It is a work which has been welcomed by the growing number of yachtsmen and designers throughout the world who already enjoy the benefits of junk rig or who wish to do so. Makers Of Japan J Morris,2018-08-16 First Published in 1906, Morris melds Japanese culture and historic past to create a discourse on the change in attitude to foreign powers in the 1800's. By providing a general impression of Japan and her people, and discussing the workings of reform, as exemplified in the lives of her patriots, the book explores Japan's status amongst the international community as an enlightened nation and modern powerhouse.

Norwegian Maritime Explorers and Expeditions Over the Past Thousand Years Øystein Johansen,1999 Norwegian maritime explorers and expeditions take you on the greatest journeys of discovery over a thousand years. Throughout Norwegian history, the sea has been the most important highway used by Norwegians in their travels along our almost 2000-kilometre-long coast or to more distant destinations. Some explorers set off in search of new territories for commercial reasons, like Viking Ottar around the year 890 A.D. and Leif Eiriksson in 999 A.D., Jens Munk in 1619 or Carl Anton Larsen and Otto Sverdrup in the twentieth century. Others, like Fridtjof Nansen and Road Amundsen, had a burning desire to explore new countries and realize personal ambitions, or, like Thor Heyerdahl, they have wanted to prove a theory about ancient vessels and their ability to cross oceans. All these explorers have one key characteristic in common: they look upon the sea as a natural element to be mastered, but not conquered. They conducted their expeditions on nature's own terms, in spite of the risks involved. The chapters of this book tell stories of daring courage, stubborn endurance and scientific curiosity, and the drama and tension derive not only from the explorers' struggle with the forces of nature but also from the outstanding personalities of the men who made these journeys... -- Publisher's description

Sailing into the Past Jenny Bennett,2009-06-18 This is a book everyone should read. It is the autobiography of an ace, and no common ace either. The boy had all the noble tastes and qualities, love of beauty, soaring imagination, a brilliant endowment of good looks . . . this prince of pilots . . . had a charmed life in every sense of the word' - George Bernard Shaw Sent to France with the Royal Flying Corps at just seventeen, and later a member of the famous 56 Squadron, Cecil Lewis was an illustrious and passionate fighter pilot of the First World War, described by Bernard Shaw in 1935 as 'a thinker, a master of words, and a bit of a poet'. In this vivid and spirited account the author evocatively sets his love of the skies and flying against his bitter experience of the horrors of war, as we follow his progress from France and the battlefields of the Somme, to his pioneering defence of London against deadly night time raids.

Connected by the Sea Lucy Blue,Frederick M. Hocker,Anton Englert,2016-03-31 The 10th International Symposium on Boat and Ship Archaeology was held in Roskilde, Denmark in 2003. The theme of the meeting was Connected by the Sea, and was designed to emphasize the role of the sea, seafaring and watercraft as bridges rather than barriers. Maritime archaeology tends to take place within national borders, with a national focus, yet the very premise of seafaring is the desire to travel beyond the horizon to establish contact with other places and cultures. The conference theme was chosen to encourage the maritime archaeological community to think in international terms.

The Viking Age Charles Keary,2018-04-20 The present volume is concerned with that period in the history of the Scandinavian peoples when they were growing, but had not yet fully grown, into nationalities, and when, therefore, their true national history had not begun. Every historic people has passed through this early formative period, its age of Sturm und Drang; and it may be said that every nationality which is worthy of the name has looked back upon that age with a peculiar affection and with a sort of reverence. It has, in consequence, overlaid the faint traditions of it with a garment of mythology, out of which it is in most cases possible only here and there to separate a shred of historical truth. The result is that the very phase in the development of the people about which we most long to know, is the one about which we are condemned to the completest ignorance. The Viking Age of the Northern Folk differs from the corresponding epochs in the history of other nations in this - that it is illuminated by a faint ray of real history lent from the pages of contemporary but alien chroniclers, the chroniclers, I mean, of Christian Europe. Were it not for this faint gleam, the earliest age of the Vikings would have remained for us as a mere tradition, something known to have been, but not presentable in any realizable form; much, in fact, what the Dorian Migration is in the history of Greece. As it is, by the aid of the contemporary records I have spoken of, we can present the northern migration in a clearer guise.

My Family and Other Spies Alistair Wood, 2025-05-08 An extraordinary true story of growing up inside MI6, uncovering family secrets, and tracing a legacy of British espionage across half a century. 'A fabulous romp of a book, part John le Carré, part Ealing comedy ... compulsively readable' SUNDAY TIMES 'Tells the story of the author's unique childhood and the extraordinary, shadowy lives of his mother and father' SUNDAY TELEGRAPH 'Truth is stranger than fiction ...' INDEPENDENT 'Reads like a Cold War thriller written by John le Carré with an added injection of wry humour' BBC SATURDAY LIVE - It has always been inculcated into me that no good could ever come of having anything to do with my father... As a boy, Alistair Wood lived within the (very high) walls of a Secret Intelligence Service - or MI6 - training camp, surrounded by some of the most senior - and colourful - characters in SIS history. After all, he was family. His mother was one of a handful of women to have operated behind the lines in post-war Berlin. His father, once one of Britain's most highly-regarded intelligence officers, was an absent and perplexing figure, the reasons for his sudden departure from the Service still classified to this day. But Wood's search for the truth took him on a journey more remarkable than even he had imagined. My Family and Other Spies is a gripping exploration of an extraordinary, scarcely believable life, a globe-trotting spy story that spans a half century from the gathering storm before the Second World War to the fall of Communism, and a son's reckoning with the secrets of the past. 'Simply stunning ... might be the best non-fiction book I've ever read about post-war SIS' CHARLES BEAUMONT 'A remarkable insight into British intelligence in the Cold War...with all the intrigue and suspense of a truly gripping espionage novel' ALEX GERLIS "This is very entertaining ... a fascinating biography" STEPHEN DORRIL, author of MI6: 50 Years of Special Operations 'A compelling personal journey to uncover the truth and an intimate view into one of Britain's most secretive organisations' HELEN FRY 'The intriguing story of how the author peels back the cloak of mystery surrounding his father, a member of the Secret Intelligence Service. A very good book ... strongly recommended' ROBERT LYMAN

Sailing Ships Edward K. Chatterton, 2013-05 This story of sailing ships has been written primarily for the general reader, in the hope that the sons and daughters of a naval nation, and of an Empire that stretches beyond the seas, may find therein a record of some interest and assistance in enlarging and systematising their ideas on the subject, especially as regards the ships of earlier centuries. I trust that both the yachtsman and sailorman will find in these pages something of the same exiting pleasure which has been mine in tracing the course of the evolutions through which their ships have passed. A well written and beautifully illustrated historical account that starts with the early Egyptian ships from 6000 BC and covers the

development of sailing ships until the beginning of the 20th century. Reprint of the original edition from 1909.

Through the portal: The rise of the North King, 2024-11-30 "I just wanted a quiet life... But then I went through a portal to another world." Thrown into a world full of magic, flying dragons and dangerous creatures, the protagonist finds himself in a land inhabited by powerful gods and mysterious races. As an ordinary citizen who does not even know the language, survival seems an impossible task. But with the awakening of an unusual ability -- the power to summon allies from the old world -- everything changes. With each new ally, the protagonist rises in the social ranks, turning the struggle to survive into a journey to the top. However, the kingdom is threatened by an invasion of monsters, and the fate of the North depends on him. "Do I really have to save this world? I just wanted to go home..." From ordinary citizen to King of the North - the fate of an entire land is in his hands. But when two worlds collide, who knows what the future will bring?
