## Declan Power

*Siege at Jadotville* Declan Power, 2016-09-20 The Irish soldier has never been a stranger to fighting the enemy with the odds stacked against him. The notion of charging into adversity has been a cherished part of Ireland's military history. In September 1961, another chapter should have been written into the annals, but it is a tale that lay shrouded in dust for years. The men of A Company, Thirty-Fifth Irish Infantry Battalion, arrived in the Congo as a United Nations contingent to help keep the peace. For many it would be their first trip outside their native shores. Some of the troops were teenage boys, their army-issue hobnailed boots still unbroken. They had never heard a shot fired in anger. Others were experienced professional soldiers but were still not prepared for the action that was to take place. Led by Commandant Pat Quinlan, A Company found themselves tasked with protecting the European population at Jadotville, a small mining town in the southern Congolese province of Katanga. It fell to A Company to protect those who would later turn against them. On September 13th, 1961, the bright morning air of Jadotville was shattered by the sound of automatic gunfire. The men of A Company found their morning mass parade interrupted, and within minutes they went from holding rosaries to rifles as they entered the world of combat. This was to be no Srebrenica; though cut off and surrounded, the men of Jadotville held their ground and fought. This is their story.

**The Siege of Derry 1689** Richard Doherty, 2016-09-14 The Protestant war cry of 'No Surrender!' was first used in 1689 by the Mayor of Londonderry as James II's army laid siege to the city for 105 days, during which half the city's population died. There were many acts of courage, from the heroic death of Captain Browning to the anonymous, apprentice boys who played signal roles in the defence of the city. The book examines how the Jacobites might have achieved success, and the far reaching impact of the siege as a crucial event in the second British civil war. This is a military study of one of the most iconic episodes in Irish history, based on contemporary accounts, official records of the day, and published works on the siege. With an understanding of seventeenth-century warfare, especially siegecraft, the author probes many of the myths that have grown up around the siege and sets it in its proper context. Its ramifications for the consequent history of Ireland cannot be over emphasised.

*We Don't Know Ourselves* Fintan O'Toole, 2022-03-15 NEW YORK TIMES BESTSELLER NEW YORK TIMES • 10 BEST BOOKS OF THE YEAR NATIONAL BESTSELLER The Atlantic: 10 Best Books of 2022 Best Books of the Year: Washington Post, New Yorker, Salon, Foreign Affairs, New Statesman, Chicago Public Library, Vroman's "[L]ike reading a great tragicomic Irish novel." —James Wood, The New Yorker "Masterful . . . astonishing." —Cullen Murphy, The Atlantic A landmark history . . . Leavened by the brilliance of O'Toole's insights and wit." —Claire Messud, Harper's Winner • 2021 An Post Irish Book Award — Nonfiction Book of the Year • from the judges: "The most remarkable Irish nonfiction book I've read in the last 10 years"; "[A] book for the ages." A celebrated Irish writer's magisterial, brilliantly insightful chronicle of the wrenching transformations that dragged his homeland into the modern world. Fintan O'Toole was born in the year the revolution began. It was 1958, and the Irish government—in despair, because all the young people were leaving—opened the country to foreign investment and popular culture. So began a decades-long, ongoing experiment with Irish national identity. In *We Don't Know Ourselves*, O'Toole, one of the Anglophone world's most consummate stylists, weaves his own experiences into Irish social, cultural, and economic change, showing how Ireland, in just one lifetime, has gone from a reactionary "backwater" to an almost totally open society—perhaps the most astonishing national transformation in modern history. Born to a working-class family in the Dublin suburbs, O'Toole served as an altar boy and attended a Christian Brothers school,

much as his forebears did. He was enthralled by American Westerns suddenly appearing on Irish television, which were not that far from his own experience, given that Ireland's main export was beef and it was still not unknown for herds of cattle to clatter down Dublin's streets. Yet the Westerns were a sign of what was to come. O'Toole narrates the once unthinkable collapse of the all-powerful Catholic Church, brought down by scandal and by the activism of ordinary Irish, women in particular. He relates the horrific violence of the Troubles in Northern Ireland, which led most Irish to reject violent nationalism. In O'Toole's telling, America became a lodestar, from John F. Kennedy's 1963 visit, when the soon-to-be martyred American president was welcomed as a native son, to the emergence of the Irish technology sector in the late 1990s, driven by American corporations, which set Ireland on the path toward particular disaster during the 2008 financial crisis. A remarkably compassionate yet exacting observer, O'Toole in coruscating prose captures the peculiar Irish habit of "deliberate unknowing," which allowed myths of national greatness to persist even as the foundations were crumbling. Forty years in the making, *We Don't Know Ourselves* is a landmark work, a memoir and a national history that ultimately reveals how the two modes are entwined for all of us.

