The Theatre of Antonio Buero Vallejo Catherine O'Leary, 2005 This monograph examines the complex relationship between Antonio Buero Vallejo [1916 - 2000] and the ideologies of Francoist and post-Franco Spain. This monograph examines the complex relationship between Antonio Buero Vallejo [1916 - 2000] and the ideologies of Francoist and post-Franco Spain. The central focus of the study is Buero's political theatre and his employment of myth and history to challenge the notion of an España eterna. It also considers Buero's creation of his own myths and his revision of history in order to rationalize and justify his own stance. In his determination to write and stage committed drama in a repressive society, Buero's choice, with its inherent contradictions and ambiguities, was posibilismo. This book looks at this pragmatic employment of language and silence, both in his art and in his dealings with the censors and with other representatives of the hegemony and analyses how posibilismo both aided and limited him. The monograph also considers Buero's neglected post-Franco theatre, examining the reasons for its initial negative reception and its renewed importance in today's Spain. In these days of digging up the past, Buero's post-Franco insistence on rejecting the pacto de olvido is perhaps more relevant than ever before. La generación del 98 frente al nuevo fin de siglo Jesús Torrecilla, 2000 ¿Pueden tener proyección universal los autores de una generación que, como se venía defendiendo tradicionalmente, reaccionan a problemas específicos de la situación histórica de su país? Esta es la pregunta decisiva que se han formulado los estudiosos de la Generación del 98 en las últimas décadas. La contestación ha sido doble. Un buen número de críticos, bien representados en este volumen, han propuesto la necesidad de liminar el término Generación del 98 y englobar a sus escritores en el marco más amplio del Modernismo europeo, poniendo de relieve la existencia entre ambos movimientos de un mismo espíritu de época. Otros, por el contrario, fundándose en la existencia de relaciones de poder entre sociedades, han señalado que el espíritu de una época se refleja de manera diferente en el centro que en la periferia, aunque ello no significa que los problemas relacionados con la marginalidad sean menos universales que los que atañen a los países hegemónicos. Ambas actitudes se manifiestan en el presente volumen, destinado a todos aquellos especialistas interesados en la definición de la Generación del 98 y sus relaciones con el Modernismo europeo.

José Ortega Spottorno (1916-2016). Un editor, puente entre generaciones Varios Autores,2016-11-24 José Ortega Spottorno, el menor de los tres hijos de José Ortega y Gasset, compaginó a lo largo de toda su vida el empeño en conservar, difundir y, en su labor editorial, continuar la obra de su padre, reanudando las actividades de Revista de Occidente, e impulsando la creación de iniciativas propias. Con un talante auténticamente liberal, laico y siempre discreto, fundó Alianza Editorial en 1966 y lanzó el diario El País diez años después. Tendió puentes culturales entre la generación de intelectuales, artistas y escritores que habían acompañado a su padre en las primeras décadas del siglo XX, la llamada Edad de Plata de la cultura española, y las generaciones más jóvenes que despertaban en la dura España de la posguerra y, sobre todo, las que crecieron y se educaron en los años cincuenta y sesenta, y fueron actores y protagonistas de la Transición a la democracia. En este libro, coordinado por Mercedes Cabrera, que conmemora el centenario de su nacimiento, se ha recogido el análisis y testimonio de filósofos, historiadores y escritores, además de amigos, que le conocieron personalmente o cuyos trabajos de investigación han tenido como objeto el tiempo que le tocó vivir y sus empresas. También se incluyen escritos y documentos del propio Ortega Spottorno. Como escribió Javier Pradera en su necrológica, José Ortega Spottorno, ese gran emprendedor en la sombra, tiene su lugar en el Olimpo de la fama entre esos hombres ilustres que «consagran vocacionalmente su vida a difundir, conservar o promover las obras ajenas». Este volumen supone un extenso recorrido por el teatro español del siglo XX y evidencia con la adecuada perspectiva sus

principales hitos, corrientes y claves. Con mirada plural, se abordan realidades como la censura o el exilio, que tan radicalmente afectaron al estudio y la práctica teatrales, o la presencia y la contribución fundamental de las mujeres, siempre intentando responder al reto de lograr una visión totalizadora del hecho teatral.
