**Blinded By The White** Jill Mesmer,2021-03-06 Essays on confronting racism both in obvious and not-so-obvious places.

**Blinded by the Whites** David H. Ikard,2013-10-28 The election of Barack Obama gave political currency to the (white) idea that Americans now live in a post-racial society. But the persistence of racial profiling, economic inequality between blacks and whites, disproportionate numbers of black prisoners, and disparities in health and access to healthcare suggest there is more to the story. David H. Ikard addresses these issues in an effort to give voice to the challenges faced by most African Americans and to make legible the shifting discourse of white supremacist ideology—including post-racialism and colorblind politics—that frustrates black self-determination, agency, and empowerment in the 21st century. Ikard tackles these concerns from various perspectives, chief among them black feminism. He argues that all oppressions (of race, gender, class, sexual orientation) intersect and must be confronted to upset the status quo.

Blinded by Sight Osagie Obasogie,2013-12-11 Colorblindness has become an integral part of the national conversation on race in America. Given the assumptions behind this influential metaphor—that being blind to race will lead to racial equality—it's curious that, until now, we have not considered if or how the blind see race. Most sighted people assume that the answer is obvious: they don't, and are therefore incapable of racial bias—an example that the sighted community should presumably follow. In *Blinded by Sight*, Osagie K. Obasogie shares a startling observation made during discussions with people from all walks of life who have been blind since birth: even the blind aren't colorblind—blind people understand race visually, just like everyone else. Ask a blind person what race is, and they will more than likely refer to visual cues such as skin color. Obasogie finds that, because blind people think about race visually, they orient their lives around these understandings in terms of who they are friends with, who they date, and much more. In *Blinded by Sight*, Obasogie argues that rather than being visually obvious, both blind and sighted people are socialized to see race in particular ways, even to a point where blind people see race. So what does this mean for how we live and the laws that govern our society? Obasogie delves into these questions and uncovers how color blindness in law, public policy, and culture will not lead us to any imagined racial utopia.

**Blinded by the White** Douglas Walker,2023-05-09 2nd book from the tales from the edge series by Douglas A. Walker.

White Bound Matthew Hughey,2012-08-22 Discussions of race are inevitably fraught with tension, both in opinion and

positioning. Too frequently, debates are framed as clear points of opposition—us versus them. And when considering white racial identity, a split between progressive movements and a neoconservative backlash is all too frequently assumed. Taken at face value, it would seem that whites are splintering into antagonistic groups, with differing worldviews, values, and ideological stances. *White Bound* investigates these dividing lines, questioning the very notion of a fracturing whiteness, and in so doing offers a unique view of white racial identity. Matthew Hughey spent over a year attending the meetings, reading the literature, and interviewing members of two white organizations—a white nationalist group and a white antiracist group. Though he found immediate political differences, he observed surprising similarities. Both groups make meaning of whiteness through a reliance on similar racist and reactionary stories and worldviews. On the whole, this book puts abstract beliefs and theoretical projection about the supposed fracturing of whiteness into relief against the realities of two groups never before directly compared with this much breadth and depth. By examining the similarities and differences between seemingly antithetical white groups, we see not just the many ways of being white, but how these actors make meaning of whiteness in ways that collectively reproduce both white identity and, ultimately, white supremacy.

**The Uneasy Conscience of a White Christian** Clifford Williams, 2021-12-17 Do White people bear moral responsibility for racial disparities? Are White Christians under a spiritual mandate to make racial equity a priority? Clifford Williams taught philosophy at Christian colleges for many years, including a course on race. He has journeyed alongside students as they gained insights about racism. In this book, he draws from deeply personal stories as he shows the need for White Christians to recognize the impact of racism and to cultivate key character traits which enable them to pursue racial equity. In succinct and thoughtful prose, interwoven with first-person accounts of racialized experiences by people of color, Williams describes the importance of the Golden Rule, the power and effects of racial socialization, and the harm racism does to those who harbor it. He asks the haunting question, “Why do White people react so strongly to Black power?” He explains why widespread church integration in the United States may never exist. He unpacks the concept of White identity and links police brutality to faulty moral perception. This book gently explains what White Christians need to do to make racial equity a priority.

