author traces the roots of this phenomenon in an earlier generation of series including *The Invaders*, *Kolchak: The Night Stalker*, and *Project U.F.O.* and examines how changes in the cultural landscape led to the proliferation of these types of shows. This book delves into the internal mythology of shows like *The X-Files*, resurrects now-forgotten series like *Wild Palms* and *VR.5*, and provides an important glimpse into American culture at the close of the twentieth century. While exploring the pervasive grimness of these shows, Gulyas also examines how they offer hope in the form of heroes—like agents Scully and Mulder—who relentlessly dug through the tissue of lies and distortions to find and expose the truth. *The Paranormal and the Paranoid* will appeal to scholars of media studies, sociology, and science fiction—not to mention fans of these programs and even conspiracy theorists.

US Narratives of Nuclear Terrorism Since 9/11 David Seed, 2019-04-06 This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism. It traces the beginnings of this anxiety from the 1970s, which increased during the 1990s after the collapse of the Soviet Union. The traumatic events of 9/11 became a major reference point for this fiction, which expressed the fear that of a second and worse 9/11. The study examines narratives of conspiracies which are detected and forestalled, and of others which lead to the worst of all outcomes – nuclear detonations, sometimes delivered by suitcase nukes. In some of these narratives the very fate of the

nation hangs in the balance in the face of nuclear apocalypse. The discussion considers cases of attacks by electromagnetic pulse (EMP), cyberterrorism and even bioterrorism. Some of the authors examined are present or former politicians, members of the CIA, and former president, Bill Clinton.

The End of the Age Frederick Guttman, In the first part of 'Apocalypse, Remote Vision' we have observed the points that deal with what is related to the 'Great Tribulation' that our world will live and even the elect and faithful (so that with this many may be perfected, and likewise many other lukewarm awaken). I have told you that the basis of these two end-world books is intuition, premonition, visions, revelations, dreams, extrasensory perception and remote viewing regarding things to come, and I have chosen many topics that I have been able to compare and link with each other. There are other popular people who have seen remarkable things, but some of them are not the subject that I am dealing with here at the moment, or they are not entirely clear. There are others from which data can be taken with tweezers, as is the case of Mrs. 'Baba Vanga', a Bulgarian citizen who predicted many things in her time. She is said to have given specific dates for future events, but the times and sequences attributed to the events predicted by her are exaggerated and mixed up in their temporal location. Baba Vanga would have died on August 11, 1996, at the age of 85, and the only allusion that seems coherent that he gave for just after his death is the one that defines that by 2018 the nation of China would become the new power world. Even so, we will see that this will not be exactly the case, despite the fact that it is now the global economic power - and perhaps the second or third military power on our planet. If we remove the dates that he is supposed to have mentioned, and simply refer to his warnings, then we do have logical citations and which coincide with a host of other prophecies. Vanga is said to have prophesied that after China became the world power, the subsequent thing would be that the Earth's orbit would change slightly; I would also have argued that then Europe would have serious demographic problems, that hunger would slowly become a problem for humanity, that there would be polar melting and strong sea level rise, and the like. It is also said that he warned that later the world economy would improve remarkably while in Europe the Muslims dominate. We already know that this has to do with the new currency and the Islamic invasion, but Vanga adds something strange...

Culture of Conspiracy Michael Barkun, 2003-11-07 What do UFO believers, Christian millennialists, and right-wing conspiracy theorists have in common? According to Michael Barkun in this fascinating yet disturbing book, quite a lot. It is well known that some Americans are obsessed with conspiracies. The Kennedy assassination, the Oklahoma City bombing, and the 2001 terrorist attacks have all generated elaborate stories of hidden plots. What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs, Nostradamus, and the Illuminati. Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas, Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media, how a new style of conspiracy thinking has recently arisen, and how this phenomenon relates to

larger changes in American culture. This book, written by a leading expert on the subject, is the most comprehensive and authoritative examination of contemporary American conspiracism to date. Barkun discusses a range of material—involving inner-earth caves, government black helicopters, alien abductions, secret New World Order cabals, and much more—that few realize exists in our culture. Looking closely at the manifestations of these ideas in a wide range of literature and source material from religious and political literature, to New Age and UFO publications, to popular culture phenomena such as The X-Files, and to websites, radio programs, and more, Barkun finds that America is in the throes of an unrivaled period of millennial activity. His book underscores the importance of understanding why this phenomenon is now spreading into more mainstream segments of American culture.

Rough Guide to Conspiracy Theories, The (3rd) James McConnachie, Robin Tudge, 2013-02-01 Fully revised and updated, The Rough Guide to Conspiracy Theories sorts the myths from the realities, the allegations from the explanations and the paranoid from the probable. Who might be trying to convince us that climate change is or isn't real? What is the truth behind the death of Osama bin Laden and is he still alive? When did the CIA start experimenting with mind control? Where is the HAARP installation and did it have anything to do with the Japanese tsunami disaster? Why is surveillance in our cities and online so widespread and what are the real benefits? This definitive guide to the world's most controversial conspiracies wanders through a maze of sinister secrets, suspicious cover-ups hidden agendas and clandestine operations to explore all these questions - and many many more. Now available in PDF format.

Visitors Harold A. Skaarup, 2000-09 Suppose you could communicate with a visitor who was not from this place, time-space or even this dimension? What would you want to ask them? The answers probably lie in what our own response would be if we were them. This book is based on a collection of interviews I have had with a few individuals who may have actually had such an experience. The idea is that if enough of us are ready to ask the questions and gain the answers, then our collective knowledge and understanding of the multiverse about us can only continue to be enhanced. Sometimes the responses that you will read here are similar; often they are diametrically opposed to each other. An open but highly skeptical mind is extremely necessary if you are going to sift through the data that is presented in this book. The intent is that it should peak your curiosity to learn more about visitors. In this way, we may be better informed and prepared, and thus in some sort of coherent shape to deal with their arrival. If you read this book, you must be well prepared to choose for yourself what you will or will not believe.