*Mercenaries and Security Contractors in the 21st Century* Eugenio Cusumano, Christopher Kinsey, Robert Parr, 2025-03-31 This book examines the debate over private security contractors, using historical and contemporary cases, including several non-Western examples. Since the end of the Cold War, security privatization has grown in its geographical outreach, breadth, and scope. This pervasive expansion of the private military and security market warrants a systematic investigation of commercial actors' involvement in the variety of tasks associated with the provision of violence, ranging from combat to vessel protection and cybersecurity. Combining theoretical and empirical approaches, the essays in this volume provide a historical investigation into private force that extends beyond Europe and the United States. By focusing on recent developments, such as the extensive involvement of Russian mercenaries in Ukraine, new evidence from the Global South, and the added historical depth given to the study of commercial providers of warfare, this volume questions the endurance of norms like the mercenary taboo and the state monopoly of violence. In doing so, it sheds new light on the past, present, and future of private security. This book will be of much interest to students of private security studies, military studies, security studies, and international relations.

**Elegy for a Broken Soldier** Chris McQuaid, 2019-01-18 Nothing in my army training had prepared me for what happened in Jerusalem in February 1965. In Chris McQuaid's stunning memoir, *Elegy for a Broken Soldier*, a traumatic event led to his Post-Traumatic Stress Disorder (PTSD). Music became the only respite that provides him solace. Chris was a member of the Irish Army guard of honour for the visit of US President John F. Kennedy to Dublin in June 1963. With the cheers of the crowds lining the presidential route still ringing in his ears, he felt ten feet tall as he prepared for his first UN peacekeeping mission to the Congo. On a UN mission to Cyprus in 1965, trauma changed Chris's life forever, marking the

beginning of his PTSD. In Lebanon in 1980, his life was threatened, and the shock effectively ended his military career. Neither event originated on the battlefield, but from within the Irish Army. Despite severe depression and suicidal thoughts, Chris continued his education and returned to the service to become a commissioned officer. He left the army in 1986 with a glowing service record. A long legal wrangle and a succession of psychiatric and psychological assessments have led to even greater health problems, but Chris has survived it all.

Missing in Action: The 50 Year Search for Ireland's Lost Soldier Ralph Riegel, John O'Mahony, 2010-08-23 The interior of the old Ford armoured car stank of sweat, blood and acrid smoke. Pat's eyes desperately struggled to focus in the gloom of the biting cordite fog ... On 15 September 1961, Trooper Patrick Mullins was posted missing after the bloody ambush of an Irish UN convoy in a suburb of Elisabethville in the Katanga province of the Congo. The circumstances of that fateful day have remained shrouded in confusion and contradiction for five decades – until now. *Missing in Action* reveals for the first time how an ill-equipped and heavily out-gunned Irish soldier fought with astonishing courage against heavily armed and ruthless Katangan gendarmes. Through interviews with the survivors and access to military intelligence sources, the truth about Trooper Mullins' heroic last stand and ultimate fate can now be told.

*Siege at Jadotville*, 2010

Into Action Dan Harvey, 2017-03-13 *Into Action* is the story of the Irish Defence Forces' role as international peacekeepers since 1960. While primarily posted to uphold the transition towards peace in overseas conflicts, they have at times inevitably been forced to fight back against often aggressive opposition. Dan Harvey's fascinating and accessible history follows the major military incidents in the peacekeepers' sixty-year campaign, from Niemba, the Siege at Jadotville, and Elisabethville in the Congo to At-Tiri in Lebanon, and Durbol in Syria. These are to name just a few of the military engagements that involved supreme bravery on behalf of the Irish Defence Forces and, at times, ended in terrible tragedy. Dan Harvey's detailed account of the military operations they were involved in reveal the defence forces' effective responses to crisis and conflict; how they stood firm during ethnically-motivated rioting in Gracancia or intervened in the midst of a clash between Chadian government forces and rebel attackers, and how the Irish nation was halted into mourning in November 1960 by news that nine soldiers of the 33rd Irish Battalion had been killed by Baluba warriors near Niemba in the Congo. These are the deeds and tragedies that have come to define Ireland's role in international peacekeeping. *Into Action* reveals the true story of this role and the immense courage that have underlined its operations from the beginning.