**Playing for Power** Marvin T. Chiles, 2025-06-15 Reveals the role of amateur Black football and basketball in Virginia before integration as a form of resistance to white supremacy In *Playing for Power*, Marvin T. Chiles offers a fascinating account of amateur sports in Jim Crow Virginia, revealing how, in addition to churches, workspaces, and civil rights organizations, sports were also a key arena for Black resistance to white supremacy. Drawing from a rich trove of primary sources, Chiles recounts the development of Black football and basketball culture at the high school and college levels in Virginia from the 1890s to the early 1970s. Looking beyond their role as leisure pastimes, Chiles demonstrates how amateur sports strengthened education, neutralized class divisions, shaped Black masculinity, mentored Black male leadership,

cultivated race pride, and reflected Black desires for urban modernity. Illuminating the ways Black athletes created a world that pushed for racial progress through objective, meritocratic achievement anchored by masculine leadership and institutional success, *Playing for Power* traces how amateur sports coalesced into a key cultural institution that fostered Black Virginians' collective sense of community, achievement, and purpose during segregation, cornerstones of later advances in the Civil Rights Movement. *Playing for Power* also contributes to a larger understanding of sports history and how amateur sports became favorite American spectacles and markers of Southern identity. Chiles's groundbreaking work will interest historians, scholars, and individuals interested in the intersection of sports and civil rights and the history of Black sports during the Jim Crow era.

**Blind Man with a Pistol** Chester Himes, 2011-07-27 At once grotesquely comic and unflinchingly violent: the final entry in the trailblazing Harlem Detectives series, set in New York in the sweltering summer heat. "A sensual, surreal, cartoonishly violent and breathtakingly bawdy comic universe." —Los Angeles Times New York is sweltering in the summer heat, and Harlem is close to the boiling point. To Coffin Ed Johnson and Grave Digger Jones, at times it seems as if the whole world has gone mad. Trying, as always, to keep some kind of peace—their legendary nickel-plated Colts very much in evidence—Coffin Ed and Grave Digger find themselves pursuing two completely different cases through a maze of knifings, beatings, and riots that threaten to tear Harlem apart.

**Kubrick and Race** Joy McEntee, Elisa Pezzotta, 2025-02-18 Kubrick and Race investigates race and racism in Stanley Kubrick's oeuvre. At first glance, Kubrick's films are very white, but his work with race is complex. Sometimes he addressed race covertly, indirectly, in hidden ways, or in the background, so that race becomes a palimpsest that is visible through the foreground story. Did Kubrick repress and deny racial inequities? Do his works condone and participate in racism, or did he represent it as a lived reality? This volume asks these questions, opening a discussion that is long overdue. Operating from a clear understanding of the contemporary context, the book spans past, present, and future, offering readers a chance to witness – afresh – ways in which Kubrick and his prolific work allow one to criss-cross academic disciplines as varied as communication, literature, psychiatry, media, film, and Black studies. This collection of essays opens new routes to and from Kubrick, in and out of the academy, convincingly and exhaustively.

New Negro Politics in the Jim Crow South Claudrena N. Harold, 2016-10 This study details how the development and maturation of New Negro politics and thought were shaped not only by New York-based intellectuals and revolutionary transformations in Europe, but also by people, ideas, and organizations rooted in the South. Claudrena N. Harold probes into critical events and developments below the Mason-Dixon Line, sharpening our understanding of how many black activists—along with particular segments of the white American Left—arrived at their views on the politics of race, nationhood, and the capitalist political economy. Focusing on Garveyites, A. Philip Randolph's militant unionists, and black

anti-imperialist protest groups, among others, Harold argues that the South was a largely overlooked “incubator of black protest activity” between World War I and the Great Depression. The activity she uncovers had implications beyond the region and adds complexity to a historical moment in which black southerners provided exciting organizational models of grassroots labor activism, assisted in the revitalization of black nationalist politics, engaged in robust intellectual arguments on the future of the South, and challenged the governance of historically black colleges. To uplift the race and by extension transform the world, New Negro southerners risked social isolation, ridicule, and even death. Their stories are reminders that black southerners played a crucial role not only in African Americans’ revolutionary quest for political empowerment, ontological clarity, and existential freedom but also in the global struggle to bring forth a more just and democratic world free from racial subjugation, dehumanizing labor practices, and colonial oppression.

*Tilted: Billion Dollar Blind Spot* Gus Udo, 2024-06-14 In this compelling book, you, I, and countless others emerge as collateral damage in a system where the repercussions are not only costly but deeply personal. It unfolds as a narrative of deception and betrayal, where The American Dream collides with the harsh reality of inequality and greed. The book exposes how a venture capital system intended to foster innovation transformed into a hotbed for hubris, unveiling a multibillion-dollar financial scandal rife with recklessness, unscrupulous characters, prominent figures, and troubling practices of pattern-matching.

