Comparative Criticism: Volume 14, Knowledge and Performance E. S. Shaffer,1992-10-22 Addresses literary theory and criticism, comparative studies in terms of theme, genre movement and influence, and interdisciplinary perspectives.

The Writer at Work Christian Karlson Stead,2000 Into this volume C.K. Stead gathers a selection of his essays from the past decade, mixing literary criticism with autobiography. He reviews the work of other writers, meditates on the teaching of literature, revisits some controversies and explores literary history. Always interesting, the essays travel through time and space - from Janet Frame, to Barry Humphries' birthday, to Paul Theroux and telling the truth, to Shelley's Constantia - on a brilliant carpet of scholarship and wit.

Gamification in Higher Education Sierra Adare-Tasiwoopa ápi,Nathan Silva,2023-10-30 Gamification in Higher Education is a user-friendly text for anyone curious about gamification and how it increases student engagement. This book presents actual examples from gamified college courses, furnishing strategies and detailed plans for integrating gamification, regardless of the subject area, discipline, or modality. Moreover, the step-by-step how-to aspects of gamification that do not

require expensive, proprietary gaming software set this book apart from others in the field. Gamification in Higher Education explores ways to incorporate real-world simulations and promote critical thinking skill, while focusing on storytelling through which to draw in students and help them get into the game, both literally and figuratively. Additionally, the book examines gamification research and how it can be used to support reluctant learners who normally struggle with complex course content. The authors share their experiences with what has worked and, more importantly, what has not worked in adding gamification to their courses. This key resource offers educators a practical guide that will take instructors step-by-step through the design, development, and implementation of game elements, games, and fully gamified courses without using costly specialized software. Its conversational tone endeavors to put educators, whether novice, mid-career, or veteran, at ease with the process of gamification.
