"a 100" vs "100" - *English Language & Usage Stack Exchange* Aug 24, 2016 · The flow rate increases 100-fold (one hundred-fold) Would be a more idiomatic way of saying this, however, the questioner asks specifically about the original phrasing. The above Ngram search would suggest that a one hundred has always been less frequently used in written language and as such should probably be avoided. Your other suggestion of by one ... **Is it proper to state percentages greater than 100%?** **[closed]** People often say that percentages greater than 100 make no sense because you can't have more than all of something. This is simply silly and mathematically ignorant. A percentage is just a ratio between two numbers. There are many situations where it is perfectly reasonable for the numerator of a fraction to be greater than the denominator. **Origin of the phrase, "There's more than one way to skin a cat."** Jun 30, 2011 · I couldn't find any use of the phrase earlier than the 1840 Money Diggers reference, but I did find some background to which the saying might refer. Apparently the debate on cat-skinning boiled down to whether or not it was done while the cat was still alive. Here's a clip from the disturbing House of Commons' Minutes of Evidence Taken Before Committee on Bill for ... **Why is "a 100% increase" the same amount as "a two-fold ...** Nov 15, 2012 · 24 Yes, the correct usage is that 100% increase is the same as a two-fold increase. The reason is that when using percentages we are referring to the difference between the final amount and the initial amount as a fraction (or percent) of the original amount. Does a percentage quantity take singular or plural verb ... Sep 12, 2015 · Does a percentage require a singular or plural verb, for example, do we say ten percent "go" or "goes"? *How to write numbers and percentage?* - *English Language* May 20, 2019 · [Relevant examples;] 1% [;] 45% [;] 100% In discussions involving infrequent use of numbers you may spell out a percentage or an amount of money if you can do so in three words or fewer (five dollars, forty-five percent, two thousand dollars, sixty-eight cents). **Correct usage of lbs. as in "pounds" of weight** May 4, 2013 · Assuming it's not casual usage, I'd recommend "All items over five pounds are excluded," instead. Most style guides recommend spelling out numbers of ten or less, and in such a case I'd spell out the unit, too. **Should it be 10 US\$ or US\$ 10? - English Language & Usage ...** May 21, 2011 · Which is correct to use in a sentence, 10 US\$ or US\$ 10. Perhaps USD should be used instead or even something else? What was the first use of the saying, "You miss 100% of the shots ... You miss 100 percent of the shots you don't take. 1991 Burton W. Kanter, "AARP—Asset Accumulation, Retention and Protection," *Taxes* 69: 717: "Wayne Gretzky, relating the comment of one of his early coaches who, frustrated

by his lack of scoring in an important game told him, 'You miss 100% of the shots you never take.'" ... "6-foot tall" or "6-feet tall"? - English Language Learners Stack ...
