**Hitchcock's Music** Jack Sullivan, 2020-08-11 A wonderfully coherent, comprehensive, groundbreaking, and thoroughly engaging study of how the director of *Psycho* and *The Birds* used music in his films (Sidney Gottlieb, editor of *Hitchcock on Hitchcock*). Alfred Hitchcock employed more musical styles and techniques than any film director in history, from Marlene Dietrich singing Cole Porter in *Stage Fright* to the revolutionary electronic soundtrack of *The Birds*. Many of his films—including *Notorious*, *Rear Window*, *Vertigo*, *North by Northwest*, and *Psycho*—are landmarks in the history of film music. Now author and musicologist Jack Sullivan presents the first in-depth study of the role music plays in Hitchcock's films. Based on extensive interviews with composers, writers, and actors, as well as archival research, Sullivan discusses how Hitchcock used music to influence his cinematic atmospheres, characterizations, and even storylines. Sullivan examines the

director's relationships with various composers, especially Bernard Herrmann, and tells the stories behind some of their now-iconic musical choices. Covering the entire director's career, from the early British works up to Family Plot, this engaging work will change the way we watch—and listen—to Hitchcock's movies.

Dvorak to Duke Ellington Maurice Peress,2004-03-25 Prominent symphony conductor Maurice Peress describes his career conducting the premiers of such works as Leonard Bernstein's 'Mass' and Duke Ellington's 'Queenie Pie'. He traces the great impact of African American music on American music, beginning with the work of Antonin Dvořák.

Experiencing Film Music Kenneth LaFave,2017-04-01 Of all the elements that combine to make movies, music sometimes seems the forgotten stepchild. Yet it is an integral part of the cinematic experience. Minimized as mere “background music,” film scores enrich visuals with emotional mood and intensity, underscoring directors’ intentions, enhancing audiences’ reactions, driving the narrative forward, and sometimes even subverting all three. Trying to imagine The Godfather or Lawrence of Arabia with a different score is as difficult as imagining them featuring a different cast. In Experiencing Film Music: A Listener’s Companion, Kenneth LaFave guides the reader through the history, ideas, personalities, and visions that have shaped the music we hear on the big screen. Looking back to the music improvised for early silent movies, LaFave traces the development of the film score from such early epic masterpieces as Max Steiner’s work for Gone With the Wind, Bernard Herrmann’s musical creations for Alfred Hitchcock’s thrillers, Jerry Goldsmith’s sonic presentation of Chinatown, and Ennio Morricone’s distinctive rewrite of the Western genre, to John Williams’ epoch-making Jaws and Star Wars. LaFave also brings readers into the present with looks at the work over the last decade and a half of Hans Zimmer, Alan Silvestre, Carter Brey, and Danny Elfman. Experiencing Film Music: A Listener’s Companion opens the ears of film-goers to the nuance behind movie music, laying out in simple, non-technical language how composers and directors map what we hear to what we see—and, not uncommonly, back again.

**The Quiet** Barnaby Martin,2025-05-15 ‘Riveting. Martin weaves an inspired premise into an engrossing and wholly

original adventure.' – Ernest Cline, author of Ready Player One 'An intellectually compelling, emotional and timely read. Martin has taken a motif of dystopian writing and films – a single parent and child – and has reworked it within a fresh landscape. The Quiet is a feat of writing that foregrounds the value of kindness and communication in a world bent on segregation and misinformation.' – The Bookseller \* \* \* A mother's love can be deafening . . . Isaac is Hannah's entire world. She knows that her son is gifted, and that those gifts make him vulnerable. To keep him safe, she spends every waking moment by his side. If she lets her guard down, lets him out of her sight, lets him show what he's capable of, he will be taken from her. When the Soundfield arrived twenty years ago, the world changed with it. Now, people are forced to live at night due to the deadly heat of the day, food and water are scarce, and everyday life is punctuated by the constant and disconcerting hum from the Field. A brilliant scientist, Hannah spent her early career working on the enigma of the Soundfield, looking for answers; now, resigned, she has focussed all her energies on keeping Isaac living, not just alive. To do so, she will have to lie to the people she knows and hope she can trust the ones she doesn't. Because the only thing more dangerous than her lies, is the truth of what she has done. \* \* \* 'As fascinating as it was terrifying.' – Holly Seddon, author of The Woman on the Bridge "The Quiet took my breath away. gripping, fiercely intelligent and quietly heartbreaking. I will think of Isaac for a long time to come' – Emma Kavanagh, author of To Catch A Killer 'A clever and unique dystopian premise, this was spare and tense, gripping and heartbreaking' – Louise Swanson, author of End of Story

*Bach at Leipzig* Itamar Moses, 2008 Leipzig, Germany 1722 -- where Johann Kuhnau, revered organist of the Thomaskirche, suddenly dies, leaving his post vacant. The town council invites musicians from across to audition for the coveted position, among them young Johann Sebastian Bach. In an age where musicians depend on patronage from the nobility or the church to pursue their craft, the post at a prominent church in a cultured city is a near guarantee of fame and fortune -- which is why some of the candidates are willing to resort to any lengths to secure it. Bach in Leipzig is a fugue-like farcical web of bribery, blackmail, and betrayal set against the background of Enlightenment questions about humanity, God, and art.--

