Looking at the Lights Pete Gas,2017-03-21 How did an untrained former college football player end up in the middle of a ring, wrestling during the highest-rated segment during the WWE's acclaimed Attitude Era? That's the story behind *Looking at the Lights*. As a childhood friend of Shane McMahon, Pete Gas was given the opportunity most only pray for. Beginning with appearances to interfere in McMahon's matches, his role blossomed into becoming a full-fledge wrestler and leading the

Mean Street Posse to WrestleMania, becoming one of the most fascinating success stories of the era. From his humble upbringing and friendship with Shane (and the McMahon family as a whole), Gas shares how a 9-to-5 average Joe got the chance of a lifetime and made the most out of it. But getting your foot in the door is one thing; staying is a completely different animal. With all eyes on him, knowing his lack of training and meal ticket being the boss's son, Gas knew he had to win over all those doubters: from the fans and announcers to the wrestlers themselves. Knowing he had to prove himself, Gas took beatings, chair shots, and additional training to not only show that he could wrestle, but that he belonged with such superstars as The Rock, "Stone Cold" Steve Austin, and The Undertaker. Featuring forewords by Edge and JBL, who famously nailed Gas in the head with a steel chair, readers will get an inside look into not only the training and sacrifice these athletes go through, but the behind-the-scenes workings of a day in the WWE.

Basic Modern Philosophy of Religion Frederick Ferré, 2013-06-19 This book provides a reasoned, comprehensive understanding of what religion is as well as a clear and critical assessment of whether, in the light of modern developments in philosophy, contemporary thinking people can responsibly maintain religious belief in God. The book is divided into three major sections: the first deals with what all religions may be said to have in common; the second discusses theistic religion and the issue of intellectually responsible belief in God; the third examines current developments within a particular theistic religion, Christianity. Originally published in 1968, the book is basic, both in the nature of the issues it discusses and in the clarity and comprehensiveness of its presentation; it is varied in the arguments and perspectives dealt with; it provides an introduction to philosophical thinking through the problems of philosophy of religion; and it deals seriously with controversial

movements in theology.

The Science of the Cross Saint Edith Stein, Josephine Koeppel OCD, 2002-03-10 To help celebrate the fourth centenary of the birth of St. John of the Cross in 1542, Edith Stein received the task of preparing a study of his writings. She uses her skill as a philosopher to enter into an illuminating reflection on the difference between the two symbols of cross and night. Pointing out how entering the night is synonymous with carrying the cross, she provides a condensed presentation of John's thought on the active and passive nights, as discussed in *The Ascent of Mount Carmel* and *The Dark Night*. All of this leads Edith to speak of the glory of resurrection that the soul shares, through a unitive contemplation described chiefly in *The Living Flame of Love*. In the summer of 1942, the Nazis without warrant took Edith away. The nuns found the manuscript of this profound study lying open in her room.

The Science of the Cross Edith Stein, 2002 Overview: To help celebrate the fourth centenary of the birth of St. John of the Cross in 1542, Edith Stein received the task of preparing a study of his writings. She uses her skill as a philosopher to enter into an illuminating reflection on the difference between the two symbols of cross and night. Pointing out how entering the night is synonymous with carrying the cross, she provides a condensed presentation of John's thought on the active and passive nights, as discussed in *The Ascent of Mount Carmel* and *The Dark Night*. All of this leads Edith to speak of the glory of resurrection that the soul shares, through a unitive contemplation described chiefly in *The Living Flame of Love*. In the summer of 1942, the Nazis without warrant took Edith away. The nuns found the manuscript of this profound study lying open in her room. Because of the Nazis' merciless persecution of Jews in Germany, Edith Stein traveled discreetly across the border into Holland to find safe harbor in the Carmel of Echt. But the Nazi invasion of Holland in 1940 again put Edith in danger. The cross weighed down heavily as those of Jewish birth were harassed. Sr. Teresa Benedicta of the Cross's superiors then assigned her a task they thought would take her mind off the threatening situation. The fourth centenary of the birth, of St. John of the Cross (1542) was approaching, and Edith could surely contribute a valuable study for the celebration. It is no surprise that in view of her circumstances she discovered in the subject of the cross a central viewpoint for her study. A subject like this enabled her to grasp John's unity of being as expressed in his life and works. Using her training in phenomenology, she helps the reader apprehend the difference in the symbolic character of cross and night and why the night-symbol prevails in John. She clarifies that detachment is designated by him as a night through which the soul must pass to reach union with God and points out how entering the night is equivalent to carrying the cross. Finally, in a fascinating way Edith speaks of how the heart or fountainhead of personal life, an inmost region, is present in both God and the soul and that in the spiritual marriage this inmost region is surrendered by each to the other. She observes that in the soul seized by God in contemplation all that is mortal is consumed in the fire of eternal love. The spirit as spirit is destined for immortal being, to move through fire along a path from the cross of Christ to the glory of his resurrection.

John Toland Stephen H. Daniel, 1984-10-01 Drawing on a variety of published and unpublished material representing Toland's broad interests, Professor Daniel reveals a common theme emphasizing man's capacity for independent thought on basic philosophical, religious, and political issues. Roughly chronological, Daniel's treatment describes Toland's progressive refinement of this fundamental aspect of his thought. After examining, in his early works, the process whereby religion becomes mystified, Toland turned to biography, demonstrating that through it one can regain rational control over religion. Prejudices and superstitions, topics of the Letters to Serena, are shown to be overcome through corrections implicit in the principles of biographical and historical exegesis. Polemic as philosophic method required Toland to provide a doctrine of esoteric communication. In the course of his later writings this doctrine became grounded in a metaphysics suitable for the Ciceronian religion of the pantheists.
