Critical Dilemma Neil Shenvi, Pat Sawyer, 2023-10-03 World Magazine 2023 Book of the Year Where Are Critical Theory and the Social Justice Movement Taking Us? Critical theory and its expression in fields such as critical race theory, critical pedagogy, and queer theory are having a profound impact on our culture. Contemporary critical theory's ideas about race, class, gender, identity, and justice have dramatically shaped how people think, act, and view one another—in Christian and secular spheres alike. In *Critical Dilemma*, authors Neil Shenvi and Pat Sawyer illuminate the origins and influences of contemporary critical theory, considering it in the light of clear reason and biblical orthodoxy. While acknowledging that it can provide some legitimate insights regarding race, class, and gender, *Critical Dilemma* exposes the false assumptions at the heart of critical theory, arguing that it poses a serious threat to both the church and society at large. Drawing on exhaustive research and careful analysis, Shenvi and Sawyer condemn racism, urge Christians to seek justice, and offer a path forward for racial healing and unity while also opposing critical theory's manifold errors.

The Crisis of Connection Niobe Way, Alisha Ali, Carol Gilligan, Pedro Noguera, 2020-01-07 A collection of essays that examine the causes of and provide solutions to the widespread alienation and disconnection that beset modern society. Since the beginning of the 21st century, people have become increasingly disconnected from themselves, each other, and the world around them. A “crisis of connection” stemming from growing alienation, social isolation, and fragmentation characterizes modern society. The signs of this crisis of connection are everywhere, from decreasing levels of empathy and trust, to burgeoning cases of suicide, depression and loneliness. The astronomical rise in inequality around the world has contributed to the critical nature of this moment. To delve into the heart of the crisis, leading researchers and practitioners draw from the science of human connection to tell a five-part story about its roots, consequences, and solutions. In doing so, they reveal how we, in modern society, have been captive to a false narrative that takes individualism as a universal truth. The new story now emerging from across the human sciences underscores our social and emotional capacities and needs. The science also reveals the ways in which the privileging of the self over relationships and of individual success over the common good as well as the perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread. Finally, the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world. “This profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable, loving relationships is the antidote to rising fear and anxiety.” —Lyn Mikel Brown, author of *Powered by Girl*

The Bloomsbury Handbook to Cold War Literary Cultures Greg Barnhisel,2022-06-30 Adopting a unique historical approach to its subject and with a particular focus on the institutions involved in the creation, dissemination, and reception of literature, this handbook surveys the way in which the Cold War shaped literature and literary production, and how literature affected the course of the Cold War. To do so, in addition to more 'traditional' sources it uses institutions like MFA programs, university literature departments, book-review sections of newspapers, publishing houses, non-governmental cultural agencies, libraries, and literary magazines as a way to understand works of the period differently. Broad in both their geographical range and the range of writers they cover, the book's essays examine works of mainstream American literary fiction from writers such as Roth, Updike and Faulkner, as well as moving beyond the U.S. and the U.K. to detail how writers and readers from countries including, but not limited to, Taiwan, Japan, Uganda, South Africa, India, Cuba, the USSR, and the Czech Republic engaged with and contributed to Anglo-American literary texts and institutions.