The Greene Book of Black Knowledge Will EL M. STJ Heron, 2022-05-04 What stake do we as Foundational Black Americans really have to claim in the history of this country, this continent, and the world, if any? When you think of Foundational Black Americans (formerly misnomered as African Americans/Negroes/Coloreds/Black) what thought comes to mind and what accomplishments are we known for? Were we slaves brought to this country by force, low-class citizens of a

foreign nation with no home to call their own? Or is there more to the story, so much more that even the mere mention of our accolades would discredit the history of the masses? What if I were to tell you that our history in this country, from the perspective that everything we have been taught, is but a half truth? Who built the buildings, roads, and monuments in this country? Where did those people come from and where did they go? Where did the many science, technology and artforms of the country and the world develop? What is the hidden history behind what we are taught, but most importantly why is this knowledge kept from us? This book will capture some of the lesser known accomplishments and esoteric information that has been passed down “word of mouth” by some and systematically discredited by others. Fortunately, true knowledge can neither cease nor desist and this text will show what you can do to utilize that information today. It is time that we take our own history by the rungs away from those who would paint an inaccurate picture of our past. This will allow us to re-introduce ourselves, not for exposure and clout, but for self-vindication and reasonable doubt.

Conspiracy Daniel Pipes, 1999-05-01 A solid sketch of a difficult and intriguing topic without indulging in sensationalism (Kirkus Reviews, August 15, 1997). Was AIDS intentionally inflicted upon blacks by whites? Was JFK assassinated as part of an intricate conspiracy? Pipes traces conspiracy theories through history to show that Conspiracism—genuine and virulent belief in a conspiracy—dates back to the First Crusade and reached a peak in the Soviet Union and Nazi Germany, with the focus shifting from the Jews, groups such as Freemasons and the Rosicrucians, and back again. —DanielPipes.org

Conspiracy Theories Jeffrey B. Webb, 2024-04-04 Provides a comprehensive guide to the history and current shape of conspiracy theories in American life, including the findings of research seeking to understand their origins, type, function, and widespread appeal. This all-in-one resource provides an accessible overview of conspiracy theories past and present in all their many forms. Taking an even-handed, scholarly approach, the book outlines the longer history of conspiracy theories, starting with Ancient Greece and Rome and continuing the story up to the present day, including analysis of 9/11, anti-vaccine, COVID, and QAnon theories. It surveys an array of current books and articles to try to understand why people believe in and act on outlandish and evidence-free conspiracy theories. Notably, this resource also outlines the problems created by untrue conspiracy theories in terms of their negative impact on public debate, trust in others, and efforts to nurture an informed and educated citizenry. Instead, many conspiracy claims have become sources of misinformation, cynicism, and polarization. This book will benefit anyone who seeks a pathway through our current epistemic crisis in which the lines between fact and fiction-and between truth and falsehood-have become blurred.

Calling Jacob: Commentary in Isaiah Jonathan Malone, 2020-10-27 Commentary of Isaiah 30-35. Prophetic studies in the book of Isaiah reveal difficult times ahead for the Modern State of Israel. Welcome to the Apocalypse. Monstrously, the Beast looms over Jerusalem. Pouncing, he scatters the Jews. Defenders valiantly counterattack, but, alas, how desperate. The streets are in ruin. The Iron Kingdom has metastasized over the earth. All seems lost when, suddenly—What is that light

approaching in the sky? The Tribulation Period, the Antichrist, the Salvation of the Jews, and the Second Coming are compelling topics, but author Jonathan Malone has more on his mind. He also fights a desperate battle, defending the Masorah from a gruesome horde in clerical collars and caps and gowns.

The Great Tribulation Frederick Guttmann, This work is called 'Apocalypse, Remote Vision' in inspiration of the documentary we made, where the idea of it is to address the results of the ability of human beings to see the future. US Navy Remote Viewing Covert Ops Lieutenant Colonel 'Ed Dames' talks about some covert missions – and makes it clear that others he can't talk about – recounting how his nation and Russia use psychics to anticipate events to come. In his day the Israelite prophet Joel had predicted that in the twilight of this age that we are experiencing, many people of all kinds would have intuitive, premonitory and prophetic dreams and visions. I always believed that there were messages in dreams, but I did not know how to interpret what I dreamed, and as time passed I assumed that it was rash to give deliberate interpretations to dreams; but after certain incidents in my family life I began to consider it important not to discard this service that our 'esenaurs' (guardian angels) provide us.

The Chaos Conundrum Aaron John Gulyas, 2014-01-23 In *The Chaos Conundrum*, historian Aaron John Gulyas examines how the paranormal has intersected and influenced our culture in myriad ways, from the conspiracy beliefs of William Cooper and Exopolitics to the challenge that the stories of Gray Barker presented to our concept of self and time. He looks at the maelstrom of personalities, agendas, impressions, data, confusion, and contradictions that can be found in the world of the weird, and demonstrates how they have become an integral part of our lives, whether in the form of flying saucers, hauntings, religious revelations, psychic abilities, or dozens of other guises. Gulyas delves into the stories of the people who have attempted to create order out of the chaos. Along the way he recounts his own journey from enthusiastic believer in the shadow government and their underground bases to jaded academic skeptic, and then finally to someone who thinks there might just be something to the paranormal after all... but not what we have been led to expect or believe!