*The Irish Yearbook of International Law, Volume 11-12, 2016-17* Fiona de Londras, Siobhán Mullally, 2018-11-29 The Irish Yearbook of International Law (IYIL) supports research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish policy and practice on matters of international law. issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international bodies, Ireland and the law of the sea, and the law of the European Union as relevant to developments in Ireland. In addition, the Yearbook reproduces key documents that reflect Irish practice on contemporary issues of international law. This volume of the Yearbook includes a symposium issue on Brexit, Ireland and international law, bringing together leading academics exploring the international legal-political context of Brexit for Ireland.

The Little Book of the Wild Atlantic Way Helen Lee, 2021-06-25 Did you know that the inventor of the submarine was born along the west coast of Ireland, that ships from the Spanish Armada floundered off the Irish Atlantic seaboard and that guns for the 1916 Easter Rising were to be landed at Barna Strand in Co. Kerry but the ship, The Aud, was intercepted by the British Navy? Did you know that there was a plan to smuggle Marie Antoinette from France and away from Madame Guillotine to Dingle, that the Fasnet Rock off the south coast is known as the 'tear drop of Ireland' and that Maureen O'Hara's husband was a flying boat pilot who regularly flew into the flying boat station at Foynes? And did you know that Martello towers were built along the western seaboard during the Napoleonic Wars in case Napoleon tried to invade Great Britain via 'the back door'? This fact-packed little book is full of all sorts of information that will surprise even those who think they know the towns and villages along the Wild Atlantic Way.

**Gatekeeping in the Evolving Business of Independent Film Distribution** Roderik Smits, 2019-07-09 This book is about the business of distribution, around which the international film business revolves. Considering sales agents and distributors as primary gatekeepers, the book examines the networks in which they operate, how they operate, how their practices have evolved, and the power and control they exert over the business of independent film distribution. Critically, it also considers how they are affected by the powerful influence of Netflix and Amazon in the online era. At a time of disruption and change to traditional business models and industry professions, Roderik Smits argues that gatekeepers remain equally – if not more – crucial to the distribution and circulation of films in international markets.

**The Nuclear Club** Jonathan R. Hunt, 2022-11-29 The Nuclear Club reveals how a coalition of powerful and developing states embraced global governance in hopes of a bright and peaceful tomorrow. While fears of nuclear war were ever-present, it was the perceived threat to their preeminence that drove Washington, Moscow, and London to throw their weight behind the 1963 Limited Test Ban Treaty (LTBT) banishing nuclear testing underground, the 1967 Treaty of Tlatelolco banning atomic armaments from Latin America, and the 1968 Nuclear Non-Proliferation Treaty (NPT) forbidding more countries from joining the most exclusive club on Earth. International society, the Cold War, and the imperial U.S. presidency were reformed from 1945 to 1970, when a global nuclear order was inaugurated, averting conflict in the industrial North and yielding what George Orwell styled a peace that is no peace everywhere else. Today the nuclear order legitimizes foreign intervention worldwide, empowering the nuclear club and, above all, the United States, to push sanctions and even

preventive war against atomic outlaws, all in humanity's name.

**Belgian Military Forces in the Congo** Stephen Rookes, 2022-07-21 Though the dynamics of the Congo Crisis have received, and continue to receive, a good deal of literary and scholarly attention, missing from the canon of work on military forces in the Congo is a study of the Force Publique, a paramilitary police force established by King Léopold II to secure the Congo Free State and to protect a vast geographical swath of Central Africa that had become his own personal possession following the Berlin Conference of 1884-1885. In many ways, the absence of any study on the origins of the Force Publique to its dissolution in 1960 means that our knowledge surrounding the history of the Belgian Congo and the modern-day Democratic Republic of the Congo is incomplete. Indeed, it is possible to trace the origins of rebellion in the Congo Crisis (1960-1967) back to the Batetela Rebellions that took place in the Congo Free State in the 1890s and early 1900s, and to link them with a succession of anti-Belgian popular uprisings that took place in the Congo up to the time of the Congo's independence. Moreover, a revolt by NCOs of the Force Publique was one of the sparks that plunged the Congo into crisis in early July 1960. It would be wrong to say, nonetheless, that the geographical extent of this volume – the first of two on Belgian military forces in the Congo – is limited within the boundaries of the Congo Free State and the Belgian Congo: through descriptions of military encounters in Africa in the late 1890s and First and Second World Wars, the history of the Force Publique is extended into a study of war in the Sudan, East Africa, and in Ethiopia. For aviation enthusiasts, this volume is significant in that its objective is to provide a history of the development of air travel to and from the Belgian Congo in addition to examining the evolution of military air forces in the colony. Again, we can link the Force Publique's air branch to the Congo Crisis as a number of its pilots and aircraft served to form the basis of the Katangan Air Force and the Congolese Air Force; two forces that were highly influential in deciding the future of the Congo after its independence. The first volume of *Belgian Military Forces in the Congo* is illustrated throughout with photographs and includes specially commissioned color artworks of the weapons, soldiers and aircraft of the Force Publique.

