Mel Gurtov

A Farewell to Arms? Michael Cox, Adrian Guelke, Fiona Stephen, 2006-04-18 This comprehensive and original study is the first to explain in detail how the Good Friday Agreement ran into trouble, why we are still some way from a final settlement, but why a return to war is most unlikely--even in an age where global terror now threatens world order more seriously than at any time in the past. This new edition of an established, authoritative text will be essential reading for students, researchers and academics of Irish politics, conflict and peace studies, and international relations.

Inheriting the Bomb Mariana Budjeryn,2022-12-27 The collapse of the Soviet Union unleashed the specter of the largest wave of nuclear proliferation in history. Why did Ukraine ultimately choose the path of nuclear disarmament? The collapse of the Soviet Union in 1991 left its nearly 30,000 nuclear weapons spread over the territories of four newly sovereign states: Belarus, Kazakhstan, the Russian Federation, and Ukraine. This collapse cast a shadow of profound ambiguity over the fate of the world's largest arsenal of the deadliest weapons ever created. In *Inheriting the Bomb*, Mariana Budjeryn reexamines the history of nuclear predicament caused by the Soviet collapse and the subsequent nuclear disarmament of the non-Russian Soviet successor states. Although Belarus and Kazakhstan renounced their claim to Soviet nuclear weapons, Ukraine proved to be a difficult case: with its demand for recognition as a lawful successor state of the

USSR, a nuclear superpower, the country became a major proliferation concern. And yet by 1994, Ukraine had acceded to the Treaty on the Non-proliferation of Nuclear Weapons (NPT) as a non-nuclear-weapon state and proceeded to transfer its nuclear warheads to Russia, which emerged as the sole nuclear successor of the USSR. How was this international proliferation crisis averted? Drawing on extensive archival research in the former Soviet Union and the United States, Budjeryn uncovers a fuller and more nuanced narrative of post-Soviet denuclearization. She reconstructs Ukraine's path to nuclear disarmament to understand how its leaders made sense of the nuclear armaments their country inherited. Among the various factors that contributed to Ukraine's nuclear renunciation, including diplomatic pressure from the United States and Russia and domestic economic woes, the NPT stands out as a salient force that provided an international framework for managing the Soviet nuclear collapse.

A Farewell to Wars Hans Blix, 2023-11-23 Analyses different kinds of restraints- military, legal, economic, diplomatic - to the interstate use of force.

The European Union's Nuclear Non-proliferation Policy Manuel Herrera, 2025-04-15 This book looks at European Union (EU) attempts to manage the risks associated with nuclear non-proliferation and assesses its performance and external challenges. The introductory section delves into current academic scholarship, elucidating the concepts of contestation and performance. The second section provides an overview of the historical and institutional evolution, and the third scrutinizes the performance. The final section examines present policy, with case studies on the EU's bilateral relations with Iran and India. Adopting a focus on both the development and performance of the EU's non-proliferation and disarmament policy, as well as its contestation from non-Western countries, this book provides a solid and innovative contribution to existing debates on both the EU's non-proliferation and foreign policy. The book will appeal to scholars, researchers and practitioners of International Relations, European Union Studies and Nuclear Non-Proliferation, as it provides an analysis of the intricacy of the EU's non-proliferation policy, offering fresh perspectives and empirical evidence.

Narrative as Rhetoric James Phelan, 1996 The rhetorical theory of narrative that emerges from these investigations emphasizes the recursive relationships between authorial agency, textual phenomena, and reader response, even as it remains open to insights from a range of critical approaches - including feminism, psychoanalysis, Bakhtinian linguistics, and cultural studies. The rhetorical criticism Phelan advocates and employs seeks, above all, to attend carefully to the multiple demands of reading sophisticated narrative; for that reason, his rhetorical theory moves less toward predictions about the relationships between techniques, ethics, and ideologies and more toward developing some principles and concepts that allow us to recognize the complex diversity of narrative art.

The Routledge Handbook of Irish Criminology Deirdre Healy, Claire Hamilton, Yvonne Daly, Michelle Butler, 2015-12-14 This book charts the contours of the criminological enterprise in Ireland and brings together

internationally recognized experts to discuss theory, research, policy and practice on a range of topics and in an international context.

Dismantling the Iraqi Nuclear Programme Gudrun Harrer, 2014-04-03 This book is an authoritative account of the nuclear weapons inspections regime in Iraq from 1991 to 1998. Without a proper understanding of those years, the 2003 US invasion of Iraq after a futile WMD search remain unintelligible. In the 1990s, after adapting to a completely new kind of intrusive inspections with unprecedented access rights, the IAEA discovered and dismantled Iraq's clandestine nuclear weapons program and put in place an efficient monitoring system which could have contained Saddam Hussein's attempts to reconstitute his nuclear programs - had he ever tried to. However, the politicisation of the inspection process led to an end of the inspections in 1998. Based on various sources including inspection reports and other documents in the archive of the IAEA Iraq Action Team at the IAEA headquarters in Vienna, *Dismantling the Iraqi Nuclear Programme* presents completely new information about the weapons inspection regime in Iraq and offers valuable lessons for future non-proliferation and disarmament cases. The book also draws on discourse from Iraqi scientists, which provides a close look into not only the motivation of involved Iraqis, but also Iraqi concealment mechanisms. This book will be of much interest to students of nuclear proliferation, arms control, Middle Eastern politics, diplomacy, international security and IR.

Engaging Adversaries Mel Gurtov, 2018-01-26 This groundbreaking book explores how adversaries in world politics can surmount their differences and disputes and start on the path to peaceful, mutually productive relations. Writing with authority and clarity, Mel Gurtov defines the strategy of deep engagement, examines how it progressed under President Obama with Cuba and Iran, and probes its potential for US-Russian and US-North Korean relations and other critical hotspots. At the core of the book are case studies that highlight the strategy and practice of engagement in both successful and failed efforts. Showing that domestic political obstacles turn out to be more formidable than strategic interests when national leaders seek to engage adversaries, Gurtov draws lessons for diplomacy in ways to engage, such as practicing mutual respect, paying attention to symbols, and using incentives rather than sanctions. At a time when use of force remains the main way governments pursue their interests, *Engaging Adversaries* is a timely appeal to diplomacy and a reminder that a multitude of ways exist for adversaries to find common ground.
