web in this section we introduce the trigonometric functions
using a right triangle there are 6 main trigonometric
functions sine cosine tangent cotangent secant and cosecant
for acute angles these functions can be defined as ratios
between the sides of a right triangle consider a right triangle
abc with an acute angle α

web a right triangle is a type of triangle that has one angle
that measures 90° right triangles and the relationships
between their sides and angles are the basis of trigonometry
in a right triangle the side that is opposite of the 90° angle is
the longest side of the triangle and is called the hypotenuse