**In Fact** Mark Henry, 2021-10-22 This optimistic guide to Ireland at 100 tells our national story through facts and stats, placing Ireland under the microscope to chart 100 achievements of the past 100 years. Ireland remained one of the most poverty-stricken nations in Europe for decades after the State was formed. Yet now, it has the second-highest standard of living in the world. Author Mark Henry has gathered the data to tell an under-told story of our national progress across every aspect of Irish life. He identifies the factors that account for Ireland's extraordinary success, as well as the five most prominent psychological biases that prevent us from recognising how far we have come. He also highlights the greatest challenges that we must now address if we are to continue to progress in the century ahead. While there is still more to be done, *In Fact* illustrates that Ireland, for all its imperfections, is in a much better state than you might think.

Supply Chain Disruption Steve O'Sullivan, 2019-08-03 Disruptive technologies have the power to upend supply chains, adding uncertainty, cost, and complexity to any business. It presents new ways of planning more effectively and efficiently through the use of new tools and techniques, creating improvements in agility, customer service and cost.

**Prime Minister Priti** Duncan Brack, Iain Dale, 2021-07-27 She woke with a start. Could it really have happened, or was it just a cruel dream? One way to find out. She reached for the remote control ... 'You're watching GB News, the fair and balanced way to start your day,' intoned the voice of Andrew Neil, overlaid on a remix of 'Land of Hope and Glory'. And then it hit her, as she took in the newsreader's first headline. 'The new Prime Minister, Priti Patel, is about to announce her first Cabinet appointments...' The new Prime Minister... So it was real. What does it take to change history? Clement Attlee dying on the battlefield, perhaps? John Lennon surviving that bullet, or Theresa May finally (finally!) passing her Brexit deal? Or maybe the pivotal recent years of UK history turned on one man's decision to have just one more drink... This is the world of political counterfactuals. Here, twenty-three fictional accounts, written by experts in their fields, tell the tales of what might have been – and what might still come to pass. Captivating and illuminating, these stories are guaranteed to make you smile – or gasp in horror...

Fadó Fadó Rónán Gearóid Ó Domhnaill, 2015-04-28 A long, long time ago... Fadó Fadó: More Tales of Lesser Known Irish History is the sequel to Fadó: Tales of Lesser Known Irish History (Matador, 2013). It reveals more episodes from Irish history throughout the ages. The Irish abroad are not neglected in this collection of tales, many of which are not widely known or have been long forgotten about. The author makes no attempt to heroise or demonise the figures, though some of the characters do not deserve the obscurity to which the passage of time has condemned them, while others are probably best forgotten. Their stories illustrate the rich tapestry that forms Irish history... Who was the walking gallows of Wicklow? What was it about a cave in Donegal that attracted visitors from all over Europe? What happened to the priest who evoked the ire of the Irish government? How did an Irish civil servant defy the Nazis at a time when appeasement was popular? Whose corpse in Galway created wonder and fear? Why did a Monaghan man eat his fellow convicts? And how did a Dublin woman try to assassinate Mussolini? Laid out in chapters long enough to cover what is important and still retain the reader's interest, this book can be started from anywhere. Just like its prequel, Fadó Fadó is a must-have book for anyone interested in Irish history.

**The Essence of Invention** Kieran Murphy, 2024-06-25 Meet the brilliant mavericks who invented the future of medicine and saved the lives of millions. The Essence of Invention tells the story of medical inventors who have laid the foundation for modern patient care, from the development of anaesthesia and safe surgery to the advent of vaccines against smallpox, polio, and Covid-19, and how, through creativity and persistence, they have changed the world. The same kind of energy that drove Van Gogh or the Beatles can manifest itself in medicine as inventiveness and the creation of new medical devices. The field may feel very different from what is traditionally considered a creative industry, but the fundamental motivation and aspiration to create and the conviction and resilience needed to do so are the same. Dr. Murphy celebrates the creative energy of courageous men and women, honours their unique gifts, and explains how a culture of creativity and collaboration can and must be established around them to allow their talents to take flight.