*Sound in the American Horror Film* Jeffrey Bullins,2024-07-11 The crack of thunder, a blood-curdling scream, creaking doors, or maybe complete silence. Sounds such as these have helped frighten and startle horror movie audiences for close to a century. Listen to a Universal classic like *Dracula* or *Frankenstein* and you will hear a very different soundtrack from contemporary horror films. So how did we get from there to here? What scared audiences then compared to now? This examination of the horror film's soundtrack builds on film sound and genre scholarship to demonstrate how horror, perhaps more than any other genre, utilizes sound to manipulate audience response. Beginning with the Universal pictures of the early 1930s and moving through the next nine decades, it explores connections and contrasts throughout the genre's technical and creative evolution. New enthusiasts or veteran fans of such varied films as *The Mummy*, *Cat People*, *The Day the Earth Stood Still*, *Psycho*, *Halloween*, *A Nightmare on Elm Street*, *Scream*, *The Conjuring*, *Paranormal Activity*, and *A Quiet Place* will find plenty to explore, and perhaps a new sonic appreciation, within these pages.

**Rock and Roll Mountains** Graham Forbes,2012-04-13 Graham Forbes loved to play guitar, whether it was with local rock groups pillaging village halls or on the big stages of the world with the Incredible String Band. But, like so many others, he enjoyed the gigs, groupies and booze too much. At 27, he found himself back in Glasgow, ears ringing, scratching his head, completely unemployable, with an empty bottle of tequila in one hand and a huge tax demand in the other. It had been great while it lasted but the party was over. Realising his mind was like an out-of-control firework display and that his next stop was the Happy Duck Rest Home for the Bewildered, Graham noticed there were hills nearby and decided to go for a walk. Just as it seemed he might at last settle down to some sort of normal life he met a crazy climber with a taste for the bizarre . . . It was the beginning of a journey that would transform Graham completely, taking him from poverty to bluffing his way onto the board of directors of a national company, hoping that their next meeting wouldn't be in a hotel he'd wrecked in his previous life. Roaring along with bawdy tales of marauding bands, mad mountaineers and unforgettable Glasgow street characters, *Rock and Roll Mountains* weaves through wild rock tours and terrifying ice climbing to glowing sunsets on some

of the most beautiful summits in the world. It is a book about extreme sport, fear and survival - but without the the gung-ho heroics of mountaineering writers. At times deeply moving, insightful yet hilarious and with an extraordinary climax, this book is for anyone who has looked in the mirror and wondered where it all went wrong . . . Above all, it is very, very funny.

**Vaughan Williams** Keith Alldritt,2017-05-31 The ground-breaking biography of Ralph Vaughan Williams reveals more than any other the man behind the music. The author examines the considerable range of Vaughan Williams's work, from the English pastoral tradition to Modernism, and shows how Vaughan Williams was influenced by the Boer War, the economic depression after the First World War, the deprivations of the Blitz, and the austerity of the Cold War. He also reveals how the greatest influence on Vaughan Williams's music and creative development was his personal life, involving his seemingly secure marriage and an equally enduring love affair. The author shows how these reflected both the stability and cutting-edge aspects of his music. Like a great symphony, this book ranges from doubt to inspiration. It is the most complete biography of one of Britain's greatest composers and will be of interest to historians, students of music and Vaughan Williams enthusiasts.

The Classical Music Lover's Companion to Orchestral Music Robert Philip,2018-01-01 An invaluable guide for lovers of

classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.

*Hollywood's Ancient Worlds* Jeffrey Richards, 2008-07-01 Jeffrey Richards examines the cultural, social, economic and technological circumstances that dictated the rise and decline of each successive cycle of Ancient World epics, from the silent film era, to the golden age of the 1950s, right up to the present day (*Gladiator*, *300*, *Rome*). Analysis reveals that historical films are always as much about the time in which they are made as they are about the time in which they are set. The ancient world is often used to deliver messages to the contemporary audience about the present: hostility to totalitarian regimes both Fascist and Communist, concern at the decline of Christianity, support for the new state of Israel, celebrations of equality and democracy, and concern about changing gender roles. The whole adds up to a fresh look at a body of films that people think they know, but about which they will learn a good deal more.

**James Newton Howard's Signs** Erik Heine, 2016-01-14 Released in 2002, M. Night Shyamalan's *Signs* was the director's follow-up to *The Sixth Sense* and *Unbreakable*, and his third collaboration with composer James Newton Howard. Well received by audiences and critics alike, the film was often cited by reviewers for its music. With its dependence on a single motive, the score is unique in Howard's career, and one of his most effective and haunting works. In *James Newton Howard's Signs: A Film Score Guide*, Erik Heine provides the first close reading of the composer's work. Heine discusses Howard's musical style and influences, as well as his ability to compose for a variety of genres, acknowledging him as one of the most versatile composers working today. The book shows how early sketches of cues for *Signs* were developed into the final score, allowing the reader insight into Howard's compositional process. The book also demonstrates how Howard's style is difficult to pigeonhole, since his focus is on serving the needs of the film. Drawing on completed orchestrated scores, as well as other material from the James Newton Howard Archive at the University of Southern California, the level of musical detail provided in this volume is unsurpassed. As a book that addresses Howard's compositional style—and the only volume that significantly examines the music in any Shyamalan film—*James Newton Howard's Signs: A Film Score Guide* will be of

interest to music scholars, film scholars, and fans of the composer's work.
