Health, Wealth and Happiness Emeritus Professor (Dr) Gary Goh,2019-01-09 Health, Wealth and Happiness By: Emeritus Professor (Dr) Gary Goh The age in which we live seems to be consumed by money madness. Thus, people work very hard to acquire wealth and neglect their health. They forget that ill health leads to loss of the acquired wealth because they need to pay the high medical costs to seek medical treatment and they have to experience suffering, sorrow, pain, fear and death. Life is a precious gift not to be wasted. To live properly in this reality, we must not ignore that health is equally important to wealth because without health, one cannot enjoy wealth and without wealth, one cannot survive since everyone needs shelter, food, clothing and medical support. Living in a reality that is constantly changing, we need to have a source of constancy in the mind on health, wealth and happiness to achieve a peaceful and contented life. This book is about how to achieve success in life through finding a peace of mind, acquire the material needs of life and, above all, attain happiness since we only have one chance to live in life.

Digital Femininities Frankie Rogan, 2022-07-01 *Digital Femininities: The Gendered Construction of Cultural and Political Identities* Online examines the role of new media technologies in the production of girls' cultural and political identities. The book argues that the varied and complex spaces which make up our 'social media' should be conceptualised as important terrains upon which neoliberal and postfeminist subjectivities can be both reproduced and subverted. In doing so, the book explores many key issues underpinning current debates around gender politics and digital media, including gendered spatial politics, visibility, surveillance and regulation, beauty politics, and civic and political engagement and activism. Over the last decade, the position of girls and young women within the digital landscape of social media has been a topic of much debate. On the one hand, girls' social media practices are presented as a key site of concern, wherein new digital technologies are said to have produced an intensification of individualised, neoliberal and postfeminist identities. Conversely, others have championed access to social media for young people as a potentially useful political tool, enabling previously marginalised political subjects (such as girls) to access and participate within new and exciting political cultures. Locating itself at the intersection of these two approaches, this book offers a fresh contribution to these debates. Based upon the findings from focus groups with girls and young women aged between 12 and 18 in England, the book offers an in-depth analysis of the digital cultures that emerged from the study. This timely book will be essential reading for anyone interested in contemporary femininity and feminism and the role of digital media in the production of cultural, political and gendered identities.

Following Jesus Blake Ferriss,2019-05-15 Jesus spoke to the people once more and said, "I am the light of the world. If you follow me, you won't have to walk in darkness, because you will have the light that leads to life." John 8:12, NLT Following Jesus: An Approach to Christian Spirituality provides a basis for understanding how the Lordship of Christ is the essential criterion for determining how Christianity functions as a relational experience with God. With that relational experience, for the believer in Christ, being the product of supernatural experience with the Holy Spirit. The book functions as an organizing tool to be used for a conscientious inquiry into how a Christian worldview operates in four relational categories of experience. With these relational categories act as a basis for understanding how our choices affect our lives, and our futures, both now and in life, and eternally, and how it is that God loves us and will give our lives the meaning and purpose that we all long for.

Emotional Discipline Charles C. Manz,2009-03 This realistic guide to living and working with a sense of pleasure and

empowerment stresses taking responsibility for feelings, doing things now that will fill an emotional reservoir for later use, reacting to emotionally challenging situations in balanced ways, and making choices to effectively deal with challenges as they arise. A five-step Emotional Discipline process helps readers identify the cause of emotional upset; focus on their body to analyze what they are feeling; focus on their mind, identifying thoughts and the beliefs that are driving them; and choose and apply an emotional discipline strategy. The book's 25 tactics reinforce the concept that a satisfying, energetic life depends on being able to make emotional choices.

MY WAY TO HAPPINESS Anita Bakshi, 2020-07-22 Are you happy? Do you sleep well, eat well, and appreciate what you have? Or are you just going through the motions of living? Life means different things to all of us. For some, it is a very serious business, and for some, it is fun and games. But, all said and done, the quest for that one elusive element, happiness, is something that we all pursue. We try to find it in our own way, inside us, outside, in material things, in our relationships, and in all the things we strive to achieve. For all that enterprise, people who are successful in the worldly sense often feel a degree of alienation and sadness in life. Stress, anxiety, and fear rule our lives. How do we get happier? While there is no one miracle formula or shortcut to happiness, there are definitely many little paths one can tread in an attempt to get to that goal. My Way to Happiness is about understanding happiness and getting to it.

Pretty Sane Nicola Wall, 2020-08-28 'I always knew I was somewhat different without knowing exactly how. My earliest memory is being given a doll on my third birthday. One day around that time I am looking at a picture of a deer when it turns and runs towards me. There is a cushion with a peacock on it, it comes straight out at me. A woman in a painting turns her head to look at me, her eyes staring into mine until I squeak and run out of the room. It does not matter where I am - at home, my grandparent's house or my aunt's - pictures and paintings move around and then right themselves as soon as I attempt to show anyone. Whenever a picture turns itself into a television, I drag an adult by the hand to show them the magic painting, only to look like a liar when it fails to perform. I finally catch one in the act; my grandad John and I stand in front of the deer painting while it shakes its head and slowly stalks forward. The deer isn't moving, Nicola; it's just your imagination, he tells me. Next, come the voices.'
