Patricia Elliott

To Snap a Silver Stem Sarah A Parker, 2022-08-08 I want him to hurt. To bleed. I want him to snap, just like he snapped me. Once upon a time, my world was small and sheltered. Everything changed the moment I stepped over my Safety Line, barreling towards a coupling with a man I hardly know. He wants me. All of me. Dunked in a charged political pit, I must secure the ships needed to quell the spill of murderous beasts still flooding the continent. But one wrong move could spur the war I've worked so hard to avoid. I'll wear the dress and the cupla and the shoes. I'll do it all with a smile on my face. Because everyone's watching. He's watching-hunting a fissure in my frosty shield, trying to scrape back the layers and see my ugly insides. He's unyielding. Unguarded. Changed. Why is he looking now when I've got everything to hide? Secrets sprout, truths bloom, and more than one of us will snap. Crowned in the crippling weight of my mistakes, I must atone. Even if it costs me my life. Fear was my overlord. Now, it's my prisoner. To Snap a Silver Stem is the explosive sequel of To Bleed a Crystal Bloom-a dark Rapunzel reimagining full of immersive imagery and breathtaking angst. A unique fantasy series perfect for fans of Sarah J. Maas and Jennifer L. Armentrout, guaranteed to grip you from the very first page.

The Silver Ship and the Sea Brenda Cooper, 2017-08-07 "Distinctive characterizations" in this sci-fi fantasy "contribute to an exciting coming-of-age story with a strong message about the evils of prejudice" (Booklist). Prisoners of a war they barely remember, Fremont's Children must find a way to survive in a world that abhors their very nature. Or they must discover a way to leave it . . . Brenda Cooper's Fremont's Children series launches with her award-winning novel *The Silver Ship and the Sea*. Cooper explores what it means to be so different that others feel they must oppress you. Six genetically enhanced children are stranded on the colony planet Fremont in a war between genetic purists and those that would tinker with the code. Orphaned, the children have few remnants of their heritage other than an old woman who was left for abandoned at the end of the war, and a mysterious silver ship that appears to have no doors. To keep themselves alive, the children must leave the safety of the insular community and brave the beautiful but dangerous wilds of Fremont. Is it an echo of their own natures, or a proving ground of their genetic worth? In this battle of wills and principles, what does the future hold for Fremont's Children? Winner of the Endeavor Award "An engrossing tale of six young outsiders growing up on a colony planet . . . This is an adventure story . . . But it is also a story about the relationships between insiders and outsiders . . . between people who need each other in order to survive." —School Library Journal "Fast-paced and full-bodied, *The Silver Ship and the Sea* is character-driven hard SF at its best." —The Seattle Times

Wildflowers and Other Plants of Iowa Wetlands, 2nd edition Sylvan T. Runkel,Dean M Roosa,2015-04-15 Originally published in 1999, Wildflowers and Other Plants of Iowa Wetlands was the first book to focus on the beauty and diversity of the wetland plants that once covered 1.5 million acres of Iowa. Now this classic of midwestern natural history is back in print with a new format and all-new photographs, just as Iowa's wetlands are getting the respect and attention they deserve. In clear and accessible prose, authors Sylvan Runkel and Dean Roosa provide common, scientific, and family names; the Latin or Greek meaning of the scientific names; habitat and blooming times; and a complete description. Plants are presented by habitat (terrestrial or aquatic), then refined by habit (e.g., emergent, floating, or submerged) or taxonomic group (e.g., ferns and allies or trees, shrubs, and vines). Particularly interesting is the information on the many ways in which Native Americans and early pioneers used these plants for everything from pain relief to tonics to soup and the ways that wildlife today use them for food and shelter. Each of the more than 150 species accounts is accompanied by a brilliant full-page color photograph by botanist Thomas Rosburg, who has also updated the nomenclature and descriptions for certain species. After decades of being considered an enemy of the settler, the farmer, and the citizen, Iowa's wetlands have come into their own. We are finally caring for these important habitats. Runkel and Roosa's updated field companion will be a valuable guide to today's preservation and restoration initiatives.
