Bilingualism and Bilingual Education: Politics, Policies and Practices in a Globalized Society B. Gloria Guzmán Johannessen, 2019-01-14 This volume presents a multinational perspective on the juxtaposition of language and politics. Bringing together an international group of authors, it offers theoretical and historical constructs on bilingualism and bilingual education. It highlights the sociocultural complexities of bilingualism in societies where indigenous and other languages coexist with colonial dominant and other prestigious immigrant languages. It underlines the linguistic diaspora and expansion of English as the world's lingua franca and their impact on indigenous and other minority languages. Finally, it features models of language teaching and teacher education. This book challenges the existent global conditions of non-dominant languages and furthers the discourse on language politics and policies. It does so by pointing out the need to change the bilingual/multilingual educational paradigm across nations and all levels of educational systems.

De los colegios a las universidades: La Compañía de Jesús educando desde 1540 Perla Chinchilla

Pawling,2021-08-12 De los siglos XVI y XVIII los colegios de la Compañía de Jesús fueron muy importantes; en el XIX la Modernidad la llevó a asumir los cambios pedagógicos, y si bien siguieron con su labor en la educación media superior, sus universidades florecieron.

Decolonizing Primary English Language Teaching Mario E. López-Gopar,2016-06-10 This book tells the story of a project in Mexico which aimed to decolonize primary English teaching by building on research that suggests Indigenous students are struggling in educational systems and are discriminated against by the mainstream. Led by their instructor, a group of student teachers aspired to challenge the apparent world phenomenon that associates English with “progress” and make English work in favor of Indigenous and othered children’s ways of being. The book uses stories as well as multimodality in the form of photos and videos to demonstrate how the English language can be used to open a dialogue with

children about language ideologies. The approach helps to support minoritized and Indigenous languages and the development of respect for linguistic human rights worldwide.

Didácticas virtuales y práctica docente, 2024-01-15 Este libro se conforma en dos grandes partes. La primera de ellas se enfoca en experiencias de didácticas virtuales durante la pandemia, por ejemplo la resignificación de las tecnologías, los desafíos para el docente a raíz de la pandemia y la efectividad de la educación a distancia. La segunda parte se encarga de registrar algunas prácticas docentes y académicas llevadas a cabo por expertos en diferentes instituciones educativas. El objetivo general es evaluar, una vez más, el significado y el sentido de la labor docente, además de ofrecer un marco metodológico que pueda ser útil para quienes consultan esta obra.