**Can "White" People Be Saved?** Love L. Sechrest, Johnny Ramírez-Johnson, Amos Yong, 2018-11-06 White narmativity as a way of being in the world has been parasitically joined to Christianity, and this is the ground of many of our problems today. Written by a world-class roster of scholars, this volume develops language to describe the current realities of race and racism, challenging evangelical Christianity to think more critically and constructively about race, ethnicity, migration, and mission in relation to white supremacy.

**Racism without Racists** Eduardo Bonilla-Silva, 2021-12-09 Eduardo Bonilla-Silva’s acclaimed *Racism without Racists* examines in detail how Whites talk, think, and account for the existence of racial inequality and makes clear that color-blind racism is as insidious now as ever. The sixth edition of this provocative book includes new material on systemic racism and how color-blind racism framed many issues during the COVID-19 pandemic. A revised conclusion addresses what readers can do to confront racism—both personally and on a larger structural level. New to this edition: New Chapter 2, “What is Systemic Racism? Coming to Terms with How Racism Shapes ‘All’ Whites (and Non-Whites)” explains how all members of society participate in structural racism. New Chapter 10, “Color-Blind Racism in Pandemic Times” provides coverage of racial disparities in mortality, the role of essential workers, and hunger during the pandemic – particularly how public discourse did not reflect how these problems are worse for communities of color. Updated discussion of police surveillance and violence reflects the current salience of police brutality in the U.S. and enhances the conversation on suave racial discrimination

(Chapter 3).Addresses the question, “What is to be done?” and offers White people ideas on what they can do to change themselves (Chapter 11).

**Disabilities and the Library** Clayton A. Copeland,2022-11-11 Librarians need to understand the needs and abilities of differently abled patrons, and anyone responsible for hiring and managing librarians must know how to provide an equitable environment. This book serves as an educational resource for both groups. Understanding the needs and abilities of patrons who are differently abled increases librarians' ability to serve them from childhood through adulthood. While some librarians are fortunate to have had coursework to help them understand the needs and abilities of the differently abled, many have had little experience working with this diverse group. In addition, many persons who are differently abled are-or would like to become-librarians. *Disabilities and the Library* helps readers understand the challenges faced by people who are differently abled, both as patrons and as information professionals. Readers will learn to assess their library's physical facilities, programming, staff, and continuing education to ensure that their libraries are prepared to include people of all abilities. Inclusive programming and collection development suggestions will help librarians to meet the needs of patrons and colleagues with mobility and dexterity problems, learning differences, hearing and vision limitations, sensory and cognitive challenges, autism, and more. Additional information is included about assistive and adaptive technologies and web accessibility. Librarians will value this accessible and important book as they strive for equity and inclusivity.

The Country of the Blind Andrew Leland,2024-07-23 FINALIST FOR THE PULITZER PRIZE Named one of the best books of the year by: THE NEW YORKER • THE WASHINGTON POST • THE ATLANTIC • NPR • PUBLISHERS WEEKLY • LITHUB Fascinating...The great strength of this memoir is its voracious, humble curiosity. - The Atlantic, The 10 Best Books of the Year A witty, winning, and revelatory personal narrative of the author’s transition from sightedness to blindness and his quest to learn about blindness as a rich culture all its own. We meet Andrew Leland as he’s suspended in the liminal state of the soon-to-be blind: he’s midway through his life with retinitis pigmentosa, a condition that ushers those who live with it from sightedness to blindness over years, even decades. He grew up with full vision, but starting in his teenage years, his sight began to degrade from the outside in. Soon— but without knowing exactly when—he will likely have no vision left. Full of apprehension but also dogged curiosity, Leland embarks on a sweeping exploration of the state of being that awaits him:

not only the physical experience of blindness but also its language, politics, and customs. He negotiates his changing relationships with his wife and son, and with his own sense of self, as he moves from his mainstream, “typical” life to one with a disability. Part memoir, part historical and cultural investigation, *The Country of the Blind* represents Leland’s determination not to merely survive this transition but to grow from it—to seek out and revel in that which makes blindness enlightening. Brimming with warmth and humor, it is an exhilarating tour of a new way of being.

These beautiful books make perfect gifts or a treat for any book lover. A young Hornblower is tested in a rare short story by C. S. Forester, a ship’s captain is gripped by a fatal desire to stay on course in 'Make Westing' by Jack London and terrifying sea monsters rear their heads in Rudyard Kipling’s 'A Matter of Fact'. An elderly captain saves the day in 'The Captain’s Arm' and 'The Open Boat' by Stephen Crane is an account of a nail-biting shipwreck. Many of the writers chosen here are experienced sailors and seafarers themselves, bringing authenticity and realism to their own gripping tales.
